Like A Mighty Banyan

A Small Grant Produces An Important Book

Last Thursday, when accounts were closed on EA/EO Grant 2-53-104-1, Dr. Melvin Haynes, Jr., and George Matsoukas heaved a sigh of relief almost as mighty as the title of the book the grant produced: Like A Mighty Banyan: Contributions of Black People to the History of Palm Beach County.

When George and Mel and Jesse Ferguson first talked about the project, which actually got underway in July, 1981, it did not seem all that complicated or difficult. Hold a series of symposia on black history, invite everyone interested, collect the data, get a good editor like Vivian Rouson with C. Spencer Pompey as associate, and there you are--the first book on the history of black people in the county, and one of the first such books in the state and nation.

Fourteen months later, after hundreds of meetings, thousands of hours of hard work, and crises too varied and numerous to mention, came that mighty sigh of relief coupled with a feeling of a job well done.

"The book is not perfect," Mel told a crowd at the auditorium, out on a rainy Sunday afternoon to celebrate a book which had miraculously became a reality at 6 p.m. the day before, "but it is an important book.

"It is a starting point," Mel said. "Now we have this much, where we had nothing before."

The book has 96 pages, 32 photographs, and five major divisions: Education, Politics, Social/Civic Life, Business/Professional Life, and Religion.

It starts, in the introduction, with two words--The "Styx", and with a good photograph of that almost legendary settlement located on what is now some of the choicest real estate in the world in the town of Palm Beach. This is precisely where such a history should begin.

PBJC people appear in many places in the book. Ruby Bullock and Ron Moses were on

Fall Series, Glades

The Dolly Hand Cultural Arts Center at PBJC Glades is off to a fast Fall season. The Royal Palm Chorus chapter of Sweet Adelines from WPB are presenting an evening of four-part harmony, barbershop style, on October 23 at 8PM. The group has been a consistent medalist in their regional competition each year, and won the title of Regional Champions in April, 1981. Admission is $3.00.

Then, "Angel Street", a mystery known as Gaslight when the movie was made with Boyer and Bergman, will be presented by the professional State touring company, Asolo, from Sarasota. They'll play November 5, 8PM.

"Family Concert", Novermber 11 at 7:30PM brings a fresh approach to classical music. Theodore Lettvin, pianist, touches the minds and hearts of children and adults through commentary and imagination.

November 28 brings the Royal Poinciana Playhouse troupe from Palm Beach for a presentation of "Babes on Broadway" for a 2:30 Sunday afternoon show. This is performed by the Children's Theatre, and is enjoyable for all ages.

What would the Christmas season be without a "Nutcracker"? Ballet Arts of WPB will bring alive the Snow Forest, complete with Snow Prince, Sugar Plum Fairy and Kingdom of Sweets on December 11 at 8PM.

January 7 will see the PBJC Senior Theatre present "Born Yesterday." This famous play for the "young at heart" will feature players 55 or older, who have the zest and enthusiasm of youngsters. Wait 'til you see who plays Judy Holiday's part. Come at 8PM.

It sounds like a wonderful way to kick off the first full year for the new Center.

S. O. S. From PBJC Players

NEEDED: Hard to find costumes and props
PURPOSE: for the 1st production of the season at PBJC, "A History of The American Film"
WHEN: To be presented October 29-31, and November 5-7, 8:14PM
WHERE: PBJC Auditorium, Central Campus

A History of the American Film--the musical comedy by Christopher Durang with music by Mel Marvin--(presented on Broadway in 1978) traces the evolution of the U.S. cinema from the early days of silent movies, up to the present time. Frank Leahy, faculty director says this requires costumes and props from many periods.

"But the most important items we need are 12-16 theater seats, to be used on stage throughout the production," says Leahy.

"A number of wigs, that can be styled for the different eras, as well as Army, Navy and Marine uniforms from World War II, tuxedos, and women's clothing from the 30's, 40's and 50's will be needed as well as a motorized wheelchair," he continued.

Also needed, according to Art Musto, faculty technical director for the show is an American flag in neon or flashing lights and a huge, ornate "castle-type" chair for one portion of the show.

Anyone willing to donate or lend any of the items needed should call 8139 or 8142.

Like A Mighty Banyan (Cont'd. from P 1)

the steering committee in addition to those already mentioned, Dan Hendrix and Ruby both have photos in the Politics section, Trinette Robinson and others are mentioned in the text.

The Sunday celebration meeting had the grand old man of black education in America, Dr. Benjamin Mays, president emeritus of Morehouse College, as keynote speaker.

An impressive compilation of historical materials filled the Foodservice Center for the reception which followed.

The foreword to the book states that the grant writers, "realized that if the college was to recruit and retain black students in larger numbers, it had to make a special effort to project itself into the black community in a very forceful and positive way."

Dr. Eissey, who received the first book during the Sunday afternoon meeting, has at least one indication that this grant has achieved its objective.

During the reception, a prominent black professional man told our president that this one project has done more for the college among the leaders of the black communities of the county than any step we have previously taken.

If so, Like A Mighty Banyan is, indeed, a mighty book. ...JK

Happy Birthday To . . .

10/04 Barney Krumm, Ethel Fowler, Phil Millard 10/05 Solomon Jackson
10/06 Pat Johnson, Bill Tolmie 10/08 Ray Daugherty, Linda Summers
10/09 Susan Dwyer 10/10 Sandy Richmond

New Dimensions

An excellent article about our Institute of New Dimensions appeared in the September Junior College Journal, and Dr. Etta Ress already has received inquiries from other colleges as a result.

The article calls the Institute a "mini-college designed and administered by retired persons," and cites the 90 lecturers and service to 1,000 members and guests in 1981-82.

New Dimensions, with a cumulative attendance last year of 10,000, is heading for an even bigger and better year in 1982-83. The $25 membership fee in the Institute is one of the best educational bargains you can find, anywhere.

Politics, Politics

"This might be the single most important day in the Florida political scene, prior to the General Election Tuesday, November 2," enthused Ed Pugh. As Political Science Instructor and faculty advisor to the PBJC Political Union, he is always involved in setting up the nominees of major political parties against each other for talk, debate, and questions from student classes. This year, it will take place on the Central Campus October 8, from 7:30AM to 3:30PM. Each set of opponents will have a one-half hour with a class, and then exchange with another set. If both sets spend two hours, they'll have a chance to talk to 4 classes.

The SAC Lounge will serve as headquarters during the day for candidates, workers, students and the general public. The college cafeteria will be used as an additional meeting place for the candidates and those interested in meeting them.

ongressional candidates Culverhouse and Lewis of District 12 and Mica and Mitchell of District 14 are expected in the SAC Lounge 9:50-10:50AM. Gubernatorial and Senatorial candidates will have a chance during the 12:10-1:10 slot. Come and meet them, bring your questions. It promises to be an interesting day, if they all show up.

Announcements (Con'd)

PLEASE ANNOUNCE TO YOUR CLASSES: Representatives will be on campus Wed., Oct. 13 from Vestal Laboratory, St. Louis, Mo. to interview interested students with sales or marketing for entry level sales positions. K-Mart Apparel will interview Wed., Oct. 20 for entry level management positions. All majors may be interviewed. For additional information or to make appointments contact Miss Ferguson, SAC Lounge North Guidance Office, ASAP.

Dr. Ottis Smith, North Provost, was guest speaker on Spotlight on Education, Sunday, Oct. 3rd, 7PM, on Channel 5. He substituted for Dr. Elizabeth Woolfe, who was injured in an auto accident recently during one of our severe rainstorms. She's mending from a concussion.

Betty Morgan, Nursing Dept. Chairman, announced that the spring grads scored a "remarkable" success rate of 97.16% in their board exams. Congratulations to all.

Deadline for submitting items for the Agenda for the regular monthly meeting of the District Board of Trustees meeting for October is Monday, October 11, 10:30AM.....T. Tate

Graphics support for curricular programs is still available in the A-V Center of the Library Learning Resource Center. No photographic services of any kind are available in A-V Dept. The range of services includes the making of transparencies, sign making, dry-ounting, making of thermofax ditto masters, and similar services. ...W.C.Douglass

Personals

North has reported that Jean Tacey of Business Affairs is in Community Hospital, 45th St. after having had surgery. We wish her well soon.

Marilyn Wojciechowski of Provost's Office just returned from her 25 year H.S. reunion in South River, N.J. She won the prize for "The Person Who Changed the Least", meaning that everyone recognized her.

Announcements

Important meeting of FACC will be held on Oct. 5 in the Allied Health Auditorium at 3PM. Presentation of new officers, convention, delegates and commissions will be discussed.

We note with regret the death of Carl Manor, father of PBJC President Emeritus, Dr. Harold C. Manor. Dr. Manor is confined to his home with illness and was unable to attend his father's funeral. We send him our best wishes.

If you have not received your WPB or PBJC campus telephone directory, please see Mary Tingler.

PALM BEACH JUNIOR COLLEGE
MONDAY REPORT

Volume V, Number 2

October 11, 1982

The Palm Beach "230"

PBJC Voter Registration Highest Ever

Two hundred and thirty -- the largest number ever tabulated in a PBJC Voter Registration Drive -- registered to vote during a five-day period from September 27 through October 1, according to Ed Pugh, faculty advisor to the Political Union at the college.

Members of Phi Theta Kappa and the Political Union, twelve in all, were trained as registrars by Jerri Edmonds of the Supervisor of Elections office.

There were 99 Republicans, 96 Democrats, 17 Independents, 16 no party and two American Independents registered, Pugh said.

The registrars were hoping to register 400 (all those who registered during the week were presented cards naming them as members of the Palm Beach Four Hundred), and the newly registered students seemed pleased to receive them.

The Voter Registration Drive was in preparation for Candidates Day, held last Friday, October 8 from 7:30AM to 3:30PM in PBJC Central Social Science classrooms, with special presentation in the Student Activity Center from 9:50AM to 10:50AM by U.S. House candidates and from 12:10-1:10PM, when Gubernatorial and Senatorial candidates were invited.

"According to U.S. News and World Report, college graduates are by far the most consistent voters," Pugh pointed out.

"The people we registered will probably vote for the rest of their lives.

"On Candidates Day, they had an opportunity to meet the candidates, hear them speak, and make up their minds how they will vote on November 2."

Collective Bargaining Again At Impasse

At a collective bargaining session last Tuesday, the following summary of the current college position was furnished to the United Faculty:

1. Increase salary ranges by 7.5% and provide a 7.5% increase to all bargaining unit personnel effective at the time the contract is signed (i.e. a non-retroactive increase).*
2. Exclude increments from the contract and substitute reference to a merit fund being established equal to the increments which would normally be granted. Beginning with the 1983-84 year bargaining unit personnel would be eligible for merit increases with administrative approval based upon faculty performance review.
3. Implement the time accounting system proposed by the Administration.
4. Retain the current system of determining a full faculty load and have the College pay the additional health insurance premium beginning September 1, '82.
5. Implement the management proposal for transfers or exclude the item from the contract and remove dental insurance from the items being discussed.
6. Implement the proposed management rights clauses.

*Current reports indicate a 2-3% further reduction in State funds. If this occurs the offer may be reduced by that amount.

After a brief caucus, union officials declared an impasse for the second time, and announced a decision to seek impasse resolution through special master proceedings. Special Masters, appointed by the Public Employees Relations Commission, hear disputed issues and write a report recommen-

(Cont'd Pg. 2)

"Coffee With Ed"

A new series of "Coffee with Ed" discussions will start today, according to Dr. Elisabeth Erling, whose office arranges the informal sessions with the president, open to all faculty members.

The coffees will be going on through the next two weeks and are arranged at differing times of day, on different days of the week, so

(Cont'd Pg.2)

From The "Stage Company"

Art Schneider received the following letter from Director Ruth Clark-Everitt.

"Thank you for your letter of September 22nd. I have been in California for ten days and just returned today. Didn't want you to think I was ignoring your comments.

You have such a good point. In fact, I am really weary of all the perks for getting old. I'm trying to think of some way to avoid it.

You are the audience we are looking for and I do know $25 is steep for many of the young professionals. It is $.50 less than Caldwell charges for all of their seats, and we do have to keep the price in that range to be able to afford being a professional company.

However, I will be more than happy to honor members of *PBJC's faculty, allowing them the same rate as senior citizens on Tuesday, Wednesday or Thursday evenings as well as matinees. We do ask students and seniors to present I.D. when picking up tickets, which we will ask your members to also do.

Thank you for bringing this to my personal attention. We need the stimulation in our theatre that is attendant to people like you and your colleagues. Please be with us throughout the season. (s)Sincerely, Ruth Clark-Everitt, Artistic Director.

*NOTE: Thanks to Art Schneider's correspondence with Ruth Clark-Everitt, the faculty as well as all PBJC employees are entitled to buy tickets for $7.50 each (by identifying themselves as from PBJC when making reservations). Students with I.D. are permitted to attend for $3.75 in the last ten minutes before curtain time.

D.S.O.M. North

Selected as Distinguished Student of the Month for September was Lisa Ann Norio. She now lives in Palm Beach Gardens, having come here from New Jersey with her family four years ago.

Lisa is 19, and graduated from PBG High in 1981, where she won a "Top 5% Award" for scholastic achievement and was a member of the National Honor Society.

AT PBJC, she is on the Dean's List, and plans to go to FAU after graduation. Her major is in Computer Science.

Collective Bargaining (Cont'd from P. 1)

ing resolution. The report is non-binding. If there remain unresolved issues, these go to a public hearing before the "legislative body," (our board of trustees), which makes a decision on all disputed items.

Past experience indicates a time frame of six weeks to two months before the special master report is received, and another month or so if the remainder of the impasse procedure is followed.

Coffee (Cont'd from P 1)

that there should be an available time for every faculty member. To reserve a place, simply call 8086.

The current series of coffees are planned for Central Campus. Dr. Eissey will arrange with provosts at North, South and Glades for similar open discussion meetings on those campuses.

As in the past, the sessions are an open communication line directly from faculty members to Dr. Eissey, and anything from the latest joke to very serious concerns may be communicated.

Japanese Management: A Style, A Culture

A Seminar on Japanese Management is planned for Saturday, November 13, 9AM to 4PM at the Hyatt of the Palm Beaches. It is sponsored by the Continuing Education Office of PBJC. Early-bird coffee hour is at 8:30AM

William H. Doherty, business analyst, management trainer, professional platform speaker and president of his own management consulting firm in Palm Beach Gardens, will conduct the seminar. As a student of Japanese culture for 25 years, Doherty speaks with knowledge about the interaction of the Japanese environment with business management methods.

"As a side area, I learned about the mores, history and culture of Japan" he explains. "I have been closely involved with Japanese-owned plants in this country, and recently visited with the Japanese Ambassador to the United State, His Excellency Yoshio Akawara in Washington, discussing the success of Japanese management techniques."

A planned trip to Japan with 16-17 executives of major firms to visit 12 Japanese plants scheduled for last July was postponed because of Doherty's move from Pennsylvania to Palm Beach Gardens. Doherty, who has been teaching seminars on Japanese Management for the past three years, is presently writing a book on the subject.

Doherty's enthusiasm for things Japanese goes back to his days studying the martial arts in 1957, judo and jiu jitsu, and karate in 1960 (he holds a 3rd degree black belt in this field). During the seminar, he will discuss the geography, history, culture, religion and economics and public policy in the Japanese environment. He plans to cover new employee hiring, industrial relations, the team approach and quality control circles.

Other topics to be covered include management selection, problem solving and decision making, as well as negotiation and communications motivations. The $35 fee includes refreshments, luncheon, gratuity and materials.

Advance registration is suggested at PBJC North, 3160 PGA Blvd., Palm Beach Gardens or the Central Campus Office of Continuing Education. Deadline is November 8.

Beachcomber Staff At Convention

The staff of the PBJC student newspaper, the Beachcomber, attended a convention of the Florida Community College Press Association October 7-9 in Orlando.

In addition to Dr. Arthur Noble, faculty advisor to the publication, the following staff members attended: Mike McGee, editor-in-chief; Juliana Catalfumo, associate editor; Laura Giffin, news editor; Duane Stamper, sports editor. Also going along were the assistant news editor, Bill Prescott; Ted Puntanen, feature editor; Bill McAllister, photo editor; Laura Bartel, circulation manager; and Ted Hurt, business mgr.

The convention was held at the Hilton Inn, Florida Center, Orlando.

Late Notices:

Don Cook, Director of Testing, will hold a Test-taking Skills Seminar on October 19 & 20, at 1PM in the Allied Health Lecture Hall, for students who must take the CLAST TEST on October 23. Any other interested students are also invited. Please ANNOUNCE to your classes. ...Don Cook

Stafford Mooney, assistant professor of Social Sciences at PBJC South was the keynote speaker at the recent dedication of the West Atlantic Avenue Branch Public Library in Delray Beach. Also present were the County Commissioners from Districts 1, 2, 3, 4 & 5.

PALM BEACH JUNIOR COLLEGE
PBJC MONDAY REPORT:

Volume V, Number 3 October 18, 1982

Dental Community Invited

Dental Renovation On Display October 31

Our new dental health services area, re-equipped with some $600,000 of millage funds, will be presented to the public it primarily serves -- the dental professions -- Sunday afternoon, Oct. 31, 1-3 p.m.

All of the organizations of Dentists and those of Dental Hygienists, Dental Assistants, and Dental Technologists have been invited to an open house to view the new equipment and renovated quarters, according to Dr. James Flatley, department chairman.

"Our new equipment is in place and in working order," Dr. Flatley says, "and it's all paid for.

"We are pleased and proud of our facilities, and we wanted to share our pleasure with the profession we are serving."

The need for renovation of our dental facilities was one of the key points made in the successful attempt to gain a 1/2 mill levy for two years only in the election of March 11, 1980.

Prior to the renovation, our equipment, probably the finest anywhere when it was purchased 17 years ago, had become outmoded by advancements in equipment design and dental techniques.

The new equipment puts us right back at the top, and we are now receiving compliments from the accrediting agencies.

Mid-Term Grades

The 8-weeks grading period ends October 19 and grades are to be posted outside the office of each faculty member within one week of that date. A list of the students in your classes will be sent to you for posting.

In addition to posting the grades, all ENC 1000, Developmental English and REA 1105 and 1106, Reading Improvement classes should record the mid-term grades on the additional sheets provided and turn them in to the Registrar's Office by Friday, October 22.

Only students passing these courses at mid-term will be allowed to pre-schedule Nov. 4-18 for a higher English course.
...Charles Graham

October Trustees Agenda

The following are among the 54 items on the agenda of the Board of Trustees at a regular meeting, Wednesday, Oct. 20, 7:30PM, Conf. Room C, PBJC Central.

Appearance by Mrs. Annie L. Motley to present copies of a book outlining the history of black people in Palm Beach County.

Reports on a sabbatical leave and on meeting of the Association of Governing Boards.

Discussion of need for a policy statement on Hepatitis B.

Amending criteria for President's Scholar Awards.

Increased fee for ACT residual tests.

The 1983-84 PBJC holiday schedule.

A contract with the Department of Health

Cont'd on P 3

Nov. 11 Is, Too, A Holiday

Thursday, Nov. 11, Veterans Day, is definitely a holiday, even though the catalog doesn't say so.

Usually, the catalog calendar is the authoritative word, but this time it is not. So don't show up on Veterans Day--it's a holiday.

Also--don't schedule anything else at the college which needs the central air conditioning on Nov. 11. The Monday Report has a note from Claude Edwards announcing that it will be necessary to shut down the central plant on Nov. 11.

Announcements

Attention Full-Time Employees - Magic Kingdom Club members and their families can receive special reduced prices for three and four-day World Passports which include admission to both the Magic Kingdom and the Epcot Center. Also there is a reduced price for one-day tickets to either attraction.

Another benefit for Club members that is effective through December, 1983 is a 10% discount on merchandise (minimum $10 purchase) in the Walt Disney World Village at Lake Buena Vista. This offer includes food items, periodicals, tobacco and alcohol products.

Valid club cards must be shown in order to take advantage of these benefits. ...A. Johnson

The Fitness Center is open to faculty and staff at noon only on Monday, Wednesday and Friday. There is a student class at that hour on Tuesday and Thursday. After October 15, the Fitness Center will close at 4:00PM on Fridays. The Center will remain open until 5:00PM Monday through Thursday. ...H.M.Reynolds

Any faculty or staff member interested in chess and willing to sponsor a Chess Club at PBJC Central is asked to contact Bob Moss at 8058. Student John McCoy is in touch with several other students who are interested in forming a club. They are in need of a sponsor.

Luncheon Is Served

The Hospitality Management program will be offering two open luncheon dates on Oct. 21 and Nov. 18. These dates are open to any college personnel. Lunch is served at 11:30AM in SC16, Food Service Dining Room. The cost for each luncheon is $3.00. Reservations may be made by picking up a ticket from Celeste Beck, SC16A or 8162. Tickets will be available Monday-Thursday in the week of the luncheon. If you pick up a ticket and decide not to come, you still must pay for the ticket or give it to someone else that can use it. Bring your ticket on Thursday. There will be a student cashier who will collect your money after the meal just as you would in any restaurant.

The department is establishing a restaurant type atmosphere for the luncheons. Students will be planning, preparing and serving the meal. At this time the menu has not been established, but you can expect an excellent meal. ...Celeste Beck

Joint Jazz Will Have Joint Jumping

The PBJC Jazz Ensemble, directed by Sy Pryweller, and the John I. Leonard Jazz Ensemble, directed by Ubaldo Montesino, will play a joint concert at the Leonard auditorium on Tuesday evening, October 26 at 7:30PM.

The two bands have performed together at several concerts in the past, and this is the third annual concert of this type held at Leonard High School.

Among selections to be played will be "Evergreen" arranged by Bill Prince; Herbie Hancock's 'Wiggle Waggle"; "Big Dipper" by Thad Jones; "Gratitude" composed by Clark Bell and featuring saxophonist Lisa Waterman; and a Beatles selection.

Sy Pryweller will be featured on trumpet with the Leonard band in "Night in Tunisia". The concert is free.

Happy Birthday To . . .

10/18 Al Fellner, Marie Langston 10/20 Bill Buntin, Priscilla Wright 10/23 Gail Tomei

Gone With The War

PBJC's Perception Of The Blue And The Gray

The PBJC Continuing Education Department will present Gone with the War: PBJC's Perception of the Blue and the Gray, a series of three seminars October 28, November 4 and 18 from 7-9 PM in the PBJC Central Science Bldg., Room SC-26, according to Kathy Aiello.

The PBJC seminars were initiated by Ed Pugh of the Social Science Department, when he learned of an eight-hour mini-series to be presented by CBS-TV on Nov. 14, 16 and 17--The Blue and the Gray--based on the personal views and impressions of Pulitzer prize-winning historian, Bruce Catton.

"I feel that people intending to watch the series on TV will enjoy it even more after attending our refresher seminars on the Civil War," Pugh said.

The Oct. 28 seminar at PBJC--History and Politics of the Civil War--will be presented by Pugh, and Vincent Betz, of the Communications Dept., will discuss Literature During the Civil War Era on Nov. 4.

The final session, Nov. 18, will be devoted to a panel discussion, question and answer period and a critique of the TV series by Pugh, Betz, Buck Rader and Bill Graham.

In conjunction with the seminars, Ben Roberts will have a display of Civil War books and artifacts of that period on the second floor of the library, and an exhibit of Civil War memorabilia is planned for two display windows outside the Business Administration Building, collected by the panel.

Advance registration is suggested, since seating in the classroom is limited;fee is $2. For further information, please call 8013.

Dress As Your Favorite Film Star

If you've ever dreamed of being a movie star, here's your chance! To publicize the opening of the musical comedy, A History of the American Film, the PBJC Players will sponsor a campus-wide (open to all students, faculty, staff and administrators) "Dress as Your Favorite Film Star" Halloween Costume Contest, with a parade of contestants in the auditorium Oct. 29 at 11AM.

The six categories are film lovers; film heroes/heroines; film animals; film monsters; film villains and film stars. Prizes will be awarded for each category, and an overall grand prize will be presented.

Oct. Trustees Agenda (Cont'd from P 1)

and Rehabilitative Services for implementing the Juvenile Services Program.

A new computerized program called CHOICES for the Career Development Center.

Fourteen items in construction and development, including preliminary plans for the Library Learning Resources Center/Academic Labs at PBJC North.

eteen items concerning bids with seven rejected to be bid later and 12 accepted.

Personal

PBJC friends of Leon F. Austin, who taught Electronics from '63-76, may be saddened, as we were, to learn of his death last spring in Tennessee. A letter from his wife, Edith, said that he had enjoyed receiving the Monday Report and that he retained "special fondness for the school and the wonderful friends he had there" throughout his life.

PBJC North Keeps Growing

New LLRC/Academic Lab Plans Approved

Preliminary plans for the Library Learning Resources Center/Academic Labs building at PBJC North, approved by our trustees at the October meeting last Wednesday provide the first public information as to where the new building will be, and what will be in it.

The new building will be approximately 270' south of the current classroom building--Building A--and will be connected by a covered walkway.

If 270' seems a bit too far between buildings to you, your mind is working just right... there is another building planned at a later date to go between Building A and the new LLRC/Academic Labs building.

The LLRC section is primarily on the ground floor. Much of the interior will be for general stacks, and circulation desks, but provision is also made for a processing and work room, study areas, student typing, microfilms, and the necessary entranceways, toilets, etc.

A fairly large first floor space will provide for a Choral Lab.

The second floor is given over primarily to labs--chemistry, biology, physics and storage and preparation rooms for each--also a general art lab, and provision for AV studios and a television studio.

It can be renovated at a later date for expansion of the library--at such time as the college can obtain funding for expansion and for a new building dedicated to academic labs.

Although there are no general purpose classrooms in this building, the movement of the LLRC will free three classrooms now being utilized for a library in Building A.

PBJC North had already outgrown the available classroom space in evening hours when doors first opened in the fall term at the new campus. There is very little time available in any classroom in the day time, and this is all expected to disappear long before the new building can be completed.

Two new parking lots are shown on the plan to serve the new facility, and to help alleviate the current parking situation near Building A.

Cont'd Page 2

Basketball Season Nears

Our basketball season begins Friday, Nov. 5 at 7:30PM in the PBJC gym when the Pacers face the Palm Beach Atlantic team, said Bill Hodges, coach.

"We're hoping to get the support of people in the community as well as our students, faculty and staff," said the former Indiana State coach. "I feel we're going to have an exciting season, with plenty of local flavor.

"We are young and inexperienced, so we've been reviewing the basic skills--shooting, passing and dribbling, and our strategy for this season is to play a fundamentally sound game," added Hodges.

Three returnees are Greg Alessi, a center from Forest Hill; Danny Sheldon, guard, from Palm Beach Gardens and Elroy Williams, guard from John I Leonard.

Other basketball Pacers are Brette Andrews, guard from North Shore; Barry Fisher, forward/guard from Scott County, KY; Cedric Gray, guard from Martin County and Mike Guthrie, guard from Boca Raton.

Also Tim Koshollek, forward, from Boca; Randall Mounts, center/forward, Carroll City in Miami; Nate Wellman, center/forward from John I. Leonard and Eric Hartmen, a walk-on from Lake Worth.

In a recent effort to gain community support for our basketball program, Hodges brought Larry Bird, one of his former Indiana State players--now with the Boston Celtics--to speak at a benefit dinner-dance held at St. Catherine's Cultural Hall. The event grossed $6,000.

Another new tack is the sale of season tickets for all home games, discounted to $20, and initiation of a Booster's Club.

Announcements (Cont'd)

Sandy Richmond hosted a multi-campus PTK party Sunday, October 17 at her home in Loxahatche Approximately 35 PTK members from all four campuses spent the day swimming and playing volleyball. PBJC Glades was the winner in the volleyball event.

Professor Nathan Axelrod, formerly Professor and Chairman for 20 years of the Fashion Buying and Merchandising Department of FIT-SUNY, will speak to members of Delta Epsilon Chi on November 16, 1982 at 9:10 AM in BA 115. Professor Axelrod is author of several books on Fashion Merchandising. ...Naomi Conley

On Friday, October 15, 1982, Mr. Willie R. Smith retired from PBJC Glades. The faculty and staff honored him with a covered dish luncheon. They presented him with a hat and a hand painted china plate commemorating his ten years of service at the Glades campus. Mr. Smith is the first Glades Campus employee to retire. His daughter and son-in-law, Mr. & Mrs. David Hill, joined him for the festivities.

Winter Term Early Registration
. . . For Currently Enrolled Students

Early registration for currently enrolled students for the Winter Term will be held Nov. 4 through Nov. 18 for current day and evening students. Day students will register 9AM to 3PM and evening students will register 6 to 9PM.

The priority system for day students will be:

Nov. 4 - Thurs 9-noon	WINTER TERM GRADUATES
Nov. 4 - Thurs	60 Semester hours & up
Nov. 5 - Friday	48 " " "
Nov. 8 - Monday	36 " " "
Nov. 9 - Tuesday	26 " " "
Nov. 10 - Wednesday	16 " " "
Nov. 12 - Friday	14 Semester hours & up
Nov. 15 - Monday	12 " " "
Nov. 16 - Tuesday	8 " " "
Nov. 17 - Wednesday	4 " " "
Nov. 18 - Thursday	Any currently enroll

Thurs. Nov. 11 Veterans Day Holiday

The priority system for evening students will be:
Nov. 4 - Thurs 6-7PM ,Grads only - 7-9PM Any currently enrolled student
Nov. 8-18 Any currently enrolled student
Currently enrolled students may register after but not before their priority dates.

Fees must be paid by Dec. 13. A list of current students and the number of semester hours accumulated is in the Student Activity Center, north end.

Buying A Home Computer

Faculty and staff who are considering buying a home computer will be interested in a seminar being offered by Continuing Education on Saturday, Nov. 6 from 9AM to noon. The seminar fee is $3.00, and will be conducted by JoAnn Miner, who teaches Physics and Computer Science at PBJC, and is also a consultant to businesses in the applications of microcomputers and software documentation. Representatives from local computer stores will display and explain home computers now on the market.

Topics to be covered include: How to Use a Home Computer; Understanding a Home Computer; Gadgets and the Home Computer; Should I Buy a Home Computer?; and Computer Displays and Demonstrations. Register in person at the Continuing Education Office of call 8013 for more information.

Directory Photo Sessions Revived

The News Bureau announces that we are back in the photo business! With the aid of a new staffer, Don Sargent, who has joined us as full-time photographer, we shall be taking photos for the new directory on the following schedule next week. MONDAY, NOV. 1, 8:30AM-:30PM and 2 to 4PM, Central Campus in the News Bureau Darkroom offic, AD-20, just east Conf. Room C. Tuesday, Nov. 2, 8:30AM-12:30PM and 2-4PM...same location. THIS IS ALSO MAKEUP DAY FOR ANYONE FROM ANY CAMPUS WHO DID NOT HAVE THEIR PHOTO TAKEN BECAUSE OF CONFLICTS.

DECA Has New Name

Junior Collegiate Division of DECA is now DELTA EPSILON CHI. The name of the club for students interested in developing their careers in marketing and distributive education was changed at the National Career Development Conference held in New York City, April 1982.

Lindsay Nonnemocher, president of Delta Epsilon Chi, attended the Southern Region Marketing and Distributive Education Conference in Myrtle Beach, S.C., Oct. 14-16. Others attending were: Lisa Nicholas, Jill Ber, Tina Shroyer, Matt Bickford, Karen Goetz, Sonia Mason, Miss Susan Marlowe, and Dr. Naomi Conley, Advisor.

Sessions on leadership and motivation were beneficial to the student who returned with the attitude that they want Delta Epsilon Chi to set the pace for other clubs at PBJC.

College Day At PBJC

High school juniors and seniors (and their parents) from public and private schools in PB County are invited to attend the annual College Day, Friday, Nov. 5 from 9-noon in the gym.

"More than 100 colleges and universities, mostly from the eastern United States, are expected to participate" said counselor Gwen Ferguson, coordinator of the event.

"We have already received acceptances from more than 90, and we expect that more will be coming in before November" she added.

College Day is sponsored by the PBJC Student Affairs Office in cooperation with the PB nty Personnel and Guidance Association.

Free Band Concert

The combined Symphonic Band of the Palm Beaches and the PBJC Band will present their 5th concert of the season at 3PM Sunday afternoon, November 14.

The free concert is another in a series of outdoor concerts sponsored by the City of West Palm Beach Recreation Dept. It will be held on the lawn just east of the Holiday Inn, at Datura and Flagler. Listeners are encouraged to bring blankets or lawn chairs and enjoy a fine music program played by 80+ musicians amid beautiful Florida surroundings.

North Keeps Growing (Cont'd)

One of the new lots has 150 spaces and the other 117.

The new project is to be funded by a grant of $4.75 million made last year for that purpose by the state legislature.

The preliminary plans are already on the wa, to Tallahassee.

In other actions the board accepted copies of "Like a Mighty Banyan: Contributions of Black People to the History of Palm Beach County," from Annie L. Motley; Heard a report on a meeting of the Association of Governing Boards from member Willard Findling; Directed preparation of a policy statement on Hepatitis B as recommended by John Schmiederer and Dr. James Flatley; Amended criteria for President's Scholar awards to 3.5 and the top 5% of graduating high school seniors; Heard a report on employment activities by Joseph S eider showing greatly increased activity by the personnel dept. and a high degree of stability in employees, including a remarkably low 6.2% turnover in faculty and administration last year; and disposed of some 40 other items of business, most of them in a single motion through the use of the consent agenda.

THIS Week . . .

PALM BEACH JUNIOR COLLEGE
PBJC MONDAY REPORT

Volume V, Number 5 November 1, 1982

Eight Added

PBJC Foundation Increases Membership

Recent elections to the PBJC Foundation bring the number of members to 34. They include people of varied backgrounds, with one common goal, that of aiding the college in advancing its objectives.

The Foundation was established in 1973 to encourage and administer gifts and bequests of property and funds for scientific, educational development and charitable purposes. It works in conjunction with departments of the college and with various individuals and agencies in the community.

Also, it is working to develop an active alumni organization that will be responsive to the needs of PBJC. Under its sponsorship are the President's Club and other fund raising activities. The Office of Development and the Foundation share the same administration.

Capsule descriptions of the newest members follow in alphabetical order:

E. Llwyd Ecclestone is a graduate of Wayne State University, Detroit, receiving a Bachelor of Business Adminstration degree. He served in the U.S. Air Force Reserve, and is on the Boards of the Federal Reserve Bank of Atlanta, Miami branch; the Miami Heart Institute, and is director of the Palm Beach County Development Board. He is also a member of the Florida Council of 100 and the Commission on Ethics for the State of Florida. He and wife Sally are parents of 4 children from 12 through 20.

Sylvia R. Linus represent PBJC South. She is a graduate of the U. of Miami, a member of the Boca Raton Chamber Symphony, the Boca Raton Historical Society, the DAR, and the Boca Banyan Garden Club. She and husband Jame J. Linus are parents of 4 children from 16 to 23.

Robert M. Montgomery is a senior partner of Montgomery, Lytal, Reiter, Denney and Searcy,P.A. and the husband of Mary McKenzie Montgomery, president of the PBJC Foundation. His schools include Marion Military Institute, Alabama, with his B.S. from the University of Alabama and his law degree from the University of Florida. Montgomery served in the U.S.Army as a first lieutenant from 1952-54. Among his many memberships, he serves as a board member at large of the Palm Beach Opera, chairman of the administrative

Brain Bowl-ers Apply November 17

PBJC will be represented in the Florida community college 2nd annual "Brain Bowl" tournament to be held in Tallahassee in March of 1983. Our District competition is against Broward and two Miami-Dade teams in February on Broward's campus. Substantial monetary awards are to be given all finalists at the state tournament.

In your contact with students, will you encourage those students who may be suitable candidates for our team to sign up for the tryouts to be held Nov. 17 at 1PM in the Allied Health Bldg., AH204. The contact person on each campus is: North - Ron Long. South - Stafford Mooney. Glades - Freddie Harrell and for Central - Bob Moss.

Signup deadline is November 15th. Reminder - please return the practice questions as soon as possible.

...Bob Moss

REMINDER - TODAY AND TUESDAY ARE THE DAYS SET ASIDE FOR ALL CAMPUS FACULTY AND STAFF TO HAVE PHOTOS TAKEN FOR THE DIRECTORY. PLEASE TAKE FIVE MINUTES OF YOUR TIME TO HELP US MAKE THIS A GOOD ONE. AD-20 (DARKROOM OFFICE, EAST OF CONF. ROOM C) IS THE PLACE...FROM 8:30AM TO 12:30 and 2 TO 4PM ARE THE HOURS. SEE YOU THERE!

Announcements . . .

The following classified positions are available:

Bookstore Cashier II (Central Campus), Salary Grade A16, $732.67 per month
Custodian-Part Time (Bookstore-Central Campus), Salary Grade B14, $4.60 per hour
Maintenance Mechanic (Physical Plant) Salary Grade B26, $6.21 per hour

Interested applicants should contact the Personnel Coordinator. ...A. Johnson

Attention full-time employees! Sunday, Nov. 14 is being announced as "PBJC Employee's Day" at Lion Country Safari. Employees and their families will receive a 50% discount off the regular admission price which is $4.00 per person (children under 3 free). Flyers have been printed especially for PBJC employees and must be presented at the ticket gate in order to receive the discount. Please pick up your flyer from the Personnel Office.

The 1983 Membership Guides for Walt Disney Magic Kingdom with information relative to the EPCOT Center are also available in the Personnel Office.

Academic Advisors: Please remind students who are presently enrolled in REA 1105 (Reading Improvement I) that, upon satisfactory completion of the course, they are required to enroll in REA 1106 (Reading Improvement II).

Payroll issues an urgent plea that everyone receiving their check this Friday make sure their address is current and correct. When it comes time to mail out the W2's in January, there will be some that go astray because addresses have changed. Let Personnel know of a new address as soon as possible.

November 7, Sunday, Delta Epsilon Chi (DECA) Junior Collegiate Region V Orientation and Training Mini-Conference at John Prince Park 10AM 'til dark. Cost $5.....Naomi Conley

PBJC's "Wizard of Words" Watson B. Duncan III, will spin his unique version of fun with the arts at the First United Methodist Church, 612 Florida Ave., WPB, on Wednesday Nov. 10. There will be a 6PM dinner available at minimum charge (by reservation) and Duncan will speak 6:45-8:15. Free.

NEW at the Credit Union. As of Nov. 15, an automated teller machine will be installed and operating. Deposits, withdrawals and loan payments will be possible seven days a week, 24 hrs. a day. Come to the main office between now and Nov. 11 and do a trial transaction on the "CU 24". (If you do, you'll have a chance to win a free trip for two to the Bahamas.) Don't miss out on this opportunity! ...D. Whitmer

REMINDER: Veteran's Day Holiday November 11.

Personals . . .

Social Science Department regrets Miss Rosalind S. Kochel has returned to her home in New Jersey for medical reasons. She will be out the remainder of this term. We hope for a speedy recovery. ...Dr. S. Bottosto

Dr. Kathleen Bowser, director of the Center for Early Learning, recently appeared on two local TV shows. The first was on the Channel 5 early show with Kate Bruderman, and the other was on Good Morning Palm Beaches with Tom Worden, in which Bretta Weiss, the national Montessori director also appeared. The latter was copied by audio-visual, and is available for viewing on the first floor of the library, through the Audio Visual Dept.

A Gathering Of Miscellany . . .

Attention all Faculty & Staff Members! The Science Club cordially invites you to participate in their 1st Annual Road Rally/Treasure Hunt. Sat., Nov. 20th. This timed problem-solving event will begin at 10AM in the Science Bldg. parking lot.

The first car/team successfully solving the 8 problems, locates the designated locations and returns to the finish line will win $50. The 2nd place car/team will receive $25.

Entrance fees are $15 per car. Deadline for applications has been set for Friday, Nov.12th. For more information please contact Dr. Kam or Dean Moss.

We sincerely hope you will come out and support the "New Science Club" in thie event. It promises to be interesting.

* * * * *

On October 23, Dr. Sam Bottosto, Sandi Richmond, and 6 Social Science students were guests of Mayor Donald Spigler (South Palm Beach) at a United Nations Day luncheon at the Lake Worth Towers. Dr. Jay Kerzner of the U. of M. Medical School spoke on the effects of nuclear war. After lunch, the group stayed for a meeting of the local chapter of the UN Association and participated in a discussion of the problems the U.N. is currently facing.

* * * * *

A free concert, open to the public will be presented at the auditorium Tues. Nov. 9 at 2PM. by 8 young students from the Shanghai Conservatory of Music. Chinese and Western music are scheduled. Three students, 2 boys and a girl, each 13, play piano, cello and violin. Five young women play traditional Chinese instruments.

Happy Birthday To . . .

Foundation (Cont'd from P 1)

board of the First United Methodist Church, and on the board of directors of the Palm Beach County Council for the Arts. He and Mary have a 19 year old son and an 18 year old daughter.

Robert A. Satter of Atlantis is a real estate developer, engineer, general contractor and mortgage banker. He graduated from the U.S. Military Academy, West Point, and received his M.S. from the University of Massachusetts. He spent four years in the U.S. Army, attaining the rank of captain. He is a member of the Economic Council of Palm Beach County, TAXWATCH, the Homebuilders Association and Rotary. The Satters have two children, ages 13 and 11.

Priscilla G. Searcy represents PBJC North. She attended Stratford College, Danville, VA and is a provisional member of the Junior League. She is married to Christian Searcy, and they are parents of two sons, 8 and 3.

The election of Ruth S. Wedgworth, president of Wedgworth's Inc., adds another distinguished name, and a pioneer of the Glades area. She attended Michigan State University, has honorary Doctor of Laws and honorary Doctor of Humanities Degrees from the University of Florida. She holds memberships in the Belle Glade Woman's Club, the Belle Glade Garden Study Club, PEO and Beta Sigma Phi. She is the mother of three grown children.

Mary A. Wellford also represents the North area. She attended Randolph-Macon Woman's College in Lynchburg,VA, is a member of Saint Mark's Episcopal School Committee and the Junior League ofthe Palm Beaches. She and husband John L. Wellford are parents of a son and daughter, 5 & 6.

Patricia Wilson, director of Resource Development at PBJC is a new member of the Foundation. Pat's credentials are well-known to readers of the Monday Report.

The college welcomes the new members, and welcomes also, the infusion of talent and time they will bring to making the goals and objectives of PBJC come closer to being a reality.

THIS Week . . .

Nov. 2	Art Exhibit, Larry W. Spear; painting & drawing, now to Nov. 24; HU gallery
Nov. 4	Second seminar (Blue and Gray); Literature during Civil War Era, Vincent Betz, presenter, 7-9PM, SC-26
Nov. 5	College Day, 9-12 noon, PBJC Gym
Nov. 5	"Angel Street"; Asolo State Theatre, 8PM, $7, PBJC Glades, Dolly Hand Cultural Arts Center
Nov. 5, 6, 7	"A History of the American Film", musical comedy, recommended for mature audiences; 8:14PM, PBJC Aud.--box office open 9AM-3PM & 7-9PM on performance evenings
Nov. 5	Opening basketball game, PBJC vs Palm Beach Atlantic; 7:30PM, gym

On Again, Off Again

She said she was going to retire
And then she said she was not.
It was on again, off again, on again,
The plans for the party were shot.
Her boss and the personnel office
Were ready to throw up their hands.
But, at last, she made her decision -
Hip hooray! now strike up the bands!
So today she finally retires
From the job she thinks is such fun.
But she sends her heart-felt thank-yous
To the best people under the sun.

...Betty Linn

PALM BEACH JUNIOR COLLEGE

MONDAY REPORT

Volume V, SPECIAL EDITION November 1, 1982

An Open Letter From The President

To: The Palm Beach Junior College Family:

These are very difficult and challenging times for Palm Beach Junior College and, if one may judge from the state and national press, the problems and opportunities we are finding at Palm Beach Junior College are also affecting community colleges across the nation. In one recent week I read one of a series of articles from the Los Angeles Times titled "Bloom Lost for 2-Year Colleges" and an article in the New York Times titled "Community Colleges--The Bright Spot in Higher Education." The Los Angeles Times article pointed to the increasing criticism of community colleges by state legislatures while the New York Times article described the success of community colleges in job training and providing for the educational needs of today's students.

These two articles, from different parts of the country with widely-divergent opinions, are typical of much that is being written and said about community colleges today. We find ourselves continually both praised and criticized and frequently for the same things. Strangely, I find myself agreeing with both points of view. We are indeed the subject of criticism, suspicion and sometimes scorn by some legislators and politicians while, at the same time, we are finding our greatest success ever in our work with students and in carrying out our missions as we see them. As the New York Times article pointed out, community colleges are indeed in the best position to meet the educational needs of citizens in the 1980s of any segment of higher education.

The problems we face are numerous and serious. The current financial situation facing most Florida community colleges is catastrophic. All have recently been asked to cut two percent from current budgets, and a new cutback estimated at 5.7 per cent by the governor, and from four to six per cent by other government officials, seems imminent, and may have already been imposed by the time you read this. The first hold back amounted to $250,000 for Palm Beach Junior College, and the second may be an additional $600,000 or more. Many community colleges have already imposed drastic cutbacks in equipment, materials and supplies, and some have already begun the grim task of releasing personnel. While this has not yet been necessary at Palm Beach Junior College, we have already lost much of our budget flexibility, and much more stringent measures may be necessary in the future.

To be fair, it must be said that these budget cuts are the result of shortfalls in state revenue and are affecting all state-funded agencies. They are not targeted at community colleges.

Adding to our financial problems are those responsibilities mandated by the state for which no funding has been provided. An example is State Board of Education Rule 6A-10.30, the so-called Gordon Rule. Implementing this rule will be costly for community colleges. We have not isolated these costs at Palm Beach Junior College, but Valencia Community College, a slightly larger institution, has estimated their cost of implementing the Gordon Rule to be $1,083,437. There have been no additional funds provided to help us meet this new responsibility.

We are finding that practices, long assumed appropriate and indeed clearly covered by rules and regulations, are now being questioned. An example would be fee waivers for students, which became such a momentous concern of some legislators during the last session of the legislature. We have been warned that fee waivers will be carefully scrutinized and even possibly eliminated entirely in the future, a position we can live with whether we agree with it or not. Some of us recently attended a workshop for trustees and FACC legislative committee members and heard a legislator say that community colleges have not grown much more than other segments of education in Florida because some of that growth was made up of students who had received fee waivers and who should not now be counted as students.

Of even more serious import, we are finding our traditional missions questioned and there are rumblings of change. The open door admissions concept is under scrutiny and the relative value of continuing education is being debated. Both of these issues are of concern not only in Florida but in several community college systems across the country.

It would seem, therefore, that there is much truth in the statement that the bloom may be lost from community colleges. Programs and practices for which we were once praised are now subjects of criticisms.

There is another side, however, to this somewhat bleak picture. As pointed out in the article "Community Colleges--The Bright Spot in Higher Education," we are also an outstanding success story. The students of the 1980s are likely to be job-oriented; they are likely to be more mature; they are likely to come from many of the categories once considered nontraditional. Community colleges, more than any other area of postsecondary education, have been in the business for a long time of training and retraining adults for changing job markets. One thing that is quite certain is that in the future many new jobs will develop and people will find it necessary to change fields of work several times during a career. We have long specialized in the part-time student. Indeed, part-time students outnumber full-time students in most community colleges. At an institution like Palm Beach Junior College, it would be rare for a student to come to us with such a work schedule that we could not help him or her find an academic schedule which would fit the demands of the work schedule. We have also long worked with nontraditional students. Community colleges have led in the development or programs for women and minorities and in providing for the special needs of the handicapped. We have had great success in working with the older student. The new demands of high technology industries will find community colleges ready to train the many technicians needed in this field. And so, there is indeed much truth that community colleges are a bright spot in the future of higher education. While other institutions are complaining about the increasing lack of students, community colleges have been growing.

What does all this mean for our future at Palm Beach Junior College? It means, I think, we must continue to look for ways to solve our problems and we must continue to look for ways to maximize our successes. I am not sure there is a solution to the problem of decreasing dollars. Our nation is in either a depression or a recession, depending upon one's point of view, and the prospects for coming out of it immediately are slim. We can and must look for ways to be more productive. We must explore new educational strategies and technologies to find ways of serving more students with less funds. We must assume that we will have to live with this problem for some time. It may be of some comfort to realize that the situation is not as bad in Florida as elsewhere in our nation.

We must find ways to work with and communicate more effectively with our state legislature. We as community colleges have not been successful in communicating our missions, our success stories, and our needs to those who work at the state level. We have never developed a strong, agitated constituency. We know we do good things for many people in our communities and we know that we have been the difference between a successful life and a life of failure for many of our students, yet we have never managed to mobilize those for whom we have made such a difference into a constituency that fights our battles at the legislative level. We need to find ways of conveying our needs more effectively to our students and our communities and let them know that if they wish such services to continue they must begin to speak out on our behalf.

With regard to our mission, I would hope that we would look carefully at what we do but not run scared, abandoning programs and practices which have solved community problems and met the needs of students. Continuing education, for example, is much more a wave of the future than a frivolous by-product of the educational program. Much of the retraining of adults for changing job markets will be done through noncredit continuing education courses rather than through credit programs at community colleges and universities. It is a paradox that while many community colleges are thinking of abandoning some of their continuing education activities, universities in our state and elsewhere are moving into the field with great speed.

There is no doubt that we in community colleges are living at a time when our problems are more serious than ever before and at the same time our opportunities are greater. It will take all the creativity community college educators can muster to find effective ways out of our problem situations. It will also take equal creative thought to help us find those traits of community colleges which have made us most unique and build those characteristics into effective programs which will help us achieve the level of success that seems possible in the future.

Sincerely,

Edward M. Eissey

PALM BEACH JUNIOR COLLEGE MONDAY REPORT:

Volume V, Number 6 November 8, 1982

Anything We Do, Will Hurt

Budget Reductions Now Virtually Certain

Palm Beach Junior College cannot absorb another 5.7% holdback of funds on top of the 2% already cut, without serious consequences, Dr. Eissey warned last week.

"We can't wait until January to take action," Dr. Eissey told the administrative/managial group, "because by then we will have spent half our budget, and we'll be cutting 15.4% out of the remainder, not 7.7%."

The 2% holdback already ordered by the state cabinet amounted to $226,000, and the additional 5.7%, now considered to be almost certain, would cut another $600,000.

Dr. Eissey said the president's staff had already been working to try to find ways of reducing the budget, discussing every possibility from cutting out one summer session to reducing all salaries above a certain point on the salary grade.

He challenged the group to come up with other ideas, and in a wide-ranging discussion, they did.

The meeting was Thursday afternoon, and by Friday morning, rumor had solidified into fact a number of ideas that were, and still are, merely speculation.

Believe it, gentle reader, for the Monday Report has spoken with Dr. Eissey, Dr. Tate, and others who are on the inside of the inside, no firm decisions have yet been made as to where cuts will come--we are in the early planning stages.

But in the Thursday afternoon meeting, in other meetings around campus, Dr. Eissey made some points clear: * We will not cut the quality of our educational programs. Even if we have to cut entire programs, we will do that in preference to watering everything down. * Full time staff reduction is not comtemplated at this time. * Full time faculty reduction is not contemplated, even if the percentage is higher than 5.7. * Opportunity for part-time employment probably will be reduced. * Some students who want to come to PBJC will not be able to get in. We will be unable to continue to increase FTE beyond the point where funds are provided by the legislature. * Anything we do, and we will have to do a lot of things to get more than $800,000 from our budget, will hurt both the college and the comminity. "If it turns out that we have to reduce use of

Cont'd P 2

Traditional Veteran's Day Celebration Planned

Veteran's Day will be celebrated at PBJC Central at 11AM Wednesday, November 10, at the Student Activity Center.

Dr.Sam Bottosto, who is heading up the event, said "The program is dedicated to the veterans of America and will emphasize our country's appreciation of them, rather than dwell on economic problems." He said other colleges and universities had adopted the theme of "Solutions to the Arms Race" for their Veteran's Day convocations.

PBJC's Social Science Dept. chose the traditional theme because there would probably be a program devoted to the arms race in the near future. Part of the one-hour program will include a speech by Bottosto, "What's Right with America?"

Don Lore, coordinator of Veterans' Affairs, will talk about the "Status of Veterans at PBJC" and Danny Mann, vice president of the local chapter of Vietnam Veterans of America, will address "America's Need to Recognize its Vietnam Veterans."

Also, two students will comment on their idea of "America's Indebtedness to Its Veterans." Time permitting, a question-and-answer period will follow the last speech.

The program is free and open to the public.

BECAUSE OF THE THURSDAY HOLIDAY, DEADLINE FOR ITEMS TO BE INCLUDED IN THE NOVEMBER 15 MONDAY REPORT SHOULD BE IN THE NEWS BUREAU OFFICE BY NOON, WEDNESDAY, NOV. 10.

New Financial Aid Program

State funds have been allocated on a matching fund basis for students in need of financial assistance. PBJC received an allocation of $48,264 to fund the Florida College Career Work Experience Program, according to Hamid Faquir, Director of Financial Aid.

Employers must pay at least minimum wage, provide payroll information, agree to provide an annual written evaluation, supervise the student's work in a reasonable manner, and other similar agreements as contained in a contract with the college. They will be reimbursed for half of the student's salary, not including fringe benefits. Students must meet requirements for financial aid like those in the Federal work-study programs. Funding for Federal programs has been cut back this year.

The program is intended to create new opportunities for career related work experience. It is also possible for the student to obtain college credit for the work performed, and this part of the program would be through the Co-operative Education program already in operation at PBJC's campuses.

Reductions (Cont'd)

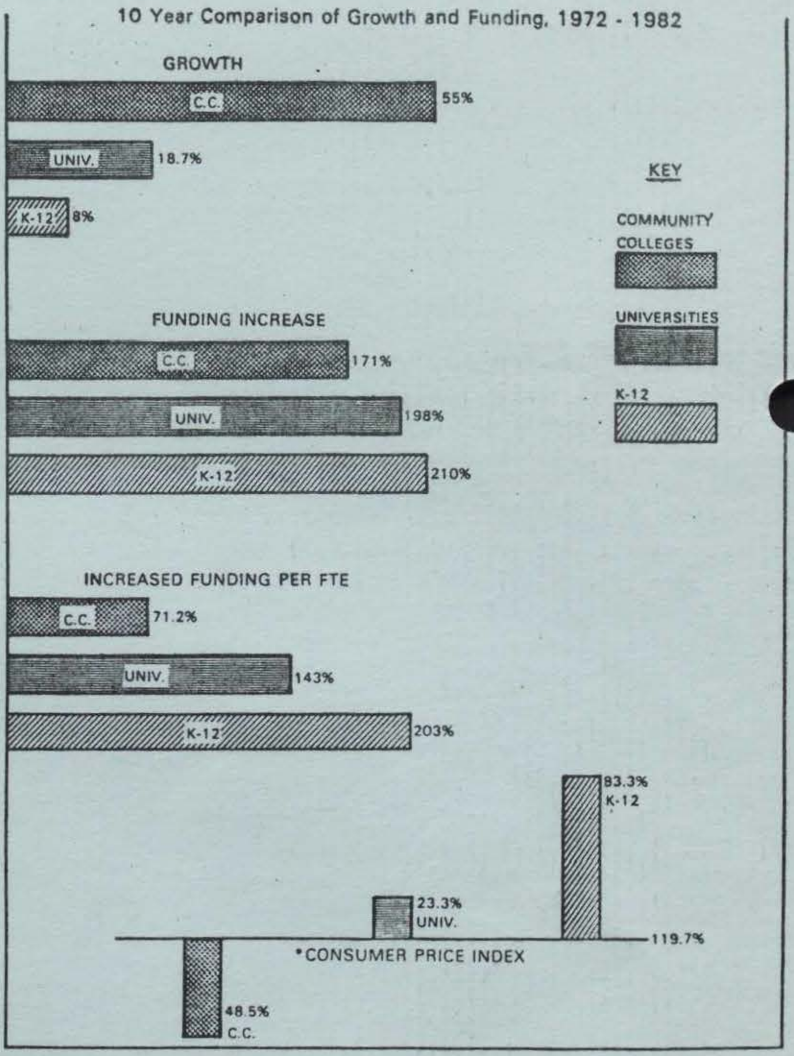
our facilities by others in the community to save air conditioning on weekends, I want those groups to know that we would like to serve them, but can't, unless the legislature provides more money," Dr. Eissey said.

"If we have to stop opening new sections halfway through our registration, I want the students to know that we would like to open more sections but can't unless the legislature provides more funding."

Carefully excluding the Palm Beach County delegation, which he said had been "wholly supportive" of community colleges, Dr. Eissey gave information to the press at a conference Thursday afternoon, which showed clearly that state funding for community colleges has not kept pace with their rapid growth.

One of those charts is reproduced here. Others, more detailed, were also distributed to press and managerial groups.

"It is not our intention to say that any education in Florida has been funded well," said Dr. Eissey, "but for years, community colleges have been expanding rapidly because they have been giving service to the community--yet have received less support than other segments of education. It is time we started saying so, and time for the people we serve to start speaking to the legislature. We can't do a better job each year, when our funding is below the consumer index."



Although Community Colleges grew much faster than any other segment of education in Florida during the last decade, overall state funding grew at a much smaller rate. A better comparison is in the growth of funding per Full Time Equivalent student, where it can be clearly seen that the fastest growing segment of education has been funded least well. It is the only segment that has not kept up with the cost of living index, and is receiving less money, in terms of purchasing power, than it did ten years ago.

*Source: U.S. Department of Labor, CPI, fiscal year change.

Income Protection (Disability) Insurance

ave received a call from a representative of Washington National Insurance Co. and was informed that an estimated 40 percent of our full-time personnel are enrolled in one or more of the income protection options available. As a result an "open enrollment" period be held during this month for either new enrollees or those who wish to increase their coverage.

At this time a few details regarding scheduling need to be worked out; however, tentative plans call for a representative of Washington National Insurance Co. to be on the Central Campus from about 9:00AM to 3:30PM on Tuesday, Nov. 16. Further information will be provided in the November 15 issue of the Monday Report. ...J. M. Schneider

Personal . . .

Thanks to all of the many people who remembered me during the recent illness of my daughter, Lynn. She's recuperating at home from her surgery. To hear good wishes from so many friends is a great source of strength. Many heartfelt thanks. ...Ed Eissey

Happy Birthday To . . .

11/08 Ellie Salisbury, Helen Schultz 11/09 Frank McLaughlin 11/11 Betsy Meyers,
Pat Dyer, Sammy Harley, Shirley Pember 11/12 Mattie Glover, Jim Houser, Jack Potenza
11/13 Bessie Mathis, Sandra Halker 11/14 Margaret Richardson, Trinette Robinson

FACC Activities At PBJC

New officers for the PBJC chapter of FACC are George Matsoukas, president; Dot Suttle, vice sident; Dr. Kathy Aiello, secretary; and Alice Carlisle, treasurer. Chapter members ected as state representatives are Dr. Sarah Pappas, PBJC North; chairman of Curriculum and Instruction; Dr. Robert Suttle, Central, chairman of Occupational Education; Dr. Joan Young, North, nominee for vice chairman of Faculty; and Frank McLaughlin, immediate past president and judge Region V Exemplary Practices.

Delegates to the 33rd annual FACC Convention to be held in Jacksonville Nov. 17-20 are Dr. Edward M. Eissey, Administrative Affairs; Alice Carlisle and Jeanette Sanders, Career Employees; Gordon Kramer and Dr. Young, Faculty.

Dr. Suttle and Donna DiSesa, Occupational Education; Patricia Wilson, Institutional Advancement; McLaughlin, Student Development; and Dr. Pappas, Instruction and Curriculum. Dean Otis Harvey and Dr. Aiello, Lifelong Learning; and one delegate yet to be announced, to the Trustees Commission. Alternates are Sandi Richmond, Marilyn Vazquez, Jennifer McCormick and Ron Moses, all from Central; and Alice Zacherl, North.

Another Evening On Broadway

The popular "Evening on Broadway" will be presented this year Nov. 18th though 20th, Thurs., through Saturday, at 8PM. The Music Dept's. annual production will be at 8PM each evening.

Richard Rodgers and Jerome Kern music will be featured, including favorites from such Broadway musicals as "Oklahoma," State Fair", "The King and I", and "Carousel". Selections from the current hit show, "A Chorus Line", by Marvin Hamlisch are also scheduled.

Pat Johnson directs the concert choir and soloists, and Sy Pryweller will conduct the 28 piece orchestra. Hugh Albee is stage director.

Tickets are available from 12-4PM in Rm. 105, Humanities Bldg. All seats are reserved, and the cost is $6.00 per person. Proceeds go to a fund for music scholarships.

reservations or information, call 439-8144.

Announcements . . .

Dr. Robert Geraldi, Associate Professor of Communications at the Glades Center, read a paper titled "Parallels in Franciso Martínez de la Rosa's Aben Humeya and La conjuración de Venecia" at the 32nd Mountain Interstate Foreign Language Conference held at Wake Forest University, Winston-Salem, N.C. on Oct. 7-9. This paper has been selected to be published in Hispanófila, University of North Carolina-Chapel Hill .

The following temporary part-time position is being announced:

Program Specialist (North Campus): Position requires a bachelor's degree and master's preferred with vocational counseling background.

Interested applicants should contact the Director of Personnel. ..J.M.Schneider

Clubs, organizations or offices requesting use of the College Marquee for notices of activities, should complete and return request forms to Ron Moses, one week before date to be posted: Locations of request forms are:

Dr. Haynes Office
Student Services Office
Guidance Center ...R.Moses

The PBJC Student Health Clinic will present the following films to be shown in AD 101, 9AM-3PM:

Nov. 9 & 10-Barney Butt (anti-smoking)
Nov. 15-19- Eat to Your Heart's Content
Nov. 22-24- High Blood Pressure
Nov. 29-Dec.3 - Coronary Heart Disease

Students and employees are invited to attend. Call 8066 for additional information..M.Cannon

FACULTY EVALUATIONS: All Faculty are urged to complete their Selection Forms and return them to the Testing Center, by Friday, Nov. 12th. This will allow us time to process these forms and get the Evaluation forms to you by Dec. 6th. ...D. Cook

REMINDER -- Employees, don't forget "PBJC Employees' Day" -- a day of family fun on Sunday, Nov. 14 at Lion Country Safari. Contact the Personnel Office for further details. ...A. Johns

PALM BEACH JUNIOR COLLEGE

MONDAY REPORT

Volume V, Number 7 November 15,1982

"Great Idea" Shot Down

First Casualty in Battle of the Budget

The first casualty in the battle of the budget at PBJC is a Small Business Development Center at PBJC North--a "great idea" that the college cannot afford at this time.

The proposal for the Center, developed after months of work by the PBJC staff and 32 members of the local business establishment, is a "great idea" that would have received college backing without hesitation under normal circumstances, according to Dr. Eissey. "But when you are facing the probability of a 5.7% holdback on state funds right on top of a 2% holdback already ordered," he said, "you have to take some measures that hurt--and this one hurts."

The proposal would have put together a budget of slightly more than $100,000 for the first year of operation of the Center, conceived as an umbrella for all governmental and volunteer services and information for small businessmen.

Set against a background that includes a record number of small business failures in the county, while, paradoxically, a record number of small business start-ups is also in progress, the center proposal had the backing of no less than 13 agencies operating in the county.

"This proposal is in the best traditions of community college service," Dr. Eissey said. "There is a serious need for such service, and we are very much in favor of providing it."

"But when it came to pledging college funds to a new project at a time when we are being forced to plan cutbacks in many other areas, we simply cannot afford to do so."

The Center would have provided management assistance, counseling, referral to existing agencies, a section of the library devoted to small business-related reference materials, management training programs and technical assistance, including limited research.

"We believe there is a real need for such a center", Dr. Eissey says, "but we can't afford it at this time."

November Agenda

The November meeting of the board of trustees will be in an unusual setting--the cafetorium at the Henderson University School, on FAU's Boca Raton campus.

The meeting, Tuesday, Nov. 16 at 7:30PM, is the first of what is planned as an annual visit to PBJC South.

The first item on the agenda after the opening and approval of minutes will be a presentation by Dr. Patricia Dyer, South Provost, who is expected to give the board an overview of operations there.

The board recently decided to hold one regular meeting each year at the South, North and Glades campuses, with other meetings remaining at PBJC Central.

The agenda consists of 22 items. Most are routine in nature and will probably be passed on a single motion as part of the consent agenda.

Among personnel items of note will be the appointment of three coaches: James Chism, assistant baseball, James Simon, men's golf, and William Tramontozzi, women's golf.

Final plans for the Student Services Facility at Central will be up for approval, and preliminary plans for the Library Learning Resources Center/Academic Labs at PBJC North.

A renewal of the agreement between the college and the Institute of New Dimensions is also on the agenda.

Special Master Hearings Begin Nov. 30

Special Master hearings on disputed matters in the impasse between PBJC and the United Faculty of PBJC have been scheduled to begin Nov.30,9AM in the County Parks and Recreation Bldg, John Prince Park.

Dr. Steve Altman, vice president of Academic Affairs at FIU, has been selected by the Public Employees Relations Commission and the parties as Special Master.

Altman's name was the only one left after the college struck one name from a list of 3 supplied by PERC and the union struck a different name.

Significant economic differences between the two sides remain. The college has offered a 7.5% non-retroactive increase. The union's last position was to demand 10%, plus an increase of salary ranges by one increment and liberalization of the ranking system. Other differences also have some economic impact.

It was agreed by both parties during bargaining that the chief obstacle to a contract remains Management Rights, sometimes called Employer Prerogatives. This clause, proposed by the college, would allow management to make decisions on matters not covered by the contract during the life of the contract, and implement those decisions prior to bargaining about them. In 1980, the union refused to agree to the clause, and PBJC went to impasse over the matter. The union brought charges against the college before PERC, which ruled the unlike private sector bargaining, where such clauses are clearly mandatory subjects for bargaining, they are not mandatory in Florida public sector bargaining, and therefore could not be insisted on to the point of impasse. In its ruling, PERC said the legislature intended to make this difference between private and public sector bargaining to offset the advantage given to management when it made strikes illegal.

That ruling was appealed by the college to the First District Court of Appeals where final argument was heard in February, but a decision has not yet been announced.

A decision would obviously impact on the hearings before Altman.

The special master will control the hours of the hearing and its length.

After all disputed matters are heard, the special master makes non-binding recommendations prior to other steps in the impasse procedure.

Happy Birthday . . .

11/15 Jane M. Smythe 11/16 Mary Bosworth, Joan Young, Claude Edwards, Perry Tougas
11/18 Mary Giel, Oscar Shackelford, Henrietta Caldwell, Ofelia Franco
11/19 Howard Utman, Barbara Benken 11/20 Betty Morgan, Kathy Cockrell
11/21 Robert Geraldi, Raul Garcia, Ann Dorosh

Personals . . .

I am recovering satisfactorily from my recent surgery and wish to express thanks to all who showed their care and concern with cards, flowers and telephone calls...Ros. Kochel

Dr. Sam Bottosto was guest speaker Nov. 11 at the monthly meeting of American Business Woman's Association of Boca Raton. He spoke on "Living Optimistically."

For your many thoughtful kindnesses: cards, telephone calls, visits and flowers during my hospitalization, I am most appreciative. ...Minnie Douglass

This year, there will be no possibility of making flu vaccine available through the college and the Palm Beach County Health Dept. Efforts had been made by the college health clinic, but due to funding cutbacks, it is recommended that those who may need flu shots this year contact their own private physician.

Learning Disabilities: Puzzle People

A Learning Disabilities Awareness Workshop is planned for Tuesday, Nov. 30, from 1-3 PM in CE128. It is being presented at the request of the Handicapped Advisory Committee because of the increased number of L.D. (Learning Disability) students attending college.

These students are often referred to as the Puzzle People--intelligent, yes--succeeding in college--no. They are not retarded. They do have trouble taking in information and bringing it accurately to the brain; the information gets scrambled. The expectation is that the college student will absorb information, communicate it, and be evaluated through the printed page. The learning disabled student will need assistance and support in finding innovative ways of receiving information and in being evaluated (tests).

Melody Chaykin, a Learning Disabilities Specialist, has worked with college level students at Miami-Dade and Broward Community College. She has set up L.D. programs in the Dade County School System.

Ms. Chaykin will discuss the identification of the L.D. student, support services needed, and teaching strategies and methods than can assist with the L.D. post-secondary adult.

Although it is a two-hour presentation, it has been structured into two segments, so it is possible to leave early or come late.

For additional information, call 8057. There is no fee for the workshop, but it is necessary to fill out a Continuing Education Application. ...Gail Tomei

Legislative Breakfast

All members of the Palm Beach County delegation to the legislature have been invited to a one-hour breakfast meeting at PBJC Monday, Nov. 22 at 8AM.

"We want to welcome all new members of the delegation, and renew our friendship with the others," said Dr. Eissey.

There will also be discussion of a number of important educational issues to be faced by the legislature this year, and of specific needs faced by PBJC.

The meeting has been scheduled for Conference Room C at PBJC Central.

Criminal Justice Award

PBJC's Criminal Justice Dept. was honored at a recent Board of Trustees meeting by the Palm Beach County Association of Chiefs of Police.

The Police organization presented a resolution commending Dr. Eissey, Joe Macy, the administration and staff for "outstanding service to the law enforcement community of Palm Beach County."

PBJC offers a number of technical and professional training courses throughout the year to all 1350 full-time sworn police officers, 300 auxiliary members, and 235 corrections officers in the county.

Each year, about 200 new police officers are certified through one of PBJC's five police academies. There are 15 seminars a year for certification in operation of breathalyzer and radar equipment.

The college also holds 15 special training courses (30 hours each) and 20 career development seminars (60 hours each) per year.

The resolution was signed by D. Bill Mathis, Belle Glade, president of the Association of Chiefs of Police, and awarded by Joseph Terlizzese, Palm Beach, vice president.

PALM BEACH JUNIOR COLLEGE
PBJC MONDAY REPORT

Volume V, Number 8
November 22, 1982

After 10 Years Of Growth

PBJC South "At Another Beginning"

Although a decade of constant growth has brought PBJC South past 30,000 in student semester hours and 1,000 in FTE, Dr. Patricia Dyer, provost, told college trustees Tuesday night, that "we are really at another beginning."

Dr. Dyer said the long quest for necessary approvals to lease land on the FAU campus has finally been completed.

"Now it will be possible for us to begin the search for funding for our own buildings here in Boca Raton" Dr. Dyer said.

"We have grown so much, as has FAU, that we hope the legislature will see fit to fund us more quickly," she said.

Dr. Dyer briefly outlined the history of PBJC South. Started in 1972 with eight in the Fall Term and eight in the Winter Term the center got its first full-time employee, Jim Tanner, the following year, and its 1st full time faculty in 1977.

Current statistics show 1,924 students carrying 14,792 student semester hours in 193 sections.

Twenty of the faculty have earned doctorates, 55 have master's degrees, and the 13 with bachelor's degrees are mostly in occupational courses where they have specialized experience.

Thirty-seven faculty members live in Boca Raton, 9 in north Broward County, 10 in Ft. Lauderdale and south, 24 in cities from Delray Beach north to Lake Worth, and 8 in West Palm Beach.

Cont'd on P 3

Many members of the Palm Beach County legislative delegation are meeting at breakfast this morning with Dr. Eissey.

The Monday Report would like to welcome all members -- those who are repeaters as well as those elected for the first time -- and to wish all of them well in the upcoming sessions.

The problems facing legislators are always numerous and difficult, but they are especially severe during times of falling state revenue. Serving more and more Floridians with less money sounds pretty familiar to Community College folk.

That's what we have been doing the last ten years.

Press Conference Next Monday

A combined public meeting and press conference has been scheduled Nov. 29, 10 a.m., in Dade, Broward and Palm Beach counties to introduce a new booklet to the press and public: Planning Your Education: A Guide to Getting the Most out of High School.

The simultaneous conference emphasizes the regional nature of the Southeast Florida Educational Consortium, which produced the booklet.

The consortium, composed of public and private colleges and schools from Palm

Cont'd on P 2

Because of Thanksgiving holidays on Thursday and Friday, the Monday Report will not be published Nov. 29. We will see you again on Dec. 6, and deadline for that edition is Dec. 2 at noon. We wish you all a safe and happy holiday.

Free Jazz Concert Here November 30

One of the top jazz musicians in Toronto, Canada will give an improvisation clinic and be a guest artist at a jazz concert here, a week from tomorrow.

Rob McConnell, valve trombone player and composer of "Just Friends", will appear with the PBJC and Florida Atlantic University Jazz Ensembles Tuesday, Nov. 30 at the PBJC Central Auditorium. The clinic will start at 6:30PM and the concert will follow at 8PM.

The ensembles will be directed by Don Militello, and will perform compositions by Maynard Ferguson, Bill Holman and Thad Jones, in addition to McConnell's work.

According to Sy Pryweller, PBJC bandmaster, the Pacer band will play during the first portion of the program, and the FAU band will perform during the second half. Each band has about 20 members, and includes various soloists. Admission is free.

Additional Announcements

Panasonic Representative will demonstrate an Interactive Video Learning System on Nov. 24 in our L.L.R.C. A-V Center from 10:00 AM until 12:00 Noon. This system allows programming of either new productions or existing video tapes for question and answer sequences. If answered correctly the system proceeds to the next segment; if answered incorrectly, the system automatically rewinds and replays the previous section. ...W. Douglass

Magic Kingdom Club members are invited to the Annual Jiminy Cricket's Christmas Party which will be held on Sunday, Nov. 28 through Saturday, Dec. 4 from 9AM to 6PM. Special admission of $12 per person for unlimited use of the Magic Kingdom attractions. Contact the Personnel Office for more details. ...A. Johnson

November Student Of The Month

Marla Pautz, a sophomore from Boynton Beach, has been named the Student of the Month for November at the PBJC South campus. A nineteen-year old journalism major, Pautz is currently president of the Student Government at PBJC South, and assistant editor of Southern Exposure, the campus newspaper.

She graduated from Carmen High School in Flint, Mich., and plans to complete her studies at the University of West Florida in Pensacola.

Press Conference (Cont'd from P 1)

Beach through Monroe Counties, fosters cooperative efforts at many different levels in the institutions.

A task force on high school preparation of students has worked for several months compiling information for the booklet, intended as a guide to students entering, or about to enter high school and their parents.

The Palm Beach County conference will be at Palm Beach Junior College Central, in the Continuing Education Lecture Hall. Representatives from the County School System, Florida Atlantic University, PBJC, Parent Teachers Associations and other parent advisory groups have been invited to the meeting.

The booklet begins with practical suggestions for planning a high school career, then discusses foundation courses, then makes specific recommendations for Southeast Florida colleges.

An initial printing of the booklet, enough for principals, counselors and other professionals, has been donated by Burdine's and plans are being made for a more massive printing for students and parents early next year.

The consortium is a voluntary association of 16 public community colleges, independent colleges and universities and state universities. Its purpose is to provide a vehicle for cooperative efforts to improve higher education in the area.

Pacers Are Off To A Great Start

If you haven't made it to one of our Pacer basketball games this year, the Monday Report has a strong suggestion: Don't wait too long. By this time next year, you may not be able to get in unless you have a season ticket.

We saw the first Pacer game this year, in order to get some action photos, and also out of curiousity about what Bill Hodges is doing.

We liked what we saw. Clean-cut young athletes with a lot of hustle, a lot of desire, and a total dedication to team play. Good overall team speed and decent rebounding--nobody really exceptional, but everybody pretty good. Good shooting with three who appeared to be exceptionally accurate from mid to long range. Not too much skill on defense, but plenty of determination.

It was a good crowd for a game at PBJC. We were playing PB Atlantic, however, and about half the crowd appeared to be rooting for PBA.

But last Wednesday, the third home game, Brevard brought a fair number of supporters, but it was Pacer country, and the gym was two-thirds full. Apparently, we are not the only ones who liked what we saw.

Brevard has an excellent basketball team. They were bigger, faster, could jump higher and were well coached. The Pacers were ragged, their inside shooting was terrible, and a good Brevard defense made them look inexperienced and awkward on several occasions.

We were sitting with two veteran sports writers. None of us could figure out how the Pacers were hanging in there except for the intangibles like desire and hustle. Plus that good outside shooting.

The Pacer baseball team was sitting together on the north side of the gym, and leading cheers that were louder than those engendered by the cheer leaders on the south side of the gym. After awhile, the two cheering sections began to collaborate, and the place fairly rocked with noise.

When have you heard that at a Pacer game?

Through five games in the pre-conference part of their schedule, the Pacers are 4 - 1, including a 93-91 win over Brevard. They will have played in a Thanksgiving tournament at Seminole before you read this.

The next home game will be against Seminole, Tuesday night, and they won't play here again until Dec. 8, when they meet Manatee -- the only team to beat them so far.

Somewhere along the line you will want to take a look at the new Pacers. Don't wait too long. You might have to stand in line for tickets. ...JK

PBJC South (Cont'd from P 1)

Dr. Dyer's report was given to the trustees at a meeting of the board at Henderson University School on the FAU campus, the first trustee's meeting held at PBJC South. In other actions the board saw the first public showing of a new slide show reporting on use of millage funds; approved final plans for the Student Services Facility and a bay addition to physical plant at PBJC Central; approved preliminary plans for the library/academic labs building at PBJC North and awarded 7 bids and approved 12 other items of routine business.

PBJC PALM BEACH JUNIOR COLLEGE
MONDAY REPORT

Volume V, Number 9 December 6, 1982

Dimensions

Speaker And Guest Of Honor

Dr. Henderson Visits His Home Town

Dr. Lee G. Henderson, Director of the Division of Community Colleges of the state for the past 14 years, will be both speaker and guest of honor at a meeting of all college personnel today at 3 p.m., in the PBJC Central auditorium.

Dean Whitmer Honored At Luncheon

Dean of Occupational Studies Don C. Whitmer, who will retire at the end of this month after 36 years as an educator, will be honored at a luncheon Thursday, Dec. 9 at 11:30AM in the Foodservice Dining Room.

During his 28-year tenure, Dean Whitmer was involved in the development of many occupational programs. These include drafting design, air conditioning, waste water, building construction, and building construction management.

He also helped develop the auto mechanics and postal service technology apprenticeship programs.

Originally hired in 1954 by John I. Leonard, the college's first president, Whitmer is one of the few faculty members who has served under all three of PBJC's presidents.

He began his career in Palm Beach County by splitting his time between teaching mechanical drawing/drafting at Palm Beach High School (now Twin Lakes), and engineering drawing at PBJC, then located in the Lake Park City Hall.

Dean Whitmer joined the faculty full-time in 1957, a year after the college moved to its permanent home. Shortly afterward, he was appointed to chairman positions in the Engineering Technology, Physical Science and Physics Departments.

In 1971, Whitmer became assistant dean of academic affairs for vocational-technical education. That year, he also took a sabbatical leave to travel through the West and Europe, studying new trends

Cont'd on P 3

Dr. Henderson, the second person in history to head the Division, is a Palm Beach Junior College graduate, and also a graduate of Palm Beach High School, (now Twin Lakes).

He has announced his retirement in January.

Henderson served for 11 years as Assistant Director under Dr. James Wattenbarger, also a PBJC graduate, before assuming the top post in 1968.

"We have always been proud of the fact that Dr. Henderson is one of our own," says Dr. Eissey, who called the meeting, "but we have sometimes been too busy to say so.

"The meeting was called to express our appreciation, to wish him well, and to ask him to give us a review of the community college system, its current position and future prospects."

After graduation from PBJC in 1942, Dr. Henderson attended the University of Missouri as a Journalism major before service during World War II as an Air Force pilot.

After the war, he changed colleges and majors, eventually obtaining both B.S. and B.A. degrees in Accounting, a Masters Degree in Secondary Education, and a Doctorate in Administration from the University of Florida.

He had a six-year career in secondary education during and after his college career, before joining the Division in 1957.

Dr. Henderson is a member of a number of professional organizations and has served as an officer and director in many of them.

Dr. Henderson has always considered this area where he grew up, and where his parents have resided, as his "home town". We are happy to give him a home-town welcome.

Jai Alai Scholarship Benefit Thursday For PBJC

All proceeds from Palm Beach Jai Alai on the night of Dec. 9 will be donated to scholarships at PBJC, according to Pat Wilson, executive director of the Foundation.

"We are grateful to the management of Palm Beach Jai Alai for their cooperation in staging the Student Scholarship Night," Wilson said.

All proceeds for the evening,both the state's portion and the fronton's portion of wagering as well as profits from meals,will be donated to scholarships.

Doors open at the Fronton at 6:30 p.m. for the restaurant and lounge and the games begin at 7:30 p.m. Seat prices are $1-5.

Dinner or seat reservations may be made by calling 844-2444.

"We are hoping for beautiful weather on Dec. 9, and for a large turnout for our scholarship night," Wilson said.

Senior Chorale Concert

The PBJC Senior Chorale will perform music by Handel, Haydn and others at a concert Saturday, Dec. 11 at 4 p.m. in the PBJC Central Auditorium.

The hour-long program will include solos by Beatrice Lochmeyer, soprano, and Bel Ranik, alto.

The PBJC Senior Chorale is comprised of persons 55 years of age or older, and is under the direction of David H. Chandler.

The 40-member Chorale, sponsored by the Division of Continuing Education, rehearses on campus each Tuesday from 3-5 p.m.

Tickets for the performance are $1 and can be purchased at the door. The public is invited.

Less Visible Minorities

The Center for Multicultural Affairs is cooperating with St. John's University in New York and WABC-TV in developing a discussion series entitled "Less Visible Minorities."

Ethnic groups that are members of the PBJC Center for Multicultural Affairs have been involved in identifying participants in the series.

Two PBJC personnel have been invited to participate in the program. Dennis Alber of the Mathematics faculty is representing the Danish-American contributions and George Matsoukas of the Development Office is representing the Greek-American community. The series will be taped in West Palm Beach.

News From The South

On November 8, Stafford Mooney, one of PBJC South campus' full-time faculty members, was a speaker at the Women's International League for Peace and Freedom (Margaret Meade Chapter) in Boca Raton. The title of the speech was "Education and the Future of Peace."

...J. Tanner

"The Nutcracker" At Glades Saturday

[illegible]e Snow Forest, Snow Prince and the Sugar Plum Fairy will all come alive in a pageant of color, music, and movement, Dec. 11 at the Dolly Hand Cultural Arts Center, Glades campus.

Ballet Arts of West Palm Beach will perform a revised production of the popular Christmas ballet, "The Nutcracker" beginning at 8 p.m.

Tickets are $10, and all seats are reserved. For more information, call 439-8160 (WPB) or 996-3055 (Belle Glade).

Howard Reynolds, Author

Dr. Howard M. Reynolds, chairman of the physical education department and former Athletic Director, has published a textbook which should be available in the PBJC Bookstore by next semester.

"Teaching Basketball" is directed toward college physical education majors and persons already working in the field. Reynolds co-wrote the book with N. Sue Whiddon of the University of Florida.

Reynolds said he and Whiddon worked on the book for about a year. It is being published by Burgess Publishing Co. of Minneapolis, and is part of the company's Sport Teaching Series.

Dean Whitmer (Cont'd from P 1)

in his field.

This past summer, Whitmer received a plaque from the Occupational Education Standing Committee for 36 years of dedicated service in vocational education.

"[illegible]t was a real surprise for me," he said. "I've attended every conference of the group for 19 years."

Born in Colorado and raised in Sioux City, Iowa, Whitmer attended Iowa State University.

He interrupted his education to serve in the U.S. Army for what was supposed to be a year. Four-and-a-half years and one world war later, he returned to complete his bachelor's degree.

He received his master's degree from the University of Alabama-Tuscaloosa.

Whitmer and his wife, the former Rae Nicols, have three grown children. Enthusiastic campers, they have traveled through 44 of the 50 states, and are 25-year members of the Pelican Campers of the Palm Beaches.

During retirement, Whitmer plans to travel to Alaska and New England, and possibly trade homes for a few months with a family in Scotland.

"I've also got a 'honey-do' list a mile long," he said.

He added that he and his wife collect antiques--and many of them need to be refinished.

In addition to globetrotting and antique recycling, the Whitmers have 11 citrus trees, 25 clumps of bananas, 100 pines, an acre of lawn to tend to...with one 20-year old riding mower.

The college will certainly miss Dean Whitmer's service, his impish humor and hand-made ties. We wish him a happy and full retirement. ...KB

CHIPOLA JUNIOR COLLEGE
MARIANNA, FLORIDA 32446

OFFICE OF THE PRESIDENT

November 30, 1982

Memorandum

To: Members, Board of Trustees

From: James R. Richburg

Greetings! I am enclosing a copy of an article which was printed in NEA Today in the December 1982 issue. The article was generated by the leadership of the Chipola Junior College Faculty Association. This publication has been circulated to all teachers who are members of the National Education Association union. Consequently, throughout the five county district you can expect educational personnel to receive copies.

The NEA is a union and NEA Today is a union publication for union members. Consequently, much of the information published in it is pure fabrication and exists only in the world of union fantasy and rhetoric. I am personally disappointed that our CFA leadership would have submitted such an article. I know that their claims of success in this bargaining contract are pure fabrications. Our faculty received benefits and gains because of a commitment by me as a new president and by you as a supportive Board and in spite of the union.

The salary increase was the same given to administrative and career service personnel and was initiated by the Board--not the union--months before the beginning of negotiations! The 10½ months contract was an idea I recommended to the Board prior to presenting it at the bargaining table. These initiatives came entirely from the Board of Trustees and college administration. Naturally, I am pleased that the Chipola union leadership is happy to have received these benefits. However, it is a hard pill to swallow for the union leadership to take sole credit for faculty receipt of these benefits.

I cannot speak to the claims made prior to my arrival at Chipola Junior College. I do know that the union in the minds of many towns people of Marianna and the business leaders in our five counties is a public relations problem. It does not promote the image of professionalism of Chipola Junior College in the community. Hence the claims that the town's support and union public relations helps the faculty, I find to be both erroneous, as well as startling in its naivety.

As your chief administrative officer, I still feel that the faculty of Chipola Junior College is a fine group of professionals. I am so sorry that the Board and the administrative relationship with the faculty are colored through the false claims of a union. However, as President and as Board Members, we must recognize that we are dealing with a labor union. And as such, we should be prepared for this kind of behavior and not lose sight of the quality of faculty members.

I am sharing a copy of this correspondence with my colleague community college presidents so that they will be more accurately informed of our position in dealing with the faculty union at Chipola.

PBJC PALM BEACH JUNIOR COLLEGE
MONDAY REPORT:

Volume V, Number 10 December 13, 1982

Still The Best Bargain

Fee Increase Of $1 Planned In Spring Term

A fee increase of $1 per semester hour will be recommended to the trustees at the December meeting of the board, Thursday, 7:30 p.m., in Conference C at PBJC Central.

Students now pay $18 per credit hour, and, if trustees approve, will pay $19 per credit hour, beginning in the Spring Term in May, 1983.

Student fees at public community colleges in Florida are set within an allowable range by the state, and the move to $19 per credit hour will bring PBJC to the maximum allowed.

"Many community colleges are already at the maximum," Dr. Eissey says. "We are always reluctant to add to a student's cost, but in view of the 4.5 per cent reduction in state funds, with even bigger cuts to come if the economy does not improve, we must ask students to pay a larger part of the cost of their education."

"It is still the best bargain they will find, anywhere," he added.

The board will be asked to approve an updated version of the college plan, a faculty development seminar in international studies, budgeting of a new award for Academic Knowledge and Public Policy at PBJC South, a report on drainage problems at PBJC North, and 31 other items, most of them in business, construction, and awarding of bids.

Len Turk and Jack Estreich will appear before the board to present copies of books on the holocaust.

Local Government Survey

County residents would favor closing parks, pools and piers after dark, and retaining neighborhood schools if cuts in service were necessary. At least that's what some of our students discovered.

Students in Ed Pugh's "State and Local Government" class distributed questionnaires in their neighborhoods as part of a recent class assignment.

"The National League of Cities has stated that an increase of 15-45 percent in land taxes may be necessary to offset losses of federal revenue-sharing if the federal program is not renewed in 1983.

"If the federal money is not available, then cities will have to cut services or raise the land tax to make up the difference," Pugh stated on the questionnaire.

A total of about 100 people were queried. Thirty-three respondents said they would favor retaining and fully utilizing the neighborhood schools.

Thirty-one said they would favor closing parks, pools, and piers after dark, and thirty-two said they could make do with fewer lights on I-95.

Though only six respondents thought cuts should be made in police service and only one favored cutting fire protection, 17 suggested sharing police and fire services with other municipalities and counties.

Twenty people thought garbage and trash service could be trimmed, and 18 suggested using private, contracted trash pickup.

Photo Directory

All personnel whose photos for the directory are not in hand, including some whose shots for previous directories have been lost, are being contacted individually by campus mail. A photograher will be on hand Wednesday & Thursday, 8:30-11:30AM, and 1-3:30PM at the news bureau darkroom just outside Conf.C, and for an hour after the all-college meeting of Dec.21. These will be your last chances for inclusion in the new photo directory.

THIS Week . . .

A used book buyer from Nebraska Book Co. will be in the bookstore on Dec. 15, 16 and 17th.

Faculty and staff are invited to attend a Holiday Open House given by Co-Op in Rm. BA-101, on Thursday, Dec. 16, 9AM to 12 noon.

Student Affairs Dept. has purchased the following books to assist students in the preparation for the CLAST Test: Competency in College Math; College Math Review; Getting Ready for CLAST; Math Anxiety Reduction; and Programmed Arithmetic. Students wishing to use these books should contact Mrs. Kern in Career Center. The bookstore also has these books for sale.

Happy Birthday To . . .

12/13 Bronwyn Greene 12/15 Geraldine Harris, Priscilla Dunson, Sheila Durand 12/16 Marie Boyle 12/17 Jim Tanner 12/18 Noel Smith 12/19 Gordon Kramer,Alice Duxbury,Barbara McCrae

Personals . . .

Hope you all caught the story in the Post on Dec. 3, which told about Jim Houser winning second prize at the Four Arts, where he h won a number of times in the past. The article did not point out that Gary Matthews, 1st prize winner, is a former PBJC student, as is Clarence Measelle, honorable mention, and six of the other painters chosen from over 1,000 offerings for 77 spots in the exhibition--David Ginsburg, Pearl Sherman Lazare,Roger L.Rudy,Paul Aho,Nancy Thomsen and Karen Theresa Sandy.

Joe Macy was a little surprised this year when his check for annual membership in the International Assoc. of Police Chiefs was returned with an explanation that he wouldn't need to be sending in dues anymore. Last week he was informed by Boone Darden that he has, indeed, been elected to life membership in the organization. Joe, who has been a member since 1961, says he is pleased with the honor, and has a number of excellent ideas for use of the returned check!

Thanks to all who sent cards, notes, and gifts when I retired in October. I also appreciate words of comfort in cards, calls and letters during the recent death of my fath Jim Cook. ...Betty Linn

Condolences to Betty Childers, whose grandson, Paul Joseph, Jr., Lakeland, 18 years old, was killed in an automobile accident last Wednesday. Somehow, a tragedy seems even worse when it happens to young people.

Mayo Smith Tournament Today

The fifth annual Mayo Smith Golf Tournament gets underway at noon today at Atlantis Country Club.

Proceeds from the tournament are used for athletic scholarships at the college.

Mike Calbot, a famous trick-shot artist,will be an added attraction at this year's tournament. A seafood buffet will follow tournament play.

THERE WILL BE ONE MORE MONDAY REPORT BEFORE THE HOLIDAYS. PLEASE MEET THE DEADLINE OF NOON,THURSDAY, DEC. 16, FOR THE LAST ISSUE, MONDAY, DEC. 20. WE WILL BEGIN AGAIN ON JAN. 10,WITH A DEADLINE OF THURSDAY, JAN.6 AT NOON.

PALM BEACH JUNIOR COLLEGE

MONDAY REPORT

Volume V, Number 11 December 20, 1982

Working During The Christmas Break

Senior Players' New Year Offering: Born Yesterday

While most of the college personnel are away, one group will be working hard every day during the Christmas break. The Continuing Education Department's Senior Players will be rehearsing for their performance of "Born Yesterday" which will open Thursday,Jan. 6, and run until Jan. 9. On Jan. 13, they go on tour to the Dolly Hand Cultural Arts Center at PBJC Glades.

Nancy Goodwin, Senior Players' coordinator, is really excited about this year's performance, so somehow rehearsing every day doesn't seem like work.

"I think we have a good one this time," she said.

The three-act comedy is the story of a junk dealing profiteer during the post-World War II times, and how his dumb-blonde girlfriend and an idealistic reporter find something rotten in the state of the junk business.

The cast members are all very young at 55 years of age or older. Some have had extensive theatrical experience, and some haven't had any at all. But they all have talent and enthusiasm for what they are doing.

Madeline Shaw will play Billie Dawn, the dumb-blonde. Shaw has performed professionally in New York and New Jersey before moving to Boca Raton four years ago.

The part of the coarse junk dealer, Harry Brock, will be portrayed by Jerry Millman. A retired accountant living in Royal Palm Beach, Millman was introduced to show business as a guitar player for a swing band.

Lester Ostrow of Delray Beach will play Paul Varrell, the New Republic magazine reporter. He is a retired manufacturer of industrial marking devices who "always had a yen for acting."

This play is one thing you won't want to miss after you come back from the break. Show times are 8PM with matinees at 2PM on Saturday and Sunday. Tickets are $4, and seats are reserved. Call 8011 or 8141 for reservations. Better call now. Tickets are going fast.

Fee Increases Approved

Student fee increases of $1 per credit hour for in-state students, and $2 per credit hour for out-of-state students were voted by the trustees Thursday night.

Dr. Eissey noted that the increase would not take place until the Spring Term, giving students a chance to prepare and avoiding the difficulties of charging more to those who have already paid fees for the Winter Term. The new fees will be $19 per credit hour in-state and $38 per credit hour out-of-state.

The board accepted 22 books on the holocaust from B'Nai B'rith and approved an updated version of the college plan.

All College Meeting

The all college meeting at 10:30 tomorrow has a full agenda, but none of the items appear to be lengthy.

Entertainment is by the "Shufflin' Shoe

Cont'd on P2

Joyeux Noel

The semester and the year are rapidly drawing to a close, and during the afternoon of Thursday, Dec. 23, the curtain will go down, only to rise on a new semester and a new year on Jan. 3.

Merry Christmas, Happy Hanuka,Chanukah, Hanukka, or Hanukkah,(take your pick), and a great, productive and marvelous New Year to all from the Monday Report. Next Monday Report, Jan. 10.

THIS Week . . .

Dec. 21	All-college meeting;Central Auditorium; 10:30AM
Dec. 22	Criminal Justice Police Recruit graduation; 3PM; CJ-9
Dec. 24	(through Jan.2) Christmas Holidays

Any articles for the Spectrum, the student affairs newsletter, are due by Jan. 31 to the respective representatives at each campus. ...S. Becton

January Art Show

A collection of about 20 collage paintings by Carol Cornelison will be on display in the Humanities Gallery from Jan. 6-30.

We're extremely pleased to be able to show this inventive artist's work," said Jim Houser, exhibits coordinator. "She has a very beautiful use of texture and contrast of materials."

Houser said Cornelison's work can be described as "collage, and almost relief painting." Cornelison is currently an adjunct instructor of drawing/painting at FIU. She holds a bachelor of fine arts degree from there, and a master of fine arts from the Univ. of Miami.

All College Meeting (Cont'd from P 1)

Cloggers," directed by Joe and Betty Kent. Our connection was Mary Tingler.

There will be a presentation to our friend from FAU, Dr. Jack Guistewhite, who is retiring, and a showing of the new millage slide show.

After Dr. Eissey's remarks, we will have Christmas gift drawings similar to those last year, and we'll be on our way. See you there.

PS. Don't forget your last, last, last chance for photo directory pictures after the meeting.

LATE ANNOUNCEMENT: The Evening Registrar's Office will be closed evening hours from Dec. 20 through Dec. 23. Office hours during the week of Dec. 20-23 will be 8AM-4PM. Evening hours (6-9) will resume Mon.,Jan.3.
...H. Saulter

PALM BEACH JUNIOR COLLEGE
PBJC MONDAY REPORT:

Volume V, Number 12 January 10, 1983

First Conference January 18

Public Policy Makers Meet Academicians Here

A two-part forum to help bridge the communications gap between the academic community and public policy makers is scheduled at Palm Beach Junior College in January and February.

"The Florida Leadership Forum" will be held Tuesday, Jan. 18 at 7:30PM in Conference Room C. A larger second session is scheduled for Feb. 24. The forum is being made possible by a grant from the Florida Endowment for the Humanities.

"I think this is a very worthwhile project," said Dr. Sarah Pappas, assistant project director.

"There are a lot of negative attitudes and prejudices between scholars and policy makers," she said. "Even if we only increase understanding of each other's problems and points of view, we'll feel we've been successful."

The first session will focus on identifying three problems in the public sector and resources available in the academic community to solve them.

During the second conference, participants will explore solutions by engaging in group problem-solving sessions.

The Honorable Philip Lewis, former president of the Florida Senate, will moderate the forum of about 30 academicians and policy makers.

One of the goals they hope to achieve is to produce a booklet that lists names, addresses and phone numbers of academicians willing to help draft language in public policy or contribute other expertise, and policy makers who are interested in serving as guest lecturers or in helping plan curriculum.

Both before and after the forum, questionnaires will be distributed to measure any decrease in biases between the two groups.

Participants will include at least two representatives from the humanities disciplines

Cont'd on P 2

Court Decision Postpones Session

The collective bargaining session set for Jan. 6 between the college and the United Faculty was postponed after stories in the local media concerning a decision by the First District Court of Appeals on the Management's Rights case.

Such a decision would obviously have great impact on the college position regarding the current contract, and there must be time to read and understand the decision, to explore the wide variety of options available, to discuss these options with the board in strategy session, and to arrive at the best decision for all concerned.

Upon hearing the news, the administration moved immediately to set up the necessary contacts.

Unfortunately, the long-awaited decision is still being awaited, as far as the administration bargaining team is concerned. As of the Monday Report deadline, the court decision had not yet reached the college or its attorney.

At this point it is not possible to make a responsible forecast of either the sequence of likely events or a timetable for them. ...JK

Fair Volunteers Needed

The South Florida Fair will open Thursday, Jan. 20 through Sunday, Jan. 30. The gates open week-days and Saturdays from 10AM to 10PM, and on Sunday from 1PM to 10PM.

Cont'd on P 2

Adolfo Show To Benefit South

Fresh from New York, high-fashion designer Adolfo will bring his spring collection to the Boca Raton Hotel on Monday, Jan. 17 for a fashion show to benefit PBJC.

Cocktail hour begins at 11:30AM in the hotel's Cathedral Room, with lunch following at noon and the show at 12:45PM.

Models from Saks Fifth Avenue in Palm Beach will show about 75 of the designer's simple, classic creations.

"That's the very essence of my design, clothes that are lasting," Adolfo said. "I use the best materials, the best thread, the best workmanship.

"My customers still wear dresses that I made for them ten years ago."

Born in Cuba, Adolfo began his fashion career by making hats. In 1962, he opened his own millinery business, and had many prominent socialites as clients. Some of his successful trademarks were a Panama planter's hat, a shaggy Cossack, and large fur berets.

He has studied with famed designer Balanciaga in Paris, Coco Chanel, and Ana Marie Borrero, a Cuban designer who had studied with Patou and Poiret.

The show is sponsored by the PBJC Foundation and the PBJC South Foundation and Saks Fifth Avenue. The Fashion Show Committee is headed by Mrs. James J. Linus and Mrs. J. Erik Hvide.

Ticket price of $50 includes the luncheon, the show, and a chance to win one of Adolfo's creations.

The proceeds will benefit PBJC South, the second largest institution of higher learning in Boca Raton. Ten years old, PBJC South cooperates with Florida Atlantic University, and reached an enrollment of 2,000 credit students in fall, 1982.

December Student of the Month

Althea Meyer, 22, has been named the Student of the Month for December at PBJC South. A sophomore, she is majoring in theatre and has a 3.50 GPA.

The Wilton Manor, Fla. resident is currently president of Phi Theta Kappa at PBJC South, and is a member of the National Honor Society. Her appointments to college committes include the Leadership Award Committee (1981-82) and the Academic Probation Committee (82-83).

Public Policy Maker (cont'd from P.1)

at the six institutions of higher education in the county.

Members of the county commission legislative delegation, municipal governments and public agencies will also be invited to participate.

The project is directed by James Tanner and Dr. Pappas of the college, and has the endorsement of the Institute of Governments and the Center for Humanistic Values.

Fair Volunteers (cont'd from P. 1)

Exhibits must be manned during the hours the buildings are open to the public. Consequently, volunteers are needed to staff the College exhibit. If you are willing to donate some time, please contact Dr. Erling at 8086 or 8087. Each volunteer will be provided with an admission ticket.

The inserted letter will give total information on the Open House sponsored by the Alumni Assoc. Sunday, Nov. 6,1983. Your support will be appreciated. ...Dean Paul Glynn

Life Insurance Permium Decreases

Health Coverage Continues, New Cards Issued

For the past five years Gulf Life Insurance Co. has been our health and life insurance carrier and Administrative Services, Inc. has processed our claims. With the exception of dental coverage, we have had the same health insurance plan as the School Board of Palm Beach County.

Within the past several months the insurance plan for both the School Board and Palm Beach Junior College has been rebid and has been renewed with Gulf Life effective Jan. 1, 1983. Earlier the School Board, because of escalating health costs, found it necessary to reduce their dental coverage and to decrease major medical coverage from 80 percent coinsurance to 75 percent coinsurance. Palm Beach Junior College has made no changes in its benefit levels for health insurance coverage. There also will be no change in the health insurance premiums we pay, and the life insurance premiums will be reduced from $6.70 per month for $10,000 of term life with $10,000 accidental death and dismemberment to $5.60 per month.

Gulf Life Insurance Co. has indicated that new identification cards will have to be issued to all covered personnel. A new group policy number of 5500.1 will also be used in lieu of 5154.1 for medical claims processed during this calendar year. Those personnel who have spouses employed at the School Board and who continue to carry the School Board health insurance will also have their group number changed from 5154 to 5500.

New claim forms with the new numbers should be available in the Personnel Office within the next several weeks. If any further information is needed, please feel free to contact the Personnel Office.

...Joseph M. Schneider

Duncan Book Reviews

The 24th annual season of book reviews by Watson B. Duncan, III, opened January 7 with a lecture on "A Full Life" by Helen Gahagan Douglas.

"A Full Life" is a compelling, vibrant reminiscence of a life full of moral courage, determination, extraordinary gifts and high accomplishments.

The review series is held every Friday at 3 PM from January through March at the West Palm Beach Women's Club Building, 105 S. Flagler Drive. Other reviews for January include:

Jan. 14 "The Murder of Napoleon" by Ben Weider--A true detective story of how one determined man exposed one of history's greatest crimes. Did Napoleon die slowly of cancer, or was he gradually and deliberately murdered?

Jan. 21 "Space" by James Michener--The new blockbuster novel that is now number one on the bestseller list.

Jan. 28 "Worldly Goods" by Michael Korda--A novel about money, power and fame--how they are obtained and what they do to a person.

The donation is $3 per lecture, and proceeds go toward PBJC scholarships.

International Cuisine

In support of our International/Intercultural Education Program, the cafeteria will offer the following ethnic schedule:

January 19, 1983	German Cuisine	March 17, 1983	St. Patrick's Day
February 16, 1983	Mexican Cuisine	April 13, 1983	Middle East

Personals . . .

I wish to express my deepest appreciation for all the thoughtfulness and sympathy expressed by the college personnel during my bereavement. ...Henrietta Hutchins

Congratulations to new mothers, Barbara Frawley and Ardease Johnson, who celebrated the holidays in spectacular style. An 8 lb., 6 oz. daughter, Tara Lynn, was born to Barbara on 12/27, 11:16PM in Good Sam. Ardease also gave birth to a girl, 6 lbs.,7 oz., named Taneshia Ardease, on Jan 2, 12:35PM in Good Sam. All are doing well.

I returned to work for a few days at the beginning of this semester, but I may be out for the remainder of the Winter Term. Thanks to all of you for your good wishes and thoughtfulness. ...Rosalind Kochel

Friends of Jane Leaf, former instructor in the Physical Education, Health & Recreation Dept. from 1958-1968, were saddened to hear of her death in Melbourne, Fla. on Dec. 23, 1982, following an extended illness. Please contact me if you need any additional information. Thanks. ...Otis Harvey

The following position vacancies are open:

Learning Specialist (2) - Grant Positions/ North Campus: Positions require a bachelor's degree and experience with individualized instruction in reading, language and/or math is preferred.

Interested applicants should contact the Director of Personnel. ...J.M.Schneider

Hearing testing will be done Jan. 17 in the SAC Lounge Vocational Resource Center, 9:30-11:30AM. Call 8057 for additional info. ...Gail Tomei

PALM BEACH JUNIOR COLLEGE
PBJC MONDAY REPORT

Volume V, Number 13 January 17, 1983

17.7 Per Cent Increase

Agreement Reached On New Contract

As the Monday Report was put to bed last week there seemed little likelihood that we would be writing today that an agreement has been reached on a new contract for the United Faculty. If no hitch occurs, unit members can look forward to a 17.7 per cent pay increase following ratification.

Trustees Meet Wednesday

Palm Beach Junior College trustees face a four-page, 32-item agenda Wednesday, Jan.19, 7:30 p.m., in Conference Room C at PBJC Central, but most of the items appear to be routine in nature.

The American Cancer Society has asked for a board appearance, and Dr. Tate will make a presentation concerning Business Affairs.

Among the four items of new business is a new report prepared for the State Community College Coordinating Board showing there is no discrimination based on sex, race or physical handicap in salaries paid by the college.

Among 11 items of business affairs are an agreement with American Food Management to allow a catering service from the cafeteria to WPEC Television Station, and an agreement with the Internal Revenue Service providing services of an IRS expert for a Continuing Education Course at PBJC North.

Among 10 items of construction and development are educational specifications for remodeling the first floor of the Administration Building, change orders for ongoing projects, and approval of final plans for three millage projects.

Bids include a foreign study course in England and another in Mexico.

Happy Birthday To . . .

.7 Kittie Wilson, Christine Massey
1/18 Betty Woolfe, Margaret Hayes
1/19 Gerald Kane 1/21 Sam Bottosto, Addie
Greene 1/22 Elaine Ponder 1/23 Sharon Weber,

We do so write.

That we can do so is due to a most unusual reaction.

After the Gordian knot of Management Rights had been neatly sliced by the split verdict of the Court of Appeals, the reaction of Dr. Eissey, the college collective bargaining team and the board of trustees might well have ranged anywhere from anger to bitterness by way of frustration.

THERE WAS NO SUCH REACTION.

Instead, there was an intense search for the right way to continue the legal fight for Management Rights, and an equally intense search for a means to provide the faculty the 9.5 per cent raise which has been going into an escrow account, and the 7.5 per cent offered this year.

A way to do both was found.

About that odd .7 per cent--when you add 9.5 per cent first, and then add 7.5 per cent of the new salary, you arrive at a total of 17.7 per cent instead of 17.0 per cent. If we haven't made that clear, don't worry about it -- just relax and enjoy that extra .7 per cent!

If you are at all interested, the Monday Report would like to urge you to read, with as unbiased viewpoint as possible, both the decision and the dissent on Management Rights from the Appeals Court. A copy is in the library.

Such a reading should explain the board's decision to appeal. ...JK

Legals

DEPARTMENT OF EDUCATION
District Board of Trustees
Palm Beach Junior College

Rule 6Hx-18-4.171
Laboratory and Special
Class Fees
(Amendment)

WRITTEN STATEMENT OF THE FACTS AND CIRCUMSTANCES JUSTIFYING THE AMENDMENT OF THE RULE: Some laboratory fees are being eliminated, some have course title changes and there is an addition of one course with lab fee.

SUMMARY: This amendment will make it possible to keep the list of fees updated and to charge a fee in one course which is more in keeping with the actual cost of laboratory materials.

ECONOMIC IMPACT: This will increase the cost for those taking the course by the amount of the lab fee. These changes will become effective Fall Term, 1983.

SPECIFIC LEGAL AUTHORITY UNDER WHICH THE AMENDMENT IS AUTHORIZED AND THE LAW BEING IMPLEMENTED, INTERPRETED OR MADE SPECIFIC:

General Authority: 248.061 FS. Law Implemented 248.064 FS.

History: Adopted 5/14/75; Amended 12/22/77, 5/18/78, 7/20/78, 8/17/78, 11/16/78, 5/17/79, 7/26/79, 12/20/79, 7/17/80, 6/17/81, 4/21/82, 8/18/82

IF REQUESTED A HEARING WILL BE HELD AT:

Time: 7:30 p.m.
Place: Conference Room "C", Palm Beach Junior College
Date: January 19, 1982

Copies of this rule are available at the Library Learning Resources Center, the Office of the Vice President of Student Affairs, and the Office of the District Board of Trustees of Palm Beach Junior College.

DEPARTMENT OF EDUCATION
District Board of Trustees
Palm Beach Junior College

Rule 6Hx-18-4.29
Refunds
(Amendment)

WRITTEN STATEMENT OF THE FACTS AND CIRCUMSTANCES JUSTIFYING THE AMENDMENT OF THE RULE: This exception is to eliminate an increasing number of requests for refunds of $5.00 or less for Continuing Education short courses.

SUMMARY: Same as above.

ECONOMIC IMPACT: This will result in a savings to the college, based on amount of registration fees not refunded and savings on cost of processing refund requests.

SPECIAL LEGAL AUTHORITY UNDER WHICH THE AMENDMENT IS AUTHORIZED AND THE LAW BEING IMPLEMENTED, INTERPRETED OR MADE SPECIFIC:

General Authority 248.061 FS. Law Implemented 248.064 FS.

History: Formerly 4407.00; Readopted 2/27/75; Amended 2/2/76; Amended 7/26/79; Amended 6/17/81

IF REQUESTED A HEARING WILL BE HELD AT:

Time: 7:30 p.m.
Place: Conference Room "C", Palm Beach Junior College
Date: January 19, 1982

Copies of this rule are available at the Library Learning Resources Center, the Office of the Vice President of Student Affairs, and the Office of the District Board of Trustees of Palm Beach Junior College.

Faculty Fitness

l faculty and staff using the Fitness Center should be enrolled in PEM 1100-004 or one of the other class sections. Hours for faculty and staff are: M-F, 12:00-1:00 and M-TH, 4:00-500PM. Due to our heavy student load, we are requesting that you please restrict your use of the facility to these times. Those who require stress testing should call Mr. Faquir (8127) and make an appointment to be tested. All faculty and staff must complete the required forms in the fitness center prior to their participation. ...H. Reynolds

PALM BEACH JUNIOR COLLEGE
MONDAY REPORT

Volume V, Number 14

January 24, 1983

Second Highest Number In History

12,713 Students Enrolled This Term

Palm Beach Junior College scored a ten percent gain in overall student enrollment in the Winter Term over year-ago figures reaching the second highest enrollment in history -- 12,713.

That figure, topped only by last Fall's 13,115, was achieved despite an effort by college officials to trim enrollment slightly by cutting down on the number of sections offered.

Although more than 80 sections were cut from those originally offered in an effort to trim costs to accommodate state budget cuts, many students merely switched into other courses, according to Charles Graham, registrar.

"There is no telling how much enrollment was trimmed," Graham said, "but it is obvious that the effort was worthwhile in terms of saving expenses."

Graham said the overall number of students was not as clear an indication of growth as the number of credit students, which increased from 10,722 a year ago to 11,397 this year, a six percent gain.

"Perhaps the clearest indication of the amount of growth is in student semester hours," Graham said, "and these increased five percent."

He said better and quicker reporting methods for non-credit students makes the overall 10 percent figure slightly higher than a true estimate of growth should be.

Part-time students outnumber full-time students by about two to one, and there are 2,627 more day students than evening students.

By far the most rapid increase in the PBJC system was at PBJC North, where overall numbers increased from 1,405 a year ago to 2,205 this year, two-thirds of the total gain on all four campuses.

The growth at PBJC North paralleled the

Policy Makers Meet Academicians Here

A meeting of public policy makers and academicians at PBJC Tuesday night produced few surprises, but resulted in "some good communication between the two groups," according to Jim Tanner, Dean of Instruction at PBJC South.

Tanner, who is coordinator of a grant seeking to reduce negative attitudes and prejudices which may be hindering use of academic expertise in the formulation of public policy and of political expertise in the classroom, called the forum a "good beginning."

Phil Lewis, former president of the Florida senate, who moderated the forum, gave a number of specific examples of how academic knowledge has been used in the formulation of legislation, but also spoke of the lack of knowledge some educators have of the political processes.

Representatives of the legislature, the county commission, the state attorney's office, county administration, and several municipal administrations were present for the meeting.

On the academic side, in addition to PBJC, there were representatives from Florida Atlantic Univ., Palm Beach Atlantic, St. Vincent's, the College of Boca Raton and the County School Board.

From a list of 12 current policy making problems, the group chose a list of five for group discussion and some possible solutions.

The problems chosen included K-12 education and post secondary education.

Water, controlled growth, and health care

Cont'd on P4

Six Recent Donations Announced

Six recent donations to the college were announced by Dr. Eissey at the January meeting of the Board of Trustees, Wednesday, January 19.

A total of $10,200 was donated in the Donna White Golf Tournament, with the proceeds split between PBJC and Florida Atlantic University.

Over $10,000 was realized in the Adolfo Fashion Show in Boca Raton, sponsored by the PBJC South Foundation.

The recent Senior Group Theater production was extremely successful, realizing about $3,500 profit.

The American Express Waiter's Race at the Palm Beach Mall donated about $1,300 in scholarships for the Hospitality training programs.

Motorola donated 10 radio units for use in training Emergency Medical Technicians valued at about $35,000.

The Palm Beach County Chapter of Land Surveyors donated $1,500 for the land surveying program at the college.

"We are grateful to all those who have aided us," Dr. Eissey said. "We also wanted the board to know that many different groups at the college, working through the Foundation, are busy trying to cement relationships with the community, and to help financially when possible."

Dr. Tony Tate paid tribute to the supervisory personnel in the Business Affairs for the efficient operation of units which oversee things as small as the placing of chalk in the classrooms and as large as overseeing construction contracts in excess of $5 million.

He specifically mentioned Ruth Brofft at the Bookstore, here for 21 years; Claude Edwards, physical plant, 16 years; Dick Jones, purchasing, 11 years; Barry Rogers, comptroller, 18 years; and Joe Schneider, personnel, 10 years.

Dr. Tate showed a humorous slide show where the tape gave a description of the budgeting process while slides of old black and white movies, sometimes wildly inappropriate, were being shown.

Women In Business

PBJC will offer a repeat of the six-week course "Women in Business" beginning Tuesday, Jan. 25 from 7-9PM in SS-56.

"We're repeating it because we feel there is a need for it," said Patricia Buono, instructor. Buono will relate practical information drawn from her experiences in operating her own firm, Legal Courier Services, Inc.

Topics to be covered include accounting and finance, legal aspects, how to get started, types of businesses, and market research. In addition, she will discuss problems unique to women, such as discrimination. The fee is $12. Call Continuing Education, 8013, for more information.

Who's Who

Herman Pride, senior accounting instructor at PBJC, has been selected for listing in the 82-83 publication of Who's Who in the South and the Southwest. A Delray Beach resident, he appeared in the Marquis publication of Who's Who in Religion in 1976.

In addition to his teaching position, Pride is an associate at Florida Management Services, an accounting and management firm in Lake Worth.

Peace Education Lecture Series Begins

A former director of military operations in Europe and the Middle East will be the first speaker in PBJC's Flora B. Hallock Peace Education Lecture Series.

Rear Admiral Eugene J. Carroll, Jr. (USN Ret.) will speak about "The Illusion and Reality of National Security and Military Strength" on Wednesday, Feb. 2, 1:30PM in the PBJC Central Auditorium.

The lecture series is made possible by a $15,000 grant from Flora B. Hallock, and is being coordinated by the Social Science Department.

According to Dr. Richard Yinger, there will be at least one lecture in the series each year.

"The purpose of the lecture series is to provide a forum for discussion of alternatives to the continued military buildup as a means of maintaining national security," he said.

"We also want to examine the social and cultural elements that contribute to violence, and the preparation for war in society, particularly the dangers of nuclear holocaust," he added.

Rear Admiral Carroll is currently associate director of the private, non-governmental Center for Defense Information in Washington, D.C.

In the past, he served on General Alexander Haig's staff in Europe (1977-79) and was the first naval officer to serve as director of U.S. military operations in Europe and the Middle East.

A career navy man, he served in World War II, and the Korean and Vietnam wars. During his 37 years of active service, he received the Defense Superior Service Medal, the Legion of Merit with three gold stars, the Bronze Star Medal with combat "V" and gold star, and others.

Admission is free, and faculty, staff, students and the public are invited.

To All Faculty Members

Please come by the bookstore and order your rental caps and gowns for commencement. No orders can be accepted after March 4. Rental price is due at time of measurement. Latest cancellation date is April 4.

Public Policy Forum (cont'd from P 1)

completed the list of five.

A second, larger forum is planned for Feb.24.

One of the goals of the grant is to develop a list of persons in both groups willing to help in either policy making or in the classroom. Some progress toward this goal was reported by Tanner, and a stronger effort in this direction will be made at the second forum.

Enrollment (cont'd from P 1)

growth there last Fall. This is the first year PBJC North has had its own buildings, and the opening of the campus on PGA Blvd. has been immediately followed by rapid expansion in student numbers.

PBJC Central and PBJC South also showed more modest gains, while PBJC Glades had a very slight decrease from 579 to 573 students.

Volleyball Tryouts

Setters and spikers planning to attend PBJC next Fall may try out for the women's volleyball team on Saturday, Feb. 12 from 9AM-noon in the gym. For more information, call Coach Velma Wright at 844-4578 or the Athletic Office at 965-1616.

PALM BEACH JUNIOR COLLEGE
PBJC MONDAY REPORT:

Volume V, Number 15 January 31, 1983

Salary Increases February 4

Contract Is Ratified By United Faculty

Two weeks ago, the Monday Report gave an account of the agreement reached between the college and the United Faculty. That agreement has now become the basis of a signed contract, ratified by unit vote Friday.

This Monday Report story cannot give you the vote totals at the ratification. It is being written on Thursday, before the vote--but will be held, and never released, unless the information you are reading now turns out to be accurate. The editor of the Monday Report is old enough to remember some very embarrassing headlines in the Chicago Tribune saying that Tom Dewey had defeated Harry Truman.

In like manner, the personnel and payroll departments have been proceeding for several days as though ratification is assured. If they had not done so, pay checks of Feb. 4 could not reflect the 17.7 percent salary increase. It is now anticipated that they will reflect the change.

The increases are for unit members, that is, full time teachers, librarians, counselors and Assistant Directors of Library Services III, so don't anticipate any increase Friday unless you are a unit member. The rest of us need to remember that we already received 9.5 percent July 1, 1980, when it was first offered to the union, and 7.5 percent July 1, 1982.

Ratification of the contract by the board of trustees is scheduled for the Feb. 16 meeting in the Glades. Since the board proposed the agreement on which the contract is based, no impediment to ratification is foreseen.

Even though the provisions of the contract were well understood by both sides after agreement was reached, the task of putting the agreements into contract language acceptable to all required a bit more time, patience, and application than might have been anticipated.

There was a deadline, imposed by the

Luncheon Series Begins Thursday

On Thursday, Feb. 3, the Hospitality Management program will begin the paid luncheon series for the Winter Term. This semester reservations will be taken the week of the luncheon, starting on Monday. Instead of having everyone come at 11:30, you may reserve seating at 11:30, 11:45, 12:00 and 12:15. This will facilitate our service personnel and make it more of a realistic restaurant setting.

The cost of the luncheon will be based on what you order. The price will range from $3.00 to $6.00. Each Monday you will find the menu printed in the Monday Report. Reservations may be made by calling Celeste Beck, 8162.

The following is a list of dates for the luncheon series:
FEBRUARY 3, 10 (Private Banquet), 17, 24
MARCH 3, 10, 17, 24, 31
APRIL 7

...Celeste Beck

MENU FOR FEB. 3

Feb. 11 "Princess" by Robert Lacey
Feb. 18 "Second Heaven" by Judith Guest
Feb. 25 "Confessions of an Actor" by Laurence Olivier

Ode To The Last 31 Months

Printed below is an article extracted from the Federal Mediation Service News of December, 1972, furnished by Fred Becker, Industrial Relations Manager, Dayton Tire & Rubber Co. We thought you might find it interesting.

We wheedled and threatened and blustered,
We ranted and wrangled and roared,
We chided and fretted, we scoffed and we petted,
We snickered and wept and implored,
We groveled and swore and demanded,
We spurned and we fawned and we brayed,
We trampled on data, we tossed ultimata,
We grumbled and stamped and inveighed.

We whimpered and simpered and shouted,
Pretended, defended and doubted
We smiled and we jested,
Reviled and protested,
Debated, orated and scouted!

We slurred, we purred, we sighed, defied,
We wailed and railed and clamored.
We fumed and sneered and we whined,
We flattered, cajoled and maligned,
Consented, revoked and declined --
And, finally the contract was signed.

February Art Exhibit

A retrospective exhibition of the works of Janet Folsom will be the "major exhibition of the season" at PBJC, according to Jim Houser, exhibit coordinator.

"It will be major in the sense that this will be a show of works spanning a number of years in the artist's life, where the others have been just one period," he said.

The paintings will range from "pictorial to highly abstract," and will include shaped and formed canvasses.

"There will be a great many points of view expressed," Houser said. "It will show how her philosophies have changed."

Folsom, a Delray Beach resident, is a well-known artist who has painted both in New England and Florida. The works will be on display beginning Wednesday, Feb. 2 in the Humanities Gallery. The show closes Feb. 23.

Contract Ratified (cont'd from P 1)

impending end of a pay period, and it was met, with almost no time to spare.

In the meantime, the first two steps toward appeal of the Management Rights decision have been taken.

The first, a petition for a rehearing by the entire Appeals Court, is an unusual step, not taken very often, and not granted very often when taken.

The second asks for recognition of the case as one having wide interest and application -- a preparatory step to appealing to the Florida Supreme Court.

Inventor's Contest Here February 12

olar energy and mechanical devices, robots, lasers and computer gadgetry are just some of the innovations that will be on display in the PBJC SAC Lounge Saturday, Feb. 12 from 10AM to 2PM.

The exhibit is part of a local commemoration of National Inventor's Day, a holiday declared by Congress last June, and will be sponsored by PBJC, the Palm Beach Society of American Inventors, and the Science Museum and Planetarium of Palm Beach County.

Latest technological advances at industries such as Southern Bell, Florida Power & Light, Pratt & Whitney, and others will be on view. And if weather permits, the Goodyear blimp will moor on the PBJC grounds.

In addition, the exhibit is open to any individual tinkerer with a non-promotional type invention. Individuals may show their inventions free of charge, and also vie for $1,000 worth of cash prizes.

"We would like to see people come out and exhibit, try for a prize, and possibly meet someone who could help them market (their inventions)," said Robert L. White, president of the Society of American Inventors.

Judges for the contest will be Col.Achille Tisdelle, Victor Farris and Judge James Knott.

Prizes that will be awarded include: $500 first prize for best invention; $250 second place; $150 third place; $100 fourth place, and ribbons of merit.

"The prize money is being offered by the Palm Beach Society of American Inventors, honoring Col. Tisdelle's uncle, who with a $500 investment, helped create the Ford Motor Company," White said.

Anyone interested in displaying should contact Victor Volk (exhibits coordinator) at 732-934 or the Continuing Education Office at 8013 to reserve space.

Admission to the exhibit is free and open to the public.

PALM BEACH JUNIOR COLLEGE
MONDAY REPORT:

Volume V, Number 16 February 7, 1983

"Outstanding Faculty And Dedicated Employees"

PBJC Students Score Well On CLAST

Palm Beach Junior College scores in the first College Level Academic Skills Test (CLAST) were "fantastic" according to Dr. Eissey, who said he is "ecstatic" about the results. The first CLAST test was administered Oct. 23 statewide, and scores are now being made public.

The first test results showed PBJC Associate in Arts students scoring higher than the statewide AA students in all four divisions of the test. These are the students who will be transferring to state universities.

PBJC AA students scored 300 on Reading, 300 on Writing, 296 on Computation, and 4.6 on the essay.

The average of all community college AA students was 296 on Reading, 297 on Writing, 295 on Computation, and 4.5 on the essay.

"Since this test is designed primarily for the Associate in Arts Degree student who plans to attend a university, we believe this is the most significant comparison that can be made," Dr. Eissey says.

Highest possible score in each category was 363 on Reading, 352 on Writing, 365 on Computation, and 8 on the essay.

The test results also showed PBJC scoring slightly higher than Broward Community College and significantly higher than Miami Dade. The other two colleges in the Southern Division, Florida Keys and Florida International University, scored much higher but were represented by only 19 and 25 students respectively.

PBJC had 345 students taking the exam, Broward had 652 and Miami Dade 1,683.

University students, who will also be required to take the CLAST Test at the end of their sophomore year, scored higher than community college students--311 on Reading, 309 on Writing, 312 on Computation and 5.2 on the essay.

Dr. Eissey said these higher scores

Cont'd on P2

CLAST Workshops Begin March 1

Palm Beach Junior College will offer its students a chance to do even better on the College Level Academic Skills Test (CLAST) to be given state-wide on March 19, according to Dr. Eissey.

PBJC students planning to take the test are being offered a series of three two-hour workshops to brush up on basic math skills by the Center for Personalized Instruction.

"We were very pleased with the test results on the first CLAST test," Dr. Eissey says, "and we welcome this initiative from the Center for Personalized Instruction. We hope it will result in even higher scores for those taking the test in March."

The workshops, scheduled on Tuesdays, March 1, 8, and 15 from 2 to 4PM in Room AD25, will be free for PBJC students.

"The student's time and a desire to achieve are the only requirements," said Richard Travis, chairman of CPI and one of the coordinators of the workshops. "We'll deal with arithmetic and basic algebra concepts that will be found on the exam."

Kenan Foley, a CPI instructor, will also conduct the workshops.

Lectures Start Today

A lecture series sponsored by Delta Omicron chapter of Phi Theta Kappa will begin today and continue through this week in the Student Activities Center at PBJC Central, 9AM to noon.

The lectures are profession-oriented and are

Cont'd on P2

Born Yesterday: A Review From The Glades

Garson Kanin's 'Born Yesterday' (performed at the Dolly Hand Cultural Art Center on Jan. 13th) was a fine choice for the third production of the Senior Group Theatre of Palm Beach Junior College. It is a very funny play and the group, under the direction of Nancy Goodwin, brings it off well.

'Born Yesterday' takes place in 1946 and concerns the escapades of Harry Brock (Jerry Millman), an unscrupulous war profiteer, and his not-so-bright mistress Billie Dawn (Madeline Shaw). Ms. Shaw is simply a delight as the former chorus girl who, to her initial apathy, is given a crash educational program so that she might mingle in Washington social circles with Brock and his newly purchased senator. Ms. Shaw's performance is perfect; her Billie Dawn is both funny and touching. Mr. Millman as Harry Brock seemed to have some trouble with the delivery of his lines but he is physically right for the part and worked well with Ms. Shaw in the silent reaction scenes.

Several other performers who deserve particular praise are Roy Feinberg, whose performance as Ed Devery, a once great lawyer who is reduced to doing Brock's legal dirty work, is both solid and professional. Harry Miele, who is hilarious as the "cute" but corrupt Senator Norval Hedges, and Victor Muller, who does a fine turn in a small part as Eddie, Brock's slow-witted attendant and cousin.

The rest of the cast present highly competent performances and provide solid support for the major characters.

The biggest problem with the play was only that the audience was not large enough. I don't know if this was due to the fact that it was a Thursday night or whether people just wrote off this 50 and older group of actors. In any case, let me assure you that The Senior Group Theatre is indeed worthy of your patronage and I hope that they return to Belle Glade many times in the future. ...Byron Branyon, former PBJC Glades student, currently an actor in the Glades College and Community Theatre.

Students Score Well (cont'd from P 1)

were anticipated.

"When you consider that the universities begin at the entering freshman level with students who are selected -- students whose Scholastic Aptitude Test scores are many points higher than that of our unselected students -- it is amazing that the difference in CLAST scores is not greater than it is," he said.

"Of course, we have known for several years that our unselected students, after two years at community colleges, have grade point averages at the universities that are in no way inferior to those of the native students," Dr. Eissey said.

"We look at the narrowing of the gap in ability shown by the CLAST results as another proof of the superiority of teaching at community colleges," he said.

Dr. Eissey said PBJC's showing in the CLAST test was due to an outstanding faculty and dedicated employees throughout the college.

Eyes (Lenses?) Of Photographic World On PBJC

The eyes (or maybe the lenses) of the photographic world will be focused on PBJC during February, when the college will host several of the most famous photographers in the world.

"This will be the first time that Arnold Newman, Cole Weston, and George Tice have given workshops in the same area at the same time," said Reuben Häle, chairman of the Art Department. "We're very fortunate to be able to have these three gentlemen together as our guests."

In addition, the college will sponsor the first extensive symposium on the Collecting of Fine Photography ever held in the United States featuring several experts involved in the sale, collecting and maintenance of photography.

A third event, the Beaumont Hall Lecture Series, will round out the activities for serious photographer and collector alike.

The workshops will be held Feb. 21 through March 2 at various times in the Art Dept. Photo Lab, Humanities Building.

Probably the most familiar of the photo virtuosos is Arnold Newman. He is the creator of memorable images of Picasso, Eisenhower, Ben-Gurion, Stravinsky, Marilyn Monroe and others. His three-day workshop will deal with portraiture as an important segment of photography.

Cole Weston, son of photographer Edward Weston, is known for his reproductions of his father's works. Also a photographer in his own right, he will discuss film exposure, development, and work with the nude model in his four-day workshop.

George Tice is a photographer and educator from Patterson, N.J. who has published several portfolios and books. His workshop will cover the different aspects of the negative-print process, including chemistry, toning and mounting.

All three of the workshops are structured for the advanced student or the professional. Donations for the workshops range from $200-250 each.

Those who find the prices prohibitive or who appreciate photography as an art form may interact with Tice, Newman, Weston and others at the symposium to be offered at the college Feb. 25-27.

"As far as we know, this will be the most extensive symposium on the collecting of photography as art ever held in the country," Hale said. "Certainly, nothing like this has ever been done before in Florida."

The lecturers include three gallery curators: Robert Persky, owner of Images Gallery and editor of the "Photographic Collector" newsletter; Peter Falk of Falk-Leeds International and author of "The Photographic Art Market," and Beth Gates-Warren, deputy director of photography at Sotheby's.

Richard Zakia, chairman of the master of fine arts program in photography at Rochestor Institute of Technology, will also speak on care of the photo collection, storage, exhibition, etc.

"If New England weather and their health permits, we also hope to have two special ladies--Bernice Abbott and Lotte Jacobi--as our guests," Hale said. "Both of these women are in their 80's and have become quite historical. If they come, it would really be something."

Abbott has exhibited in the Museum of Modern Art, and most recently, the Witkin Gallery in New York, the Smithsonian Institute and the Museum of American Art in Washington, D.C., among others. She is also the author of many books.

Jacobi is a German-born fourth generation photographer whose grandfather worked with L.J.M. Daguerre. Her work ranges from the objective to the extreme non-objective.

The aforementioned photographers will take part in a round table discussion on the last day of the symposium. The meeting will be held in the Allied Health Auditorium. Donation for the entire symposium is $100. (Cont'd on P 4)

PALM BEACH JUNIOR COLLEGE
MONDAY REPORT:

Volume V, Number 17

February 14, 1983

A Gift From Governor's Pointe

$250,000 Building Donated To PBJC North

The sales office and model condominium unit for Governor's Pointe -- a 3,000 square foot building valued at $250,000 -- has been donated to Palm Beach Junior College, according to Dr. Eissey.

The college will move the building from its present location at 356 Golfview Road, North Palm Beach, to the PGA Boulevard site of PBJC North, Dr. Eissey said.

The building was designed so that it can be moved, with easy access to the base.

"We are grateful to the Governor's Pointe Co., and to Carl L. Creedon, president of the company, for this generous gift to the future of our college and community," Dr. Eissey said.

Creedon, a transplanted Vermonter who is completing his first project in Florida says that Governor's Pointe will definitely not be his last project here.

Governor's Pointe has 117 units in twin towers overlooking the intercoastal waterway and the North Palm Beach Country Club.

"We were half sold at the beginning of the season, and will be sold out before the end of March, making the sales building available at that time," Creedon said.

Creedon, whose interests in Vermont include a breeding farm for Morgan horses, is an enthusiastic pilot, and is sold on the quality of life in the Palm Beaches.

"We will be starting a new project in this area in the near future," he says. "This time I intend to talk to the architects of the PBJC North campus, so that our model unit will fit into the campus when we do not need it any longer."

"This is not just a one-time gift," Creedon said, "it is an on-going commitment to higher education in this community."

An on-campus site near the southwest corner of the Administration Building at PBJC North has been selected for the

Cont'd on P 2

Paul J. Glynn Student Center

The new student affairs building at PBJC Central will be called the Paul J. Glynn Student Center. In a surprise announcement Thursday, Dr. Eissey told those attending the annual student affairs dinner that the building, which may be the last new building at PBJC Central, and will certainly be one of the finest, will be named for Paul, who was teacher, coach, dean, and vice president during a career from 1949 to 1978 at the college.

Trustees Agenda

Items of interest to all four campuses of Palm Beach Junior College are on the agenda for the annual Glades meeting of the trustees of PBJC, Wednesday, Feb. 16, 7:30PM, at PBJC Glades.

Item 5A. Announcement of contribution of Governor's Pointe building to PBJC North. Item 11D authorizes staff to take actions concerned with relocation of this building.

Item 8B. Ratification of Collective Bargaining Agreement with the United Faculty. Item 10E authorizes a budget resolution providing the salary increase for unit personnel.

Item 8C. Approve consolidation of Related Health Dept. and Consumer Education and Home Economics Department.

Cont'd on P4

Brain Bowl

Students from PBJC will see how they compare with other South Florida college students in mental quickness and broad knowledge at the Second Annual Community College Brain Bowl, Tuesday, Feb. 22, at Broward Community College.

PBJC will face Miami-Dade North at 1:30 p.m. at Broward's Central Campus, Building 5. Other entries include Broward and a second Miami-Dade team.

PBJC's team includes Gino Catenacci, Delray Beach; Denise Coleman, Lake Worth; John McKeon, Palm Beach Gardens; Thad Roake, Jupiter; and Sheri Van Camp, West Palm Beach.

"Our team selection was based on how the students did in practice sessions," said Allen Hamlin, the team's coach.

"Not only do they have to be good students, but they also have to be able to think quickly. This is a measure of one form of intelligence," he said.

During the competition, a "quizmaster" poses a question to two teams of four members each. Any member may answer it individually. If he or she is correct, that team can try for a bonus point, and members may confer with each other before answering it.

The winner of the Southern Region Tournament will compete in the State Tournament in Orlando in March.

State winners will receive scholarships to such colleges as the University of West Florida, Florida A&M University, University of South Florida, Florida Atlantic University and Florida State University.

building, Dr. Eissey said. Site preparation work is anticipated before the building is moved.

"Half of the new building will be used by students for a multi-purpose student activity area," Dr. Eissey said. "The other half will provide conference areas needed by the college and the community."

When adequate student activity areas are provided elsewhere on campus, the entire building will be converted into flexible meeting areas, he said.

New Career/Life Planning Center Opened

Palm Beach Junior College North will soon have a service to help adults out of school choose the most appropriate or desirable career for them.

The college's new Career/Life Planning Center opened Jan. 31 with hours by appointment only. The hours are convenient for people who have commitments during the day: 4-9 p.m. Monday through Thursday, and 9 a.m. to 1 p.m. on Friday.

"The Center is open to any person over the age of 18 who is not a traditional college student, or who is 16 and legally out of school, said Dr. Betty Woolfe, director of Continuing Education at the North Campus.

The services are free except for a $2-5 fee if any tests are scored by computer.

"There is a high need for this service with unemployment the way it is," said Lee Tomson, career counselor.

An "evaluative and referral service," the center is mainly concerned with helping people choose a career or change to a new one. One way the counseling does this is through an information interview.

The center sets an appointment for the client to talk to someone who is working in the field of interest. The client can then ask the person about salary range, working conditions, and any requirements of the job.

Computers also provide information about suitable careers. People can use CHOICES and DISCOVER, computer programs, to obtain a list of work fields that match their qualifications, preferences and interests. Or, clients may start with testing.

Interests, aptitudes, intelligence and personality traits are just some of the factors that can be determined through testing.

n addition to helping the unemployed, the counselor also advises the underemployed. These are people who may have training, skill or experience above the job they are in.

According to Tomson, the center will not actually find a job for a client, but it will refer him or her to another agency that will.

"We'll be working closely with the Florida State Employment Service, CETA, Palm Beach County Personnel Association, private employment agencies and others," Tomson said.

For additional information about this program, please call 622-2440.

Volunteers Honored

Volunteers at PBJC North will be honored at a reception Wednesday, Feb. 16 at 2 p.m. in the Conference Room.

The presentation of awards will be part of Florida School Volunteers Week (Feb. 13-19), declared by Gov. Bob Graham.

Dr. Ottis Smith, provost of the North Campus, said each volunteer will receive a certificate from the people with whom he or she works.

PBJC North has 10-12 volunteers, and most of them are retired. They have helped staff the library, student affairs, business education, the information counter and the IMTS lab.

Glades Events

Two events remain on the February calendar at the PBJC Glades Dolly Hand Cultural Arts enter. They include Al Burt, writer for Miami Herald's Tropic Magazine, who will lecture Thursday, Feb. 24, 8 p.m. and "Freedom Train," a musical production staged by the Performing Arts Repertory from New York, Friday, Feb. 25 at 9:30 and 11 a.m. For reservations, call the Glades Campus at 439-8160 or 996-3055.

THIS Week . . .

Feb. 16	Trustees meeting, Glades, 7:30PM
Feb. 18	Book review Watson B. Duncan III; "Second Heaven" by J.Guest; 3PM, WPB Woman's Club; $3

Personals . . .

We are happy to report that John Townsend, who recently underwent kidney surgery, was scheduled to be released from St. Mary's Feb. 10th. John appears to be doing well, and is grateful to all his friends at PBJC for their kind wishes, flowers, and cards. After a few weeks of convalescence at his home, John hopes to be back at work.

Announcements . . .

The following classified positions are open:
Library Clerk I (Library) Sal. Gr.A12, $663.18 per month
Clerk Typist I (Student Affairs) Sal. Gr. A14, $697.92 per month
Secretary I (Athletics) Sal. Gr. A21, $829.42 per month
Interested applicants should contact the Personnel Coordinator. ...S. Carton

President Of The Quills

Donald Butterworth, teacher of voice, music appreciation and history, has been named president of the Palm Beach Quills.

Besides "keeping the whole group together," his duties include preparing the yearbook, appointing program chairmen for each meeting, and arranging hostesses for the gatherings.

A cultural group with a limited membership, the Quills are professional writers, artists or musicians. To be a Quill, a person has to be recommended by someone who is already a Quill.

Butterworth retired from full-time teaching in August, 1978, but still serves on the adjunct faculty.

Trustees Agenda (cont'd from P 1)

Item 10F. Approve lease agreement with Bruner Broadcasting Co. for an electronic information system.

Item 11F. Report of a screening committee for selection of architect for PBJC South campus master plan.

Item 13A. Awarding of bid for the Student Services Building at PBJC Central.

PALM BEACH JUNIOR COLLEGE
PBJC MONDAY REPORT

Volume V, Number 18 February 21, 1983

Busy Night In The Glades

Trustees Ratify, Award, Select And Consolidate

Contract ratification, a bid award for the Paul J. Glynn Student Center, selection of campus planners for PBJC South, and consolidation of two departments were among the important actions taken by the trustees in their February meeting, Wednesday night at PBJC Glades.

The college contract with the United Faculty, already ratified by the union without a dissenting vote, was ratified unanimously by the board. All aspects of the contract are now in force.

The construction contract for the Paul J. Glynn Student Center was awarded to Booth Construction, Inc., West Palm Beach, for a base bid of $587,528 plus alternate #2 for an addition of $19,147--a total of $606,675.

Dr. Eissey said the college was pleased with the bidding on this project. Twelve bids were received, ranging from Booth's $587,528 to the highest base bid of $698,000. Budget for the building was $750,000.

A completion time of 270 calendar days was specified, and the building, to be constructed west of and adjoining the Student Activities Center at PBJC Central, will be started sometime in early March.

Marion, Paluga and Associates were chosen to develop the South Campus Master Plan on a split vote after vigorous and well-informed advocacy of the second choice of the screening committee, Reynolds, Smith and Hills by trustee Willard Findling.

The screening commitee presented its report in a booklet giving details of what Dr. Tony Tate called "the most objective method of selection we have ever had." The new method of selection was developed by the board and the administration after inquiries by Findling into the selection process.

The board agreed with an administrative

Job Placement Center Now In Operation

The recent addition of a Job Placement Center at PBJC may help some unemployed Palm Beach Countians find work.

In operation since December, the Placement Center's services are free to anyone in the community who has or has had an affiliation ith the college. It is funded by a federal ant.

"We have full-or part-time job opportunities available for students or alumni," said Norma Walter, job placement specialist.

Besides acting as a liaison between employer and employee, the Placement Center also provides workshops dealing with basic employability skills: resumes, interviewing, personal appearance and business manners.

The Center also does follow-up work on each student or alumnus after he or she is hired.

"When I contact prospective employers, I let them know that the students have gone through our workshops," the placement specialist said.

Although still expanding the list of contacts, Walter said she already has working relationships with large employers such as IBM and Pratt & Whitney, plus local businesses such as retail stores, hospitals and hotels.

"We work with the Florida State Employment Service, HRS, and the Co-op program here on mpus," she said. "We especially help handiapped persons and minorities."

The Placement Center, located in the Student Activity Center, is open from 8AM to 4PM. Call 433-8282 or 439-8174 for information.

Firearms On Campus

(Commissioner of State Department of Education, Feb. 4, 1972)

No recruit officer student will be permitted to remain armed or in manual possession of a firearm within the classroom area of any basic recruit training program conducted under the supervision of the Department of Education except as follows:

1) Where a facility contains a proper laboratory and is designed to accommodate firearms identification and ballistics experimentation, a firearm may be securely maintained or utilized by a student under supervision and control of a qualified instructor.

2) When under the close supervision of a qualified instructor, unloaded guns may be used by students when instruction is being given in the handling and use of firearms.

3) When a recruit officer student successfully completes the required firearms training portion of the basic recruit training program as is required by the Florida Police Standards Board.

All trained law enforcement officers will be expected to use utmost care and caution when wearing their firearms in classrooms. ...Paul W. Graham

Foreign Languages Offered

Basic conversational courses in Arabic, Finnish and Spanish will be offered by PBJC beginning March 1. Each class will be introductory, and will not presume the applicant has had previous experience with the language. The instructors were educated in countries where the language being taught was the native tongue.

The schedule is as follows:

Arabic -- Tuesdays and Thursdays, March 1 through April 21, 7:30PM to 8:30PM in Room AH 208, taught by Lillian Shoucair; $16.

Finnish-- Wednesdays and Thursdays, March 9 through April 28, 7:30PM to 8:30PM in Room AH 310, taught by Hilkka S. Rowe; $16.

Spanish-- Tuesdays and Thursdays, March 1 through April 21, 7:30PM to 8:30PM in Room AH 215, taught by Norma Walter; $16.

In addition to the language, students will learn about the customs, history, culture and peoples of the countries. For registration information, call 8006 or 8011.

Pacesetters Concert

Pop, jazz and Broadway numbers by artists such as Lennon and McCartney, Duke Ellington and Kirby Shaw will be performed by the PBJC Pacesetters Wednesday, Feb. 23 at 8PM in the Central Auditorium.

"The program will be one and a half to two hours long, and will feature group work, solos, and ensemblès," said Pat Johnson, director.

The group has 25 members, including instrumentalists, who are picked by audition. Many of the students are recruited from high school by the college. Admission is free.

Trustees Meeting (Cont'd from P 1)

recommendation to consolidate the departments of Related Health and Consumer Education and Home Economics. The new department will be called the Department of Health and Home Economics. It will be headed by Celeste Beck.

Dr. Eissey pointed out that the consolidation will eliminate one administrative position and the salary that goes with it.

Transfers On The Way - - Guidelines

Although final decisions as to specifics have not yet been made, some transfers, probably not more than four, of full time faculty from PBJC Central to PBJC North and South are being planned for the Fall Term.

There are many reasons for the transfers, both academic and administrative, but two predominate: 1) A more equitable balance of full time to adjunct faculty on the campuses. 2) Economics.

For several months the administration has been developing a formula, driven principally by semester hours taught, but also taking other factors into account, which could balance the number of full-time faculty in departments and campuses by 1984.

Although the number is not yet firm, (you are being informed of this early in the process), it appears at this time that there will be four transfers. It is hoped that volunteers will be found for all transfers.

The economic factors underlying this decision should be well known to all: 4.5 per cent reduction in state funding this year, 8 per cent more for next year a distinct possibility-- factors which are causing large reductions in force in many community colleges next year. We do not know the full impact this will have at PBJC, but it is not a time to increase our overall ratio of full-time to adjunct faculty. If we are to balance, we must transfer.

This general announcement and the guidelines which follow are for informational purposes and are not intended to change the contractual status in any way, or to set a precedent.

Guidelines For Transfer

If a position in the bargaining unit becomes vacant on any campus or center, it will be announced in the Monday Report, unless the position is available due to an unexpected medical problem with a current employee, a late resignation or retirement or a similar emergency situation which requires the filling of a position in such a short time period that an announcement is not feasible.

Any faculty member who wishes to request a transfer would reply in writing to the Personnel Director no later than two weeks following the notice, with a carbon copy to the Department Chairperson or Dean for whom he works.

Procedure to follow after this is:

1. The Director of Personnel will schedule an interview for each faculty member requesting a transfer with the appropriate administrator from the campus having the position vacancy.

2. If the faculty member requesting the transfer is acceptable to the administrator from the campus having the position vacancy and if there is no objection from the Department Chairperson or Dean where the member is currently assigned (the Department Chairperson or Dean has the right to one refusal), the Vice President of Academic Affairs will request that the transfer be processed by the Director of Personnel.

3. If the faculty member requesting the transfer is unacceptable to the administrator from the campus having the position vacancy, the request is denied. (The administrator from the campus having the position vacancy has the right to one refusal.)

4. If more than one faculty member requests a transfer and all are unacceptable to the administrator from the campus having the position vacancy, the administrator has the right to only one refusal, so he/she must honor one of the requests for transfer. The Department Chairperson or Dean, where the faculty member is currently assigned, has the right to deny the transfer only once. The Vice President of Academic Affairs will request that the transfer be processed by the Director of Personnel.

5. If no faculty member requests a transfer to a campus where there is a position vacancy, the administration will assign the faculty member who, in the administration's judgment, satisfies the needs of the educational program.

Personals . . .

Those of us who knew Dean Paul Allison were saddened by the news of his death last week. Dean Allison, who retired some years ago, had been in failing health for several mont . Paul was an efficient administrator whose constant courtesy and cheerful outlook made him a welcome guest wherever he went. He will be missed.

A most heartfelt thanks to all of you for your thoughts, cards and flowers received during my recent hospital stay. I am now on the road to recovery, and with a little luck, should be back at work around the first of March. ...John Townsend

Dr. Tony Tate, a member of the Lake Worth Rotary Club for the past 10 years, has been named a Paul Harris Sustaining Fellow by the Lake Worth Rotary Foundation of Rotary International. Dr. Harold C. Manor, former PBJC president, sponsored Tony to receive this honor. Paul Harris Fellows are named for their contribution for fostering a better understanding and friendly relations between all the people of the world.

Joe York has been ill at home for the past couple of weeks. He is recuperating and hopes to be back with us soon.

Announcements . . .

Humanities Vending Machines - Due to the high frequency of machine tampering and break-ins, the candy machine will be removed from this area. The vending company has advised the college that they can no longer absorb such a loss! ...Dick Jones

PBJC PALM BEACH JUNIOR COLLEGE
MONDAY REPORT

Volume V, Number 19

February 28, 1983

March Is The Month
Of Jazz, Clydesdales, Art, Women, Mantovani And Puppets

The winds of March, scheduled to begin tomorrow morning, will blow up, no doubt, a mixture of widely varying events at Palm Beach Junior College. The Monday Report does not presume to know everything 13,000 people on four campuses will be doing in March, but the month certainly gets off to a jazzy beginning.

JAZZ. Tomorrow is our annual Jazz Festival, and eight bands from around the county will be playing beginning at 7 p.m. in the PBJC Central Auditorium. Sy Pryweller's new "Five O'Clock Jazz Ensemble" and the FAU Jazz Ensemble from the college level will be there, plus bands from Glades Central, Lake Worth, Atlantic, Palm Beach Gardens, and John I. Leonard. The PBJC "12 O'Clock Jazz Ensemble" will close the program sometime before 12 O'Clock.

MORE JAZZ. Sy will be back on March 7, 8 p.m., in the same location with a big, big, big band--the Combined Band, composed of the PBJC Band and the Symphonic Band of the Palm Beaches, 80 pieces in all. He will also bring the Five O'Clocks back. Both concerts are free. Come a little early, or you may not get in.

CLYDESDALES. The Anheuser-Busch Company will bring the magnificent Clydesdales to the Central campus on March 2. The horses will appear for approximately four hours from 10 a.m. to 2 p.m. in the southwest corner of the campus (in front of the Humanities Bldg.). In early times, Clydesdale draft horses were used to deliver a brewer's sudsy load to market, and the first team of the Clydesdales was acquired to celebrate the repeal of Prohibition.

ART. Our own versatile artist and teacher, Gene Arant, will show some new works in neon sculpture and other media in the Humanities Gallery beginning March 3. Do not fail to go over some time during the month for Gene's one man show.

Cont'd on P 3

Classified Advisory Committee Elects Representatives

The Elections Subcommittee of the Classifed Advisory Committee has conducted the election of the representatives of the Classified Advisory Committee for the 1983 calendar year. Congratulations are in order for these personnel.

Area I Nancy Buhl, representative
Donald Sargent, alternate
Area II Mary Tingler, representative
Mary Taylor, alternate
Area III Antoni Ricciardi, representative
Joyce Cates, alternate
Area IV Paul Davis, representative
Area V Donald Pearsall, representative
Area IV Mary Cannon, representative
June Verk, alternate
Glades VII Dianne Tillery, representative
North VIII William Vasile, representative
Vicki Daignault, alternate
South IX Barbara Belleman, representative

Representatives are invited and encouraged to attend all meetings. Alternates may attend any committee meetings and are especially encouraged to attend when the regular committee representatives will be absent.

The Elections Subcommittee members were Nancy Buhl, Don Pearsall, Antoni Ricciardi and Teresa Wolff.

The Classified Advisory Committee meets at least quarterly with the Director of Personnel to maintain open lines of communication between the administration and classified personnel. The first meeting is scheduled in Conference Room B at 2PM on Friday, March 4.

DEPARTMENT OF EDUCATION
District Board of Trustees
Palm Beach Junior College

Rule 6Hx-18-4.171
Laboratory and Special Class Fees
(Amendment)

WRITTEN STATEMENT OF THE FACTS AND CIRCUMSTANCES JUSTIFYING THE AMENDMENT OF THE RULE: The laboratory fees are being raised because of an addition of a new course in Computer Assisted Drafting, the price of materials in the laboratory of the Secretarial Office Procedures and the cost of equipment in Racquetball.

SUMMARY: This amendment will make it possible to charge a fee which is more in keeping with the actual cost of laboratory materials.

ECONOMIC IMPACT: This will increase the cost for those taking the courses by the amount of the lab fee. The fee for the new course will become effective Spring Term 1982-83 and the fees for the other two courses will become effective Fall Term 1983-84.

SPECIFIC LEGAL AUTHORITY UNDER WHICH THE AMENDMENT IS AUTHORIZED AND THE LAW BEING IMPLEMENTED, INTERPRETED OR MADE SPECIFIC:

General Authority: 248.061 FS. Law Implemented 248.064 FS.

History: Adopted 5/14/75; Amended 12/22/77, 5/18/78, 7/20/78, 8/17/78, 11/16/78, 5/17/79, 7/26/79, 12/20/79, 7/17/80, 6/17/81, 4/21/82, 8/18/82, 1/19/83

IF REQUESTED A HEARING WILL BE HELD AT:

Time: 7:30 p.m.
Place: Conference Room "C," Palm Beach Junior College
Date: March 16, 1983

Copies of this rule are available at the Library Learning Resources Center, the Office of the Vice President of Student Affairs, and the Office of the District Board of Trustees of Palm Beach Junior College.

Overload Payments Scheduled On March 4

One of the provisions of the recently ratified Collective Bargaining Agreement provides for a new procedure for paying overloads. Overload points taught during the Fall Term for both 180 and 196 day faculty members are being processed for payment on March 4. Faculty on 196 day contracts will be paid based upon their actual points accumulated during the Fall and Winter Term plus projected points during either the Spring or Summer Term.

Overload points accumulated during the Winter Term will be paid after the completion of this term. The actual date of payment is expected to be May 20.

In those few instances where overload points are worked during the Spring or Summer Term such points are expected to be paid on July 5 for Spring Term contracts and on either August 5 or 19 for Summer Term contracts. ...J.M.Schneider

Construction Begins In Two Weeks

Construction on the Paul J. Glynn Student Services Building is expected to begin in about two weeks. The contractor will have to do surface soil compaction and sub-surface soil compaction by vibratory insertions. This means there is going to be a lot of noise and buildings vibrating throughout the campus. Please bear with us, it should only last a couple of weeks. ...T. Tate

Distinguished Student Of The Month

Lisa A. Tebeau has been selected as Distinguished Student of the Month for January at BJC's North campus.

Tebeau is a Business Administration major and has maintained a grade point average of 3.60. She has aspirations of working is some field of economics, and is thinking of attending Barry College following her studies at PBJC.

She resides with her parents in North Palm Beach and enjoys reading, dancing and jogging.

Of Jazz (cont'd from P 1)

WOMEN. Somebody over in Continuing Education keeps coming up with really newsworthy titles for short courses. Women As Victims, beginning Mar. 7, to be taught by Mary Cadwell, head of the Domestic Assault Project in WPB, sounds, unfortunately, like many recent headlines.

MEN AND WOMEN. Another great title is Suddenly Alone, beginning March 7, which will deal with the hurt, depression, or anger of a sudden uninvited life change through divorce, death, or desertion.

MANTOVANI. Out in the Glades, the music will be a little sweeter, with the late Mantovani's 39-member orchestra on March 12 at 8 p.m., in the Dolly Hand Cultural Arts Center. It will cost you $10 to listen to a legend.

PUPPETS. . Same location, on March 29, at 1 p.m., a show for the children called Kids On The Block presented by the Association for Retarded Citizens.

Happy Birthday To . . .

2/28 Wiley Douglass, Arlene Tiddens, Betty White, Dean Terrell 3/01 Betty Childers, im Aldridge 3/02 Marion Southard, Patricia Hilliard 3/03 Antoni Ricciardi, Barbara abonis-Chafee, Teri Lenahan 3/06 Barbara Bartels, Jim Randolph

Dennis And George: TV Stars!

Multi-Cultural Center Aids Documentary

Dennis Alber and George Matsoukas are TV stars. The two PBJC personnel, along with members of the Center for MultiCultural Affairs, participated in a locally-produced documentary series on different ethnic groups.

"Less Visible Minorities" is currently being aired on Sundays, from 9-9:30AM onWPTV-Channel 5. The first segment was shown Feb. 27, and the last is slated for May 1.

Dennis Alber, a PBJC math instructor, will be seen in the program dealing with Danish-Americans on March 20. George Matsoukas, assistant director of development, will appear on the Greek-American segment on April 10.

Each tape will focus on one ethnic group, and include interviews with members of group on such topics as religion, languages, the minority's strive for upward mobility, educational emphasis, condition of aging, health, housing, and political processes.

Other minority groups to be featured are Finnish, Ukrainian, Spanish, American Indian, Haitian, Hungarian, and Japanese. The first program dealt with Lebanese-Americans.

"The purpose of these films is to show a little bit about the countries where this generation of ethnic groups came from," said Winston Kirby, producer of the series. "Each segment deals basically with the assimilation problems the group might have had in becoming a part of this pluralistic society."

"The cooperation of the PBJC Center for MultiCultural Affairs was indispensable in this case, and greatly appreciated," he said.

Kirby is the director of broadcasting and a former adjunct professor at St. John's University in New York. Though

Glades Provost Retires July 1

Dr. Cecil Conley, Provost of Palm Beach Junior College Glades, is announcing his retirement as of July 1, 1983.

Dr. Conley is the chief administrative officer of the Glades Campus, and has held that post under three different titles since it was created in 1972.

His first service in the Glades was with the title of "Executive Dean" and he presided over the campus when it was located at the Glades Armory and in Glades General Hospital, and through the move to its present site on SR 715.

His title was Vice President from 1975 to 1978, when he became Provost.

Prior to his service in the Glades, Dr. Conley was a chemistry teacher at PBJC Central for two years.

Before coming to PBJC in 1970, Dr. Conley was professor of Chemistry and Chairman of the Division of Science and Mathematics at Livingston University, Alabama, and held the same posts at Pembroke State University,North Carolina.

He was involved in research at Clemson University from 1956 to 1963.

Commenting on the retirement, Dr. Eissey said Dr. Conley will be remembered for his long and distinguished career in education.

"At PBJC Glades, Dr. Conley was one of the pioneers in the establishment of the Glades Center," Dr. Eissey said. "He has many friends in the Glades and will be missed there and throughout the PBJC District."

John Anderson To Speak Here March 23

John Anderson, Independent candidate for President of the United States, will make a "declaration to Independents" at PBJC Wednesday, March 23.

He will speak to Independents and other voters from 11 a.m. to noon in the Student Activity Center and from 7:00 to 8:00 p.m. in the Allied Health Auditorium.

"Anderson will be our first national campaigner this year," said Ed Pugh, faculty advisor to the Political Union, sponsors of the candidate's visit.

"Other presidential candidates have been invited, including all Democrats, announced and unannounced, and President Reagan, who successfully launched his campaign here in February, 1980," he said.

Candidate Anderson, who secured six percent of the national vote in the 1980 presidential race, is the most successful Independent national candidate in over a decade.

In addition, the Political Union will hold a voter registrar class that same day.

Jerry Edmonds of the County Supervisor of Elections Office will conduct the school, which will show students how they may register others to vote.

A full week of voter registration will then be held March 28 through April 1 in the Central campus cafeteria.

Feminist Lecture

A lecture on the status of American women will be held at PBJC Tuesday, March 8 at 9:15AM in the Allied Health Auditorium on the Central campus.

"Women in America: Invisible and Unequal" is slated for the same day as International Women's Day, and will be an observance of National Women's History week (March 6-12).

The speakers for the program will be Dr. Heather Frazer, associate professor of history and Dr. Dorothy Stetson, associate professor of political science, both of Florida Atlantic University.

The lecture will be coordinated by members of the Feminine Psychology Class, taught by Dr. Barbara Matthews, at PBJC.

Duncan's Book Reviews

March 11	"Byron" by Elizabeth Longford
March 18	"Lusitania" by David Butler
March 25	"The Fall of Freddie the Leaf" by Leo Buscaglia

Multi-Cultural Center (Cont'd from P 1)

semi-retireed, he works as a communications consultant and independent producer of public affairs programming.

He said the multicultural series was videotaped locally in the Channel 5 studio, and will also air on the ABC owned and operated station in New York.

The schedule for the program follows:

Feb. 27 Lebanese Club -Mar. 6 Finnish Club - Mar. 13 Ukrainian Club - Mar. 20 Danish Club
Mar. 27 Spanish Club - Apr. 3 - American Indian Club - Apr. 10 - Greek Club - Apr. 17 -
Haitian Club - Apr. 24 - Hungarian Club - May 1 - Japanese Club

Transfers Not Needed

A Complete List Of Current Faculty Vacancies

The following is a complete listing of current faculty vacancies. Please note that there currently is no intention to transfer a number of personnel from the Central to either the North or South although such requests will be considered.

North Campus

Instructors (2) - Data Processing: Positions require a minimum of a bachelor's degree with a computer science major, and a minimum of two years of data processing experience.

Instructor - English: Position requires a master's degree with a minimum of 18 graduate semester hours in English and the ability to teach composition and literature.

Instructor - English/Reading: Position requires a master's degree with 18 graduate semester hours in reading or English or a combination thereof.

Instructor - Chemistry: Position requires a master's degree with a minimum of 18 graduate semester hours in Chemistry.

Instructor - Mathematics: Position requires a master's degree with a minimum of 18 graduate semester hours in mathematics.

Instructor - Social Science: Position requires a master's degree with a minimum of 18 graduate semester hours in the social sciences and the ability to teach Introduction to Social Science and Political Science.

Instructor - Chemistry/Physics: Position requires a master's degree in Chemistry or Physics and sufficient academic background to teach such courses as general chemistry, organic chemistry, qualitative chemistry and general physics.

Instructor - Music: A master's degree with music major is preferred. Instructor will teach guitar, music history or theory. Knowledge of a secondary instrument is required.

Instructor - Nursing: Position requires a Registered Nurse and bachelor's degree with a minimum of 2 years of clinical experience and the ability to teach Fundamentals of Nursing. A master's degree in nursing is preferred.

Instructor - Nursing: Position requires a Registered Nurse and bachelor's degree with a minimum of 2 years of Maternity Nursing. A master's degree in nursing is preferred.

Instructor - Data Processing: Position requires a minimum of a bachelor's degree with a computer science major, and a minimum of two years of data processing experience.

(Cont'd on P. 4)

A Living Memorial For Mary Sue Albertson

Mary Sue Albertson, one of a small group of teachers who initiated the idea which became Palm Beach Junior College, and one of the greatest of the master teachers in the history of the college, died Wednesday night at Community Hospital of the Palm Beaches following a stroke suffered some days earlier.

Mary Sue and some of her fellow teachers at Palm Beach High School were discussing the problems facing young people who wanted to go to college in the midst of the great depression in 1932 when the idea of beginning a junior college burst forth during the conversation. The idea was taken to the principal, Howell L. Watkins, from him to Joe Redding, superintendent of schools. From them, it went to community leaders, and the college was born.

Mary Sue and friends volunteered their work as teachers in the first months of PBJC's existence, and she transferred to the college when full-time service was possible, remaining active for 30 years, from 1933 to 1963 as a PBJC teacher.

Her field was biology, and in addition to making the subject come alive for thousands of students, she became a major force in the lives of students who were gifted in the science.

One of these was Dr. Paul Pearson, who visited PBJC in June, 1981, just after being elected President of Miami University of Ohio,. specifically to look for the teacher who convinced him to switch his major from accounting to biology. After a distinguished career in biology and biology education, Dr. Pearson moved up through the ranks of administration at Rutgers to the position of executive vice president there before accepting the post at Miami.

Dr. Pearson learned that Mary Sue was in poor health, and was being cared for by another of her special students, our own Fred Holling. Fred's tender, loving care for his former teacher has been a shining example of human kindness for those of us at PBJC who knew of his work for her.

A memorial service is planned for March 13, after the Sunday morning worship service at Union Congregational Church.

Fred has asked that in lieu of flowers or other remembrances, donations be made to the Palm Beach Junior College Foundation for a fund to be used to purchase a memorial tree, to be planted in a suitable location at PBJC Central.

A living memorial seems right for a master teacher of biology. ...JK

Faculty Vacancies (Cont'd from P 3)

South Center

Instructor - Data Processing: Position requires a minimum of a bachelor's degree with a computer science major, and a minimum of two years of data processing experience.

Instructor - English: Position requires a master's degree with a minimum of 18 graduate semester hours in English and the ability to teach composition and literature.

Interested persons should contact the Director of Personnel.

Glen Marsteller has on display at the North Campus Library Learning Resource Center Indian artifacts collected in Arizona, New Jersey, Pennsylvania, and Wyoming. There are examples of arrowheads, spearpoints, an adze, a pestal, a tomahawk,& pottery shards.

...Ruth Dooley

Counseling Services Are Reorganized

A recent reorganization of the counseling services department has resulted in two promotions, according to Dr. Melvin Haynes, vice president of student affairs.

Don Cook, former coordinator of testing services, was promoted to director of counseling services as of Jan. 1. Gwen Ferguson was named as the new coordinator of testing services.

"As director of counseling services, Mr. Cooke will have administrative and supervisory responsibility for all functions of counseling," Dr. Haynes said. "This includes testing, personal, social and academic counseling, career development, job placement, and recruiting.

Ferguson will be responsible for administering and scoring teacher make-up examinations, national testing programs such as the ACT, SAT, and CLEP, state-wide testing such as CLAST, and local testing, such as personality inventories, aptitude and interest surveys, he said.

Her new position will involve administering assessment instruments such as teacher evaluations and the student medical information forms.

"Miss Ferguson will still be doing some counseling, orientation, and academic advising, but not to as large an extent as before," Dr. Haynes said. "She has been relieved of the Job Placement function to devote more time to the other duties. Job Placement is now being handled by Norma Walter on a full-time basis."

Prior to the promotion, Ferguson had been the principal person coordinating job placement at PBJC Central for several years.

Run-A-Thon Scheduled

Since the month of March has been designated as American Cancer Society Month in Palm Beach County, the PBJC Student Health Clinic will co-sponsor its second Run-A-Thon as a special event to support the three-fold program of research, patient rehabilitation, and public education in the battle against cancer.

Come join us on March 16 and watch our runners in action at the PBJC Heart Trail from 9AM to 2PM. T-shirts will be given to participating PBJC runners.

To participate in the Run-A-Thon, and for more information, call Mary Cannon, college nurse at 8066 (Student Health Clinic).

Luncheon Is Served

The Hospitality Management Department is presenting a luncheon Thursday, March 10 from 11:30-12:30 in the Hospitality dining room. There are no reservations, and luncheon will be offered on a "first come, first served" basis. Choice of entree includes: 1) Sauerbraten 2) Half Broiled Chicken 3) Western Omelet. All are served with salad, vegetable and potato and the cost is $3.00. Beverage and dessert are extra. For information, call 8125.

Glades Provost Retires (Cont'd from P 1)

The college will begin a search for a replacement in the near future, Dr. Eissey said, working through the Personnel Department with the established procedures for filling vacant positions.

"We will be looking for someone who will be a real asset to the Glades communities as well as a great administrator for the college," Dr. Eissey said.

Jack Nicklaus Athletic Complex

Dedication Ceremonies March 21 At PBJC North

Ceremonies dedicating the growing sports facilities at Palm Beach Junior College North, and naming them the Jack Nicklaus Athletic Complex will be held March 21, 10 a.m., according to Dr. Eissey.

The event will take place at the site of the three fields which have already been completed with the aid of Nicklaus and Golden Bear, Inc., Dr. Elssey said. Entrance is from the south of the campus, off RCA Blvd.

"We are really grateful to Jack for his help," Dr. Eissey said. "He has given our PBJC North students a chance to get involved in sports much earlier than if we had been forced to wait for state funding."

Fields for baseball, softball, and a large soccer field have been developed, and access and parking provided.

Nicklaus has promised to attend the dedication, and it is hoped members of his family will also be there, Eissey said.

Music for the event will be provided by the Palm Beach Gardens band and chorus, a special choral group called "Pizzaz".

Refreshments will be donated by Pan American Bank.

Members of the PBJC Board of Trustees and of the PBJC Foundation will be guests for the meeting along with government and business leaders of the northern part of the county. Students, faculty and staff of PBJC North will be in attendance.

Dr. Eissey will introduce guests and will provide the dedicatory remarks.

The dedication is planned as an outdoors event, but a tent will be provided in case of rain. The program will take about 45 minutes to complete.

The general public is cordially invited to attend.

Soil Compacting Is Underway

If your work is anywhere near the site of the Paul J. Glynn Student Center at PBJC Central or if you visit the cafeteria, bookstore or SAC Center, you don't need to be told that a soil compactor has been working there since Wednesday.

You'll be shuddering most of this week, even though the crew was working through the weekend. That huge, vibrating steel column has to work its way down 18 feet deep for 104 times before the proper foundation will have been laid for the building. It takes a half hour for each insertion.

In case you are not familiar with how this works, it is a process that is a little bit like what happens if you have ever used a garden hose to dig a small hole for planting in sandy soil--except on a giant scale.

Vibration plus water not only digs the hole, but also extends the compaction outward in all directions. If you have time to watch through one insertion, (about a half hour), you will see that yards and yards of sand will magically disappear as the process goes on.

Cont'd on P 2

O - O - O - OOPS!

Apologies for writing Joe Redding instead of Joe Youngblood last week in the Mary Sue lbertson story. Two very different people. The news about Mary Sue arrived just at deadline, and we did not have time to check the story before running it.

Cont'd on P 2

Trustees Meet Wednesday

Palm Beach Junior College trustees will be given an overview of the Student Affairs Department by Dr. Melvin Haynes, Vice President, at the March meeting of the board, Wednesday, 7:30 p.m., in Conference C at PBJC Central.

All Old and New Business items on the agenda concern lab fees and Continuing Education courses.

Personnel items include lists of bargaining unit appointments for the 1983-84 year, three sabbatical leave requests, and the usual mixture of appointments, resignations, retirements and leave requests.

Business Affairs include three housekeeping items and one budget resolution.

There are seven items under Construction and Development, four involving change orders, revisions and addendums to ongoing projects. Approval of phase one drawings, and preliminary final plans for renovation of the Center for Personalized Instruction, plus approval of three firms as pre-qualified contractors completes that section of the agenda.

There are 10 bids up for award.

The April Board meeting will be held one week early, on April 13, in the Conference Room at PBJC North.

Computer Training

A total of 456 students have enrolled in Introduction to Computer classes at PBJC South in a 12 month period, according to Dr. Patricia Dyer, provost.

Reporting to the President's Council of the college, Dr. Dyer said she does not anticipate any decrease in the number of students seeking computer training.

"Computer training is on the increase throughout the country," Dr. Dyer said, "but we believe our South County area has even more interest than most because of the proximity of high technology industry." Two teachers from nearby IBM were utilized in teaching some of the courses, Dr. Dyer reported.

Soil Compacting (Cont'd from P 1)

The result is like a concrete piling several feet wide and 18 feet deep. Our Business Administration Building, the Criminal Justice Complex and others of our more modern buildings rest on foundations created in this way.

Claude Edwards tells us the vibration is caused by a big electric motor, and that the huge, expensive rig from Hydro-Pak, Inc., has many days of work already scheduled once it is through here--a good sign for the South Florida economy.

Although the vibration of the ground is a little disconcerting at first, especially if you have not been near it before, it is unbelievably mild compared to older methods of driving pilings into the ground. ...JK

OOPS! (Cont'd from P 1)

A more serious omission was made in the list of current faculty vacancies. After correctly listing two vacancies in Data Processing, and one each in English, English/Reading, Chemistry, Mathematics and Social Science at PBJC North, there was a break on the page. In that break, there should have appeared a heading: Central Campus.

The PBJC Central vacancies are in Chemistry/Physics, Music, two in Nursing, and one in Data Processing.

Vacancies in Data Processing and English at PBJC South were correctly identified.

Altogether, there are 14 vacancies, seven at PBJC North, five at PBJC Central and two at PBJC South. Contact the Director of Personnel if you are interested.

On Holidays, Calendars, And G.W.'s Birthday

During the recent Coffee With Ed series, one question asked was: "Why don't we have a oliday on George Washington's birthday?"

This led into a more general discussion of how holidays are determined, and an even more general discussion of calendar making.

As to the first question:

1. We never have, at least not recently. (We checked back to 1957).
2. Board policy does not mention GW's birthday.
3. Observance in Florida is spotty at best--some government institutions, and a very few private businesses are closed. Some parts of the country used to observe both Washington and Lincoln's birthdays, but a move some years back consolidated the two into one.

As to the general discussion:

Calendar making is not simple.

At PBJC, the process begins with Charles Graham, who develops a student calendar, paying due attention to laws, rules and regulations. This calendar goes to Dr. Elisabeth Erling, who works with Joe Schneider in developing work calendars for all employees. Joe, Lis and Chuck work closely together in coordination of all the different aspects, and during this process, holidays are determined.

Dr. Eissey and staff check these results, and calendar and work schedules go to the board for approval.

Until two years ago, holiday determination was relatively simple. There were 12 paid holidays for year-round personnel. Non paid holidays for faculty and students were determined by the dates set for the paid holidays. There were decisions to make, of course, but not too many.

Two years ago, things got much more complicated.

Four of our 12 holidays had been Christmas Eve, Christmas Day, New Year's Eve and New Year's Day. This left an extremely awkward half week of work between the holidays.

The days between Christmas and New Year's Eve were tough to work. The place felt deserted with no students and faculty. There was no cafeteria service. Everybody you needed to contact to get your work done was gone, including many who started scheduling annual vacation days at that time.

It reached the point where the college buildings were being opened at great expense, and very little work was being accomplished.

So, beginning two years ago, holidays from other parts of the year were transferred to the days between Christmas and New Year's Eve, and the college was closed down completely from Christmas Eve through New Year's Day.

One day transferred for this purpose was the Monday after Good Friday. Others have come from other parts of the holiday schedule, depending, sometimes, on when a holiday falls on a weekend.

All this made things tough on the calendar makers, but it has been great for the 12-month personnel. It has also been great for saving money and energy, and that is good for everyone.

It has also resulted in a shorter work year for faculty. If faculty and students are here on a day which might have been a holiday, they complete the required number of class-days one day earlier, shortening that term by one day.

he change has made our holiday schedule a bit erratic from year to year. The student calendar in the catalog lists holidays during the terms. The personnel office circulates a complete list of holidays every year.

PALM BEACH JUNIOR COLLEGE
PBJC MONDAY REPORT:

Volume V, Number 22 March 21, 1983

Vote Is Unanimous

Trustees Oppose Power Plant Project

Palm Beach Junior College has joined the county school system in opposing a Lake Worth Utilities Authority plan to burn a product made from garbage as fuel to produce electricity.

College trustees voted unanimously Wednesday night to authorize Dr. Eissey to represent the college by appearing in opposition to the plan at the Solid Waste Authority meeting March 23.

The proposed power plant would be immediately across Lake Osborne from PBJC Central, the largest of the college's four campuses.

In outlining the basic situation for the trustees, board attorney James Adams said a decision on what kind of fuel burning plant would be built, and where it will be built, should be made either at the meeting of March 23, or at the April meeting of the Authority.

Dr. Eissey said he believed the college should support the school board in opposition.

He said the 18-wheelers needed to carry the fuel to the plant would use either Lake Worth Road or Sixth Avenue, or both, and that both roads are already overcrowded.

He said that in his opinion, there could be air polution problems for the campus from the proposed plant.

In supporting Dr. Eissey's opposition, trustee Willard Findling said that placing the plant in a crowded urban area with no room for expansion and putting trucks on overloaded streets would be "utterly foolish."

An item on the supplemental agenda setting salary grades for Division Chairmen and for the Provost of the Glades Center was passed by the board, but with the proviso that Mrs. Homer Hand, trustee from the

Cont'd on P 3

Presidential Candidate John Anderson Here

John Anderson, the Independent candidate for President of the United States, will speak at two different times at PBJC on Wednesday, March 23.

Anderson will address voters from 11 a.m. to noon in the Student Activity Center; and for hose who can't get away during the day, he ill speak from 7-8 p.m. in the Allied Health Lecture Hall. (If you miss both of those, you will be able to catch him at 10 p.m. on the John Levitt radio program on WPBR 1340 AM).

Don't forget to register to vote March 28 through April 1 in the Central campus cafeteria. Students who have completed the registrar course (to be conducted March 23 by Jerry Edmonds of the County Supervisor of Elections Office) will be doing the registering.

The elections activities are being coordinated by Ed Pugh.

New Security Chief

A former Army staff sergeant has been named the new chief of Security at Palm Beach Junior College.

Joe Newman assumed the position Feb. 10 following the resignation of Charles Kubinski.

Recently retired from the U.S. Army, Newman's -year enlistment included heading security operations on missile bases in the U.S., Europe and Korea. He spent three years in northern Germany acting as an advisor in

Distinguished Service Award To John Schmiederer

John Schmiederer, dean of vocational education at PBJC, will be the recipient of the Health Planning Council's "Distinguished Service Award" at the group's annual dinner meeting Thursday, March 24 at the Holiday Inn on PGA Blvd.

"Schmiederer's outstanding contributions of leadership, service and devotion to the work of the council over a period of years has earned him the highest award given by the Council," said Dr. Frank Saunders.

A Palm Beach County resident since 1968, his tenure at PBJC has included a faculty position teaching biological science, and coordinator of Allied Health Services.

From 1975 to 1982, Schmiederer established the paramedics program, and programs in OTA, MHT, Medical Lab and X-Ray technology at PBJC. He also helped develop a geriatric aide curriculum,child care and nursing assessment curriculums, dental auxiliary education, and the initial First Responder course.

His other involvements include working with the Health Services Association, the South Florida Lung Association, and the American Heart Association.

DECA Students To Compete In Houston

Five students who placed at the DECA state Career Development Competition March 3-6 will travel to Houston next month to compete nationally, according to Susan Marlowe, faculty advisor to Delta Epsilon Chi, PBJC's DECA chapter.

The students include: Brett Snyder (Delray Beach), first place in general merchandising and second place in management decision making; Lisa Nicholas (Hobe Sound), seventh place in general merchandising; Barbara Johnson (Tequesta), fourth place in apparel and accessories; Jill Ber (West Palm Beach), seventh place in apparel and accessories and fourth place in sales managers; and Kathy Weber (WPB), third place in restaurant marketing.

"I was excited because the results showed how the students are taking their classwork seriously, and are looking toward the future," Marlowe said. "The conference stimulates the work situations they will have in their careers later on."

The competition included completing written examinations in six different business categories, plus oral presentations of solutions to case problems.

The DECA students will be among 70 Florida students participating in the national conference April 26-30 in Texas.

Children's Theatre Production

All faculty and staff are invited to attend the fourth annual Children's Production presented by PBJC students. "The Fabulous Fable Factory" can be seen in the auditorium, Central campus, at 10 a.m. on Tuesday or Thursday morning, the final two performances. Children from elementary schools in the county have been delighted with this production and we will play to over 2000 students. We hope that you will support this worthwhile community outreach program. ...Sunny Meyer

Security Chief (Cont'd from P 1)

setting up a security program on one of that country's missile bases.

Newman was also a recruiter during the Vietnam War, and most recently, was assigned to the 18th Airborne Corps at Ft. Bragg, N.C. -- part of the Rapid Deployment Force.

"The PBJC security system is relatively simple compared to the alarm systems, ID badges and so forth at the missile bases," the new chief said.

A bachelor and native of Pennsylvania, he has lived in Lantana since 1971.

1983 SUMMER PROGRAM IN ART

The 1983 Summer Program in Art will be a five week study tour from June 20th to July 23, 1983, and will include both travel and classroom instruction. The first four days of the program will be spent in Mexico City with visits to several cultural and historic sites: the Pyramids of Teotihuacan, Fine Arts Palace, Metropolitan Cathedral, Museum of Anthropology, Museum of Modern Art, etc., etc. The following four weeks will be in the colonial town of San Miguel de Allende - a national monument, and center for Mexican Art. While in San Miguel students will attend classes at the Instituto Nacional de Bellas Artes. The Bellas Artes is the government supported national institute of art for Mexico.

Participants in the summer program enroll in both ARH 1955 and ARH 1956 earning 6 semester credit hours. Credits earned may be applied to a degree program at PBJC or are transferable to other colleges and universities. The courses will focus on the history and appreciation of Mexican Art. Students will visit galleries, artisans workshops and historic sites and will be able to participate in a studio area. The program does not require proficiency in Spanish - the language of instruction is English. Formal course registration and schedules will be arranged at the orientation prior to class.

Travel to and from Mexico is by air with transportation in Mexico by private motorcoach. Accomodations are on the basis of two persons per room with private bath at superior class tourist hotels. Single accomodations are available for an additional fee. While in Mexico City breakfast and dinner are included. In San Miguel, breakfast, lunch and dinner are included. No passport is required.

San Miguel de Allende is one of Mexico's "most colonial" towns. It is a National Monument which means no buildings of modern architecture can be erected - everything must be of colonial appearance - but may have modern interior facilities. The town's population is approximately 25,000. The town was named originally just "San Miguel" for the Franciscan monk who founded the town in 1540. The Allende was added later in honor of a home boy Ignacio Allende, a hero of the Independence Revolution.

San Miguel is rich in beauty and culture. Its altitude is 6400 feet above sea level which provides warm sunny days and cool evenings. In addition to several art schools there are galleries, festivals, riding, hot springs and more that make San Miguel a unique experience.

The cost of the program is $1049.00 plus tuition. All taxes and tips are included. Travel arrangements are made by Concord Travel of Boca Raton, Inc. 5455 North Federal Hwy., Boca Raton, Florida 33431. A deposit of $200.00 is required to hold a place on the tour. The balance must be paid by May 15, 1983.

Technicians Learn To Teach

Two courses to help people with expertise in a technical area learn how to teach will be offered by PBJC in April.

Teacher Improvement Project System (TIPS) I will meet Thursday, April 21 from 9 a.m. to 4 p.m. in CE 100 on the Central campus. TIPS II will meet the following Thursday at the same time and place.

TIPS I will deal with honing organizational skills-- preparing lesson plans, teaching with instructional objectives, and effective communication skills in presenting the subject matter.

The second session will focus on developing written tests, the mechanics and dynamics of questioning, and using audiovisuals (such as transparencies) in teaching.

"This is a national project being funded by a grant from the Kellogg Foundation," said Donna DiSesa, continuing education coordinator. "It is open to anyone with a technical background who desires to teach."

She said the instructors will be Carol Miller and Bob Wilcosky, two faculty members at Miami-Dade Community College.

The fee is $12 per session, and participants will earn six contact hours per session.

For registration or more information, call Continuing Education at 8012.

PBJC PALM BEACH JUNIOR COLLEGE
MONDAY REPORT

Volume V, Number 23

March 28, 1983

Sixteen Departments To Five Divisions

PBJC Will Reorganize Into Divisions

A major reorganization in academic administration at Palm Beach Junior College has been announced by Dr. Eissey. Beginning in the Fall Term, 1983, and continuing through a phase-in period of five-years, the college will shift from organization by Departments to organization by Divisions.

At PBJC Central, the only campus now organized by departments, 16 Departments will become five Divisions.

FIVE YEAR PHASE-IN

Dr. Eissey assured department chairpersons at a meeting Tuesday morning that "no one will be injured professionally by the change."

He said a number of chairpersons have planned to retire soon, and that five years should be ample time to adjust personnel, so as to cause no hardships.

FOUR NEW POSITIONS

The immediate effect of the reorganization will be felt at PBJC North and PBJC South, where two administrative positions at each campus to be filled in the Fall Term will be Division Chairmen.

Each campus has more than 1,000 FTE's (Full Time Equivalent Students), and the number of full time and adjunct faculty is increasing rapidly each year. Currently, at both North and South, the Dean of Instruction is the only administrator assigned exclusively to academic duties.

FIVE DIVISIONS

As students increase at PBJC North, South and also at PBJC Glades, if sufficient increase occurs there, Division Chairmen will be added as earned by enrollment until a division structure similar to the one planned for PBJC Central will exist where it is needed.

The Divisions planned for PBJC Central are as follows:

Cont'd On P 2

Foundation Honors Dr. Charles McAliley

A presentation of a plaque to retired faculty and Board member Dr. Charles McAliley highlighted the PBJC Foundation meeting Tuesday, Mar. 22 at the Sheraton of Boca Raton.

Dr. Eissey presented the award honoring the former accounting teacher for his "dedication in the establishment of the Foundation and 10 years of service."

McAliley was treasurer of the Foundation until he retired from the Board this year.

The election of three new directors and re-election of two current ones, was also announced. Elected were Gordon Gaster, vice president and general manager of E.F.Hutton & Co., John Linsworth, of Perini Land & Development Co. in West Palm Beach, and John Temple, president of Arvida Corp. in Boca Raton.

John Marion, of Marion, Paluga, and Associates, architects, and Burt Reynolds were re-elected.

Ernst & Whinney, the college's accounting firm, reported an audit of Foundation operations for the 1981-82 fiscal year conformed "with generally-accepted accounting principles applied on a consistent basis."

The 11-item agenda also included reports from Dr. Eissey on work with the legislature regarding growth and building needs, Dr. Patricia Dyer on South campus development and plans, and reports from North, South, and Glades campus committee chairmen.

Foundation President Mary Mongtomery announced many letters had been received

Cont'd on P 3

John Anderson

First Presidential Candidate Speaks Here

John Anderson may not be an official candidate for President of the United States in 1984 as he was in 1980, but he did nothing to discourage the impression that he will be during two appearances at PBJC Wednesday, (March 23).

The former congressman smiled broadly when Don Spiegler, Mayor of South Palm Beach, introduced him as "John Anderson, who will, I hope, with your help, becomes the next President of the United States."

He called for the abolition of Political Action Committees, and said that growing apathy among voters may be due to cynicism about the power of the individual vote against millions of dollars in special interest money.

The Allied Health Lecture Hall at PBJC Central, where Anderson spoke, had 200 seats filled with people standing in both aisles for the 11 a.m. speech, and was about two-thirds filled for a 7 p.m. repeat.

This is the first appearance of the 1984 campaign arranged by Ed Pugh, and it would have to be rated as highly successful. It is hoped that other campaigners will stop by as the race becomes more official.

Reorganization (Cont'd from P 1)

Division I	Business and Public Administration
Division II	Humanities
Division III	Science and Math
Division IV	Social Science and Education
Division V	Occupational

Discipline areas assigned to the Division Chairmen to be employed for the Fall Term will be divided so that divisions I, III, and V will be assigned to one of the two, and II and IV to the other.

DIVISIONS ALREADY FORMING

Dr. Eissey pointed out that some of the divisions are already fairly well formed. The Occupational Division would consist primarily of the departments now reporting to Dean John Schiemederer, for instance.

Likewise, the Division of Social Science and Education is nearly complete in the current Department of Social Science, needing only the addition of some of the education taught elsewhere in the college.

The Division of Science and Math is an amalgamation of two existing deparments, and the Division of Humanities would consist of Art, Music and Communications.

The "Public Administration" part of the first Division title is a little difficult to define at the moment, and additional study and clarification of the reorganization plan will continue.

CONTINUING EDUCATION

Another major segment of education at the college, Continuing Education, will continue under the Dean of Continuing Education as a District concept, and will be treated as a sixth division at PBJC Central.

Dr. Eissey said the current practice of utilizing the district concept in educational planning will continue--courses and textbooks will remain similar in content at all four campuses.

The reorganization will not be reflected in the 1983-84 catalog, but as changes to divisional status occur at PBJC Central they will be reflected in the next available catalog.

You Can Be A Part

Southeast Florida Educational Consortium

Palm Beach Junior College is now a member of the Southeast Florida Educational Consortium, which this year has a membership of 12 of the 16 colleges and universities in Palm Beach, Broward, Dade and Monroe counties. Our membership in the consortium may be an opportunity for you to share ideas and joint projects with colleagues at other colleges, and to develop area-wide programs improving efficiency, economy and quality.

The consortium is seven years old, and has accomplished such projects as the recent publication for high school students planning college careers, a consortium agreement on bidding and purchasing, coordination of clinical facilities for physical therapy education, an inventory of post-secondary education available in southeast Florida, and workshops and forums on such subjects as: Immigration Requirements and Foreign Student Enrollments, Audio Visual Techniques, Academic Articulation, etc.

Current year committees are: Audio-Visual, Handicapped, Libraries, Community/Information/Public Relations, Computer-based Education, Clinical Facilities Scheduling.

If you have an interest in any of the areas above, or have an idea that would be good for consideration as a consortium project and would like to take part in an organization that is bound to be of increasing significance in our college life, please contact Dr. Elisabeth Erling.

Dr. Erling has been appointed as liaison for PBJC to the consortium, and she would like to hear from you.

Nursing Career Day

Representatives from hospitals in the Palm Beach, Martin and Dade County areas will be recruiting nurses at PBJC Tuesday, March 29 from noon to 4:30 p.m. in the Foodservice Center.

"We'd like to invite all nurses to come and talk to those representatives who are anxious to share the advantages of working in their agencies," said Betty Morgan. "The Career Day might be of special interest to those in the community who would like to get back into nursing."

Palm Beach County hospitals to be represented are Palm Beach Gardens, John F. Kennedy, Good Samaritan, Community Hospital of the Palm Beaches, St. Mary's, Glades General, Doctor's, and The Hospital in Jupiter.

Others from outside this area include: Jackson Memorial and Mt. Sinai in Miami, Everglades Memorial in Pahokee, Martin Memorial in Stuart, and others.

Morgan said the career day is open to all freshmen and sophomore nursing students, as well as LPN's and RN's from the community who are looking for work.

Riverboat Ragtime Revue

A musical production complete with Mark Twain and songs from the Old South will be presented by PBJC Glades Wednesday, April 6 at 8 p.m. in the Dolly Hand Cultural Arts Center.

"The Riverboat Ragtime Revue" will be performed by Bill Fagen Productions of Texas.

Tickets are $8 for all seats. For reservations and information, call 8160 or 996-3055.

Foundation (Cont'd from P 1)

lauding the Master Photo Workshops held in February and March.

"The Foundation would be more than happy to support it again in the future," she said.

A Melting Pot Of Different Cultures

Second International Festival Coming April 29 - May 1

The Palm Beach Junior College Central campus will become a melting pot of different cultures late in April when it hosts the second International Festival of Palm Beach County. The first festival, last year, was one of the most entertaining events of the year, and you won't want to miss this year's expanded version.

The Center for Multicultural Affairs, part of the Continuing Education Department, has planned the festivities for Friday, Saturday and Sunday, April 29, 30 and May 1.

The Center is an umbrella group encompassing most of the major ethnic groups in Palm Beach County. An advisory committee of 23 of these organizations is busy lining up activities.

"This will be a bigger, county-wide event, with about 17 different ethnic groups represented," said John Townsend, Continuing Education coordinator. "We are planning to have three new groups involved this year: the Japanese, the Irish, and the Italian."

The festivities will include colorful native dress, music and dancing, and ethnic arts and crafts. Some attractions that have been added are a corps of bagpipers, a group of cloggers, and a flamenco dancer.

"The Japanese will be demonstrating martial arts or flower arranging," Townsend said.

As if costumes and colors, sights and sounds weren't enough to delight the senses, there will also be tastes and aromas of many ethnic dishes. The delicacies available last year included Greek Baklava, German apple strudel, Ukrainian pirohi, Cuban ham croquettas, and many others.

"I hope people will come hungry for this, because everything will be so good," he said.

Land Surveying Re-accredited

The Land Surveying Program at PBJC was re-accredited March 11 by the Florida State Department of Professional Regulation's Board of Land Surveyors.

"We are one of the only junior colleges in the state with full certification by that board," said Buck Rader, engineering department chairman. "PBJC had the first land surveying program in the state, and it is still the largest."

A representative from the Board of Land Surveyors visited the campus March 9 for an inspection and reviewed the courses offered. The actual accreditation, which is valid for the next two years, came at a meeting of the full Board two days later.

Collective Bargaining Begins April 21

Palm Beach Junior College and the United Faculty of PBJC will begin a new round of bargaining April 21, 3 p.m., at the County Parks and Recreation Building in John Prince Park.

Bargaining will be for the 1983-84 contract year, which will begin July 1.

The college and the union of teachers, counselors and librarians are currently in a contract which will expire on June 30.

- -

TIME TO START PLANNING -- MODIFIED WORK WEEK BEGINS MAY 9.

Humanities Conference Receives Award and $500 Check

The Development Office is happy to announce that the Palm Beach Junior College/Florida Endowment for the Humanities Conference on Academic Knowledge and Public Policy held on campus on January 18, 1983 and February 24, 1983, received third prize recognition at the Florida Conference on Academic Knowledge and Public Policy held in Tampa, March 24-25,1983. The third prize included a check for $500 to be used for humanities programs and a plaque. Recognition was awarded by the 15 participants and the staff of the Florida Leadership Forum voting to select the top three projects.

The Leadership Forums on our campus were initiated and directed by Jim Tanner, Dean of Academic Affairs on the South Campus. Dr. Sarah Pappas of the North Campus assisted. The Forums were co-sponsored by' the Institute of Governments directed by Bill Graham and the Council on Humanistic Values directed by Dr. Sam Bottosto. Ed Pugh, Stafford Mooney of the Social Science Departments and George Matsoukas of the Development Office assisted in the implementation of the grant project.

The Honorable Phil Lewis moderated the meetings at PBJC involving academic/humanists from five institutions of higher education in the County and public policy makers including members of the County legislative delegation, County Commission, municipal government and public agencies. The Forum participants defined and made conclusions about five vital issues concerning our community. The issues included: Uncontrolled Growth, K through 12 Education System, Post Secondary Education, Water Resources and Health Care.

Jim Tanner was elected to the Executive Board of the Florida Leadership Forum: Florida Endowment for the Humanities. Congratulations Jim!. ...George Matsoukas

February Student of the Month South

Cathy Coughanour has been chosen Student of the Month for February at PBJC South.

A criminal justice major, Coughanour has a 2.7 grade-point average. She plans to continue her education at Florida Atlantic University.

Coughanour enjoys art, martial arts, plants and aspires to make working with people a part of her career.

International Festival (cont'd from P 1)

The festival will be held on the PBJC Central grounds; food will be sold in the cafeteria, and arts and crafts and entertainment will be set up on the patio and grassy area just south of the cafeteria.

"We plan to have a large tent adjoining the cafeteria, so people can bring their food out and watch the festivities," he said.

The hours will be Friday, noon to 7 p.m., Saturday, 9 a.m. to 7 p.m., and Sunday, noon to 5 p.m. Admission is free.

Townsend said anyone who is interested in participating in the festival, whether with arts and crafts or entertainment, may call the Center for Multicultural Affairs at the Continuing Education Office, 8011.

Late Announcement

The following position vacancy is being announced:
Instructor - Dental Hygiene: Position requires a bachelor's degree or equivalent and at least two years of verified dental office experience. Florida license is required. Interested applicants should contact the Director of Personnel. ...J.M.Schneider

"Megatrends" Workshop Wednesday Afternoon

The future of Florida as outlined in the bestseller "Megatrends" by John Naisbitt, will be the topic of a panel discussion at PBJC Wednesday at 2:15 p.m. in the Allied Health Auditorium.

The program will be sponsored by the Community Leadership Forum, a new project being formed by the Institute of New Dimensions.

Panelists will be Gerald Kane, a data processing instructor at PBJC North, Morris Hertzig, a retired mathematics supervisor from New York, and Hy Ruchlis, a retired New York physics teacher and former PBJC instructor.

"We hope this will be the beginning of a series of panel discussions and study groups," said Mabel Johannson, chairman of the Community Leadership Forum. "Future topics may include health care or water resources."

"We are trying to attract retired people who where in positions of leadership and are now doing nothing," said Dr. Etta Ress, director of the Institute of New Dimensions. "The Forum will provide a place for them to come and meet others like themselves."

Dr. Ress said the first panel discussion will be used to determine interest in the project. More discussions will be held if there is sufficient response to this first one.

For more information, contact Dr. Ress at 622-2440, ext. 307.

Choir Schedules "Creation"

Palm Beach Junior College's Choir will perform Haydn's oratorio "Creation" Thursday, April 7 at 8 p.m. at Mary Immaculate Church in West Palm Beach.

It will also be performed Sunday, April 17 at the First Congregational Church of Lake Worth at 3 p.m. Both performances are free to the public.

A major choral and orchestral work, it will tell the story of creation as depicted in Genesis and Milton's "Paradise Lost."

The College Choir will include three soloists who are faculty members: Hugh Albee, Pat Johnson, and Arthur Schneider. Sy Pryweller will direct the Orchestra, and Pat Johnson will direct the Choir.

Announcements (cont'd from P 4)

ANNUAL PHYSICAL INVENTORY begins Monday, April 11 through Monday, May 2, as required by Florida statute. Two copies of the inventory printout will go to each department by April 11. A certified copy signed by the department chairperson is due in the Property Records Coord. office by 4PM, May 2. Call ext. 8148 if you find an item in your area that is not on your printout--this may be the very item someone else is looking for!. Thank you.
...M.A.Reasner

IBM is offering all faculty, students and staff of Florida education institutions a unique discount program for personal use computers. The discount is 20% and is available through the local IBM branch office. For further information, contact your local IBM marketing representative or call Jeff Pace or Nick Prine (IBM in Tallahassee at 904/599-4200).
...J. Howell

The following classified positions are now available:
Clerk Typist I (Finance) Salary Grade A14, $697.92 per month
Accounting Clerk I (Bookstore/North Campus) Salary Grade A17, $750.92 per month
Interested applicants should contact the Personnel Coordinator. ...S. Carton

PBJC
PALM BEACH JUNIOR COLLEGE
MONDAY REPORT

Volume V, Number 25 April 11, 1983

Only Old Age And Crime Pay

Don't Count On Fee Waivers After July 1

We hope you have not been planning on fee waivers to help you in educating yourself or a member of your family at PBJC after July 1, 1983. Unless the legislature can be persuaded to grant some relief to the harsh rule it passed last year, you are totally out of luck -- and the college can't do a thing about it.

Of course if you are a senior citizen you can get in under than exception to the law. Or you could persuade your uneducated family member to commit some small crime and get sent to Glades Correctional Institute, from which priviledged position fee waivers will still be allowed.

They don't pay off on loyal service of good citizenship anymore, only on old age and crime.

SOME WENT OVERBOARD

We got into this fix because some community colleges, (not PBJC, we are happy to report), went overboard in their use of fee waivers. At certain size levels, a fee waiver that gives you an FTE is a paying proposition. That is particularly true if you are filling spaces that would otherwise be empty.

Some colleges enrolled hundreds on fee waivers, utilizing state funds for students who were marginal at best, and did not perform well.

Statewide, the community college system became aware of this abuse, and moved toward correcting it--but not fast enough to suit the legislature.

Not all of our state legislators are as well informed as our local delegation about community colleges. Some of them are educational elitists. Some don't like the open door concept. Some are ready to scream loudly at the slightest fault in community colleges.

Important Announcement About CLAST Tests

ALL TEACHING FACULTY, DAY AND EVENING, PART AND FULL TIME, ARE REQUESTED TO MAKE THE FOLLOWING ANNOUNCEMENT TO THEIR CLASSES CONCERNING THE CLAST TEST WHICH WILL BE GIVEN ON JUNE 4TH:

1. All students graduating at the end of Spring or Summer terms with an AA degree must take the CLAST.
2. All students graduating at the end of Spring or Summer terms with an AS degree who have met General Education requirements and plan to transfer to a Florida University in the Fall term must take the CLAST.
3. Students with 54 hours, or more, who plan to transfer to a Florida University in the Fall without graduating from PBJC must take the CLAST.
4. Any student in the above categories who missed the test in October or March should take the test.

STUDENTS MUST PRE-REGISTER FOR THE TEST BY MAY 6, 1983. STUDENTS MAY REGISTER IN THE TESTING CENTER, CENTRAL CAMPUS, FROM 8:00 AM TO 4:00 PM DAILY AND IN THE EVENING REGISTRAR'S OFFICE FROM 6:00 PM - 9:00 PM MONDAY-THURSDAY. REGISTRATION ON THE NORTH, SOUTH AND GLADES CENTERS WILL BE IN THE GUIDANCE OFFICES, DURING NORMAL OFFICE HOURS.

...Don Cook

DON'T FORGET -- ALL PERSONNEL MEETING

MAY 2, 2 PM, COLLEGE AUDITORIUM

Fee Waivers (Cont'd from P 1)

ANTI-FEE WAIVER FRENZY

Last year, the anti-community college forces gathered so strongly around the weak point of fee waivers that a climate developed where even our best friends did not dare say anything in favor of them.

An anti-fee waiver frenzy punished colleges financially where waivers had been excessive, and then reached into the future and said: "After July 1, 1983, there shall be no more except those we have already mandated by law."

It is obvious to any thinking person that such a stand is counterproductive to the wise use of taxpayer's money. Fee waivers to fill otherwise empty seats -- when the students can really benefit from the education, and society can benefit from the educated student -- add much to education and cost very little.

The problems were not in the use of fee waivers, but in their excessive use.

FIVE PERCENT PLAN

In the intervening months since the last legislative session, the President's Council has worked very hard on our behalf, trying to advance an idea that would allow the use of fee waivers wisely, and curb their excessive use. Many legislators have indicated they would approve a new law allowing community colleges to use an amount equal to five percent of their tuition fees for tuition waivers.

But even this modest step toward relaxing the stringent rule on fee waivers is by no means certain. Your letter could help. Indeed, it might be the one small ounce needed to tip the balance of the scale in the right direction.

TRADITIONAL BENEFIT

For those of us who have a family member in full time attendance at the college, the loss of fee waivers could mean $608 for 32 credits, or $1,178 for the 62 credits needed for an associate degree. This is a traditional benefit granted to employees of colleges all around the world.

Unhappily, there is no action than can be taken by our board to do anything about this situation. When a board rule clashes with state law, the state law prevails.

In discussing this issue, Dr. Eissey gave two names of legislators whose backing will be extremely important if there is to be any change in the law to allow the 5 percent fee waiver. They are: Senator Curtis Peterson, Florida Senate, Suite 409C the Capitol, 252 Senate Office Building, Tallahassee, Fla. 32301, and Representative Herb Morgan, House of Representatives, 219 the Capitol, Tallahassee, Fla. 32301.

USE YOUR OWN WORDS

In writing any legislator, it is important that you do so in your own words, including your own ideas and your own situation. All politicians respond to genuine grass-roots concern, and most react adversely to form letters.

Dr. Eissey pointed out that the fee waiver problem is only one of many, many issues of extreme importance that will be decided in Tallahassee in the next few weeks.

THEY STILL LISTEN TO VOTERS

"The President's Council has been working almost unceasingly to do all we can to stem the tide of increasing legislative interference and control in all phases of college life, and to correct inequities in financing," he said.

"But we cannot do that job alone, anymore," he said. "We need everybody's active support in writing letters, and influencing legislators."

"Increasingly, the legislature listens to its own staff people instead of to professional educators. It is a serious situation."

"Fortunately," he said, "they still listen to voters--and you can make the difference."

Board Meets AT PBJC North

Items of construction and development for all four campuses will be on the agenda of the April meeting of the PBJC Trustees, Thursday, April 14, 7:30 p.m., in Room 105 at PBJC orth.

One of the major items will be approval of final plans for the next major project at PBJC North, the Library Learning Resources Center/Academic Labs building planned to get underway this summer.

A contract for architects for master planning at PBJC South, and establishment of a budget for that planning and other PBJC South needs are also on the agenda.

Three smaller construction items for PBJC Central and final inspection of the Glades Parking Lot Lighting project are also on the agenda.

The board will receive a report on the administration's plan for establishing Division Chairmen, and will be asked to approve a plan for multiple commencement ceremonies.

Most of the bids to be awarded at the meeting involve ongoing projects for additions and remodeling of facilities.

April Career Days

A career day will be held for students on April 18 at 10 a.m., April 20 at 10 a.m., and April 22 at 11:30 a.m. in the Student Activity Center (SAC) Lounge to present career opportunities with the Navy, Air Force, and Army. Each representative will give a short presentation and then answer individual questions. This is not just for the student who is leaving school, but for any student interested in training or employment opportunities.

It would be appreciated if instructors would inform students of these career days. Flyers are available in the guidance office.

he Student Affairs Department plans to have other career days during the 1983-84 school year. Any faculty member wishing to become involved, please contact Gail Tomei at 8057.

Social Science Department To Host Convention

The Florida Political Science Association (FPSA) will be having its twelfth annual convention at the Brazilian Court Hotel, Palm Beach, Friday and Saturday, April 15 and 16, hosted by H. Payge Dampier, and the Social Science Department.

Among the distinguished participants will be: Dr. John DeGrove, newly appointed Director of the Florida Community Affairs; Senator Carrie Meek, the first elected black female state senator in Florida, and Dr. Manning Daver, professor emeritus, University of Florida, "Mr. Political Scientist of the state of Florida."

Dr. Gwendolyn Carter, Indiana University, a nationally recognized anthropologist, will deliver the major address at Saturday's luncheon.

We would enjoy having anyone on the faculty at all campuses attend this convention.

...H. Payge Dampier

Computer Conference

Representatives from various computer manufacturing and servicing agencies in the county will meet at PBJC Tuesday, April 12 from 2:30 to 3:30 p.m. in Conference Room C.

According to John Schmiederer, the primary purpose for this meeting is to determine if the ills our A.S. degree students are learning are up-to-date.

In addition to those already invited, anyone who uses or manufactures computers is welcome. For more information, call 8085.

Personals and Announcements

I wish to extend my thanks to the bookstore staff; Mr. Claude Edwards and his mainter ance staff, especially Frank Bollon, John Collett, Dan Hall, Tim Pouliot and Perry Tougas for all their help and hard work in moving the bookstore. ...R. Brofft

Lis Erling, together with her husband and friends, left last Thursday for a ten day vacation in Spain. Best wishes for a safe and happy journey. Olé.

Congratulations to Celeste Beck on the birth of a son, Edward, 7 lb.13 oz., born Easter Sunday morning. Both are home from the hospital, and doing well.

Also to be congratulated are Sue and Rich Yinger on the birth of their son, 7 lb.5 oz. Timothy Richard, April 6 in Good Sam. Parents and baby are fine.

Sarah Pappas and her husband are enjoying a three-week holiday in Greece. She plans to be back on campus April 25th.

At the recent national convention of the academic honor/service fraternity for juni community colleges, Phi Theta Kappa, held in Kansas City, Allen Hamlin received one of the organization's highest honors. Mr. Hamlin, sponsor and central campus math instructor, was selected from the more than 700 sponsors of chapters nationwide as one of the three given the "National Sponsors Award." Additional recognition was given Allen and Frank Barton (north campus, who is relinquishing the PTK sponsorship this year) when the convention elected them to the "Hall of Honor." Congratulations, Honorable Al and Honorable Frank!!

Co-Op students will be giving an Appreciation Breakfast for employers on Friday, Apr. 15, 7:30AM in the Foodservice Center. In addition to presenting certificates to employers, one of the students will speak on "Human Relations in the Workplace."

Happy Birthday . . .

PALM BEACH JUNIOR COLLEGE
MONDAY REPORT

Volume V, Number 26 April 18, 1983

May, August And December

Trustees Approve Three Graduations Each Year

The Palm Beach Junior College graduation ceremony in May each year will be joined this year by two smaller ceremonies, one in August and the other in December. PBJC trustees, in the first board meeting ever held at PBJC North, approved an administration plan for the multiple ceremonies.

Explaining the plan, Dr. Eissey said that many graduates of Spring, Summer and Fall Terms do not return for the May graduation even though they are eligible to do so.

Graduation from college can be a significant event for students and their relatives, Dr. Eissey said, and the college wishes to give every graduate an opportunity to take part in a traditional ceremony.

The graduations in August and December will be held at PBJC Central and will utilize local speakers, Dr. Eissey said. The May graduations will continue to be held at the Jai Alai Fronton, and will utilize speakers of state and national prominence.

In other important actions the board:

Approved the administration's recently announced plans to change from a departmental to a division form of administration.

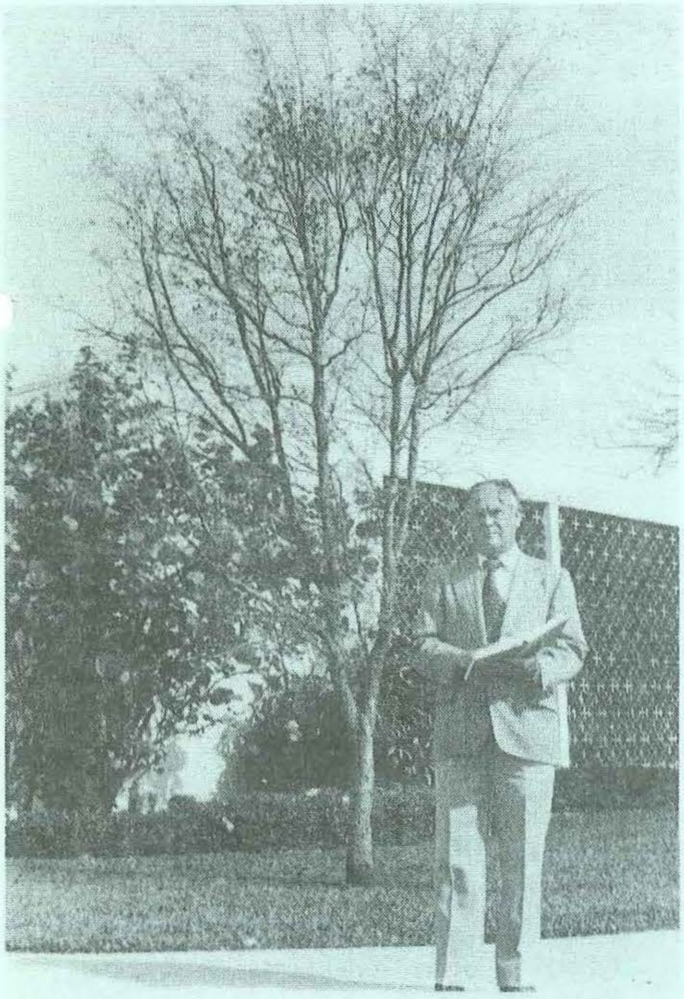
Approved a contract with Marion, Paluga and Associates for master planning of the PBJC South campus.

Approved final plans and specifications for the Library Learning Resources/Academic Labs building at PBJC North.

Prior to the business part of the meeting, the trustees heard a report from staff and students at PBJC North.

Displays of work being done at PBJC North and refreshments for visitors were set up in the corridors outside the meeting room.

A Tree Grows For Mary Sue



Thursday morning, April 14 in this spot northwest of the Science Building, Fred Holling and Dr. Eissey led iends of Mary Sue Albertson, master teacher and PBJC pioneer, in a simple ceremony dedicating the tree as a living memorial. The tree is a live oak, a noble tree with wide spreading branches that gives much and requires little. Mary Sue was born April 14, 1895.

Children Walk, Walk AND Walk - - $700 Worth

On behalf of the members of the Early Childhood Club, and the children, teachers and staff of the Center for Early Learning, I would like to thank everyone who pledged and made donations to the Tenth Annual Childrens Walkathon that was held on March 30th.

This fund-raising effort raised almost seven hundred dollars for the Club's projects that will benefit Early Childhood majors and children in the Center for Early Learning.

We also are grateful to art students Bonnie Chamness and Tania DePrima who silk-screened and printed special T-shirts for the children to wear; to Hospitality Unlimited members who served Gator-Ade and brownies to the children during the Walkathon, and to students and parents who helped supervise the children during the event. And thanks to Prudy VanWinkle, Center Head Teacher, who donated the T-shirts.

Special thanks to Tony Montessorintino, who dressed up as a clown and entertained the children.

We shouldn't neglect to mention that Tommy Holt, 3, walked the most laps -- a total of 13, while Aliza Milette, 4, Amy Almeida, 4, and Christine Stevens, 3, ran him a close second with ten laps each.

Special thanks, also, to James Swain, a student, who collected a total of $350. for this event, a record-setter for the ten years we have held the Walkathon for one student's efforts!

It takes a lot of people to make such an event the success it was, and the results show that we have many child advocates on this campus.

For that, we are very grateful to all of you. ...K. Bowser

Sunshine Playmakers A Success!!

On March 15, 17, 22, 24, The Sunshine Playmakers from PBJC Central presented The Fabulous Fable Factory for over 2,000 children from fourteen elementary schools. After attending the play given in the PBJC Auditorium, many of the teachers used the experience as writing and art lessons for the young audience members.

The teachers sent wonderful letters and adorable pictures to us in appreciation for the fine community service performed by the PBJC theatre students. We have a sampling of the correspondence on display in the lobby of the auditorium and invite you to see these expressions of love from these appreciative children. ...Sunny Meyer

Awards Night Tonight

Two annual banquets and awards programs have been scheduled for tonight at 6:30 p.m.

The eighth annual PBJC South Awards will take place in the PBJC Central Cafeteria, with congratulatory remarks being made by Dr. Eissey, Dr. Patricia Dyer, Dr. Melvin Haynes and Marla Pautz, student president at PBJC South.

Awards will be given in 12 different categories to about 35 students. Dr. Harris McGirt, director of student services, declined to select the most important of the awards. "They are all important," he said.

The annual athletic banquet will take place at Atlantis Country Club. The Monday Report hopes to report more fully on both these awards nights next week.

Computers For Pre-School And Primary Students

Palm Beach Junior College can help pre-school teachers take their students from the ABC's to CRT's and VDT's.

The college will offer a two-day seminar on "Using Computer Instruction with Pre-School and Primary Age Students" Friday and Saturday, April 29-30 from 8:30 a.m. to 4:30 p.m. in the Continuing Education Auditorium.

"The computer will be all-pervasive by the time our present pre-schoolers are adults," said Kathy Bowser, head of the PBJC Center for Early Learning. "It's important we train teachers to acquaint young students with computer technology at the earliest possible age."

The seminar will include the history of the computer, the development of the microcomputer, educational uses of computers and evaluating hardware and software. The program will also include hands-on experience, depending on the number of participants.

The instructor will be Dr. John P. Chattin-McNichols, assistant professor and coordinator of the Montessori Teacher Education Program at Seattle University.

North Campus Wins Sports Day Trophy

The Sports Day Trophy will spend the next year on the North campus as a result of their impressive win Friday, April 8 in the Fourth Annual Multi-Campus Sports Day. A distant second was the Glades campus, followed in order by Central and South.

o-ed events earning points toward the championship were the three-mile run, tennis, racquetball, one-on-one basketball and volleyball.

Following the competition, an Awards Luncheon was held in the Central cafeteria where individual winners were presented trophies. ...B. Moss

FACC Schedules Social

FACC/PBJC "A Day in the Country" SOCIAL will be held Saturday, April 23, 1983. Members are invited ....

*Did you join FACC?	Yes	No
*Did you mark April 23 at 3PM on your calendar?	Yes	No

PALM BEACH JUNIOR COLLEGE

MONDAY REPORT

Volume V, Number 27 April 25, 1983

1966 Graduate, Now A State Senator

Ken Jenne Will Be Our Commencement Speaker

State Senator Kenneth C. Jenne, 17 years after his own graduation from Palm Beach Junior College, will be the commencement speaker at the 48th annual ceremonies, May 4, 8 p.m., at the Palm Beach Jai Alai Fronton.

Two years after graduating from PBJC, Sen. Jenne graduated from Florida Atlantic University, and four years later, in 1972, received his J.D. Degree from Florida State University.

"We appreciate Senator Jenne's acceptance of our invitation," said Dr. Eissey. "We realize how busy he is at this time of the year, and are pleased that he will take the time to be with us."

After two years as an assistant state attorney in Broward County, Jenne undertook the arduous task of organizing forces urging a charter commission for Broward, succeeded in the effort, and started a career of public service.

After service as executive director of the charter commission, he was elected to the county commission and served there until 1978, when he won election to the Florida Senate.

His service in the Senate has been characterized by ever increasing areas of expert knowledge and committee assignments of more and more importance. He is currently chairman of the Executive Business Committee.

Today, the 1966 PBJC graduate is conceded to be one of a handful of senators whose advocacy is almost essential for the success of major legislation.

The college ceremony May 4 will be little changed in form since 1966, merely in size.

There will be approximately 600 graduates for the Winter Term with some 500 or so in the processional, about twice as many as in 1966.

Cont'd on P2

Citizen Delegation Goes To Tallahassee

A delegation of prominent county citizens concerned with the future of Palm Beach Junior College will be in Tallahassee Apr. 27 for a luncheon meeting with the county legislative delegation, according to Dr. Eissey.

"We are grateful to these citizens for their investment of time and energy in the community college," Dr. Eissey said.

William Clark, Alex Dreyfoos and Marshall Criser have indicated they will see some legislators on behalf of the college prior to the meeting.

Others who have indicated they will already be in Tallahassee on that date are William Dwyer, Robert Lee, Don Reed and Ron Brower.

The delegation will be formed from members of a commitee formed earlier this year, Dr. Eissey said. Many other committee members have indicated they plan to be present for the meeting.

Other members are Stephen Abramson, Jim Anstis, Earl Dapp, Avery Fonda, Barkley Henderson, Phil Lewis, John Linstroth, Ted Moffett, Robert Montgomery, John Moyle, Robert Satter, Harry Smith and William Wallace.

The delegation will speak for the business and industrial leadership of the county in stressing the need for PBJC educational facilities at both PBJC North and PBJC South, Dr. Eissey said.

"No group can speak more authoritatively of the growth expected in the county in the next 15 years, and the absolute necessity of

Cont'd on P3

United Faculty Loses At Santa Fe

Santa Fe Community College in Gainesville has rejected an effort by the United Faculty of Florida to form a union of full time Faculty, Counselors, Librarians and Coordinators with teaching responsibilities by an overwhelming margin.

The vote, on April 13, was 145-79 against the union. There were 230 eligible to vote, so only six failed to vote.

According to Dr. Clifford Le Blanc, Personnel Director, the college president met with the faculty in small groups similar to our Coffee with Ed series.

In these small sessions, the president used existing union contracts at other colleges to show numerous provisions that, if put into effect at Santa Fe, would not be welcomed by the faculty.

Near the end of the period before the election, several faculty members wrote strong letters supporting the administration's viewpoint that unionization would work against the best interests of the faculty, and Dr. Le Blanc felt that these letters were extremely important in determining the outcome of the election.

"Perhaps the most important point," said Le Blanc, "is that there were no real issues here at Santa Fe. The only thing which brought about the election was the desire of the state and national unions to have a union here.

"And they, not anybody at Santa Fe, would have been the only ones to benefit if the vote had been the other way around."

Registration Information

May 23-26:	Currently enrolled students register for summer/fall (evening/day)
June 6-9 :	Early registration returning and new students for summer/fall (evening only)
June 21 :	Regular registration for summer (day/evening)
June 22 :	Late registration
June 22,23,27:	Drop/Add
July 18-21:	Currently enrolled evening students register for fall (fees due August 1)
July 25-28:	Early registration for fall term for new and returning evening students (fees due by August 1)
Aug. 17-22:	Regular registration for new/returning evening students
Aug. 23 :	Late registration
Aug. 24 :	Classes begin

***Note: The evening office will be opened from 8AM-4PM only during the following dates: May 2-6 and Aug. 2-12.

...H. Saulter

Commencement (Cont'd from P 1)

The ceremony will include an academic processional, music by the college Music Department, awarding of scholarships, the commencement address, and the traditional awarding of degrees.

Friends and relatives of graduates are encouraged to attend. There is no admission charge, and seats are not reserved for general admission.

The fronton, where PBJC graduation has been held the past two years through the cooperation of the management, has ample seating and parking for all who wish to attend.

Graduation rehearsal is set for 9 a.m. at the fronton.

United Faculty Presents List

The United Faculty of PBJC presented some 20 pages of changes proposed for the 1983-84 contract at the first bargaining session of the current round of talks with the administration Thursday. Next meeting is scheduled for May 12.

International Festival Coming This Weekend

Do not forget the International Festival this weekend, April 29, 30 and May 1. If you miss his, you'll be missing one of the most successful events of the year: food, and entertainment and arts and crafts from at least 12 different cultures -- American Indian, Black Citizens Coalition, Colombian, Cuban, Finnish, German, Greek, Japanese, Lebanese, Norwegian, Russian, and Ukrainian.

Food will be in the cafeteria, music and dancing in the gym, and the horse show in the northeast corner of the campus. A tentative schedule, (there will probably be additions), follows:

FRIDAY: 1PM - Golden Lakes Folk Dancers 6:30PM Lebanese Belly Dancers 7:30PM Hitchiti Indian (American) Dancers

SATURDAY: 10:30AM Dixieland Band 11:30AM German Dancers 12 Noon Greek Dancers
1:15PM Ballet Troupe 2:30PM Horse Show 3:00PM Ukrainian Dancers
4:00PM Finnish Male Singers 4:30PM Polish Club Dancers, Singers
5:30PM Lebanese Belly Dancers 6:00PM Hispanic Entertainment
7:00 Black Coalition Entertainment 8:00 American Indian Dancers

SUNDAY: 12:30PM American Polish Club 1:00PM Greek Trio 2:00PM Japanese Dancer
3:00PM Finnish Women's Chorus-Finnish Male Singers of Florida
4:00PM Ukrainian Entertainment, including Yarko Antonevych on the Bandura

4/27 Charlotte Forman 4/28 Paul Davis, Rene Collins
5/01 Eleanor Myatt, John Phillips, Freddie Harrell, Dick Jones, Bob Jones

Personals

North campus had the opportunity to be represented at the Social Services Fair held Saturday, April 16 at Twin City Mall. John Jenkins and Roger Nielsen prepared the information booth. Volunteers from the North campus manned the booth from 10AM to 5PM. The six volunteers offering their time were Frankie Davis, Yvonne Boger, Teri Lenahan, Betty Woolfe, Ottis Smith and Debbie Jackson. During the course of the day there were approximately 80 interested spectators.

FACC Update

On April 15 and 16, 1983, Dr. Joan Young, Gordon Kramer, Sandi Richmond and Helen Schultz represented FACC-PBJC at the Faculty Commission and Curriculum and Instruction Commission Spring Conference in Daytona Beach. The theme of this conference was "Technology and Innovation in the Community College."

Helen Schultz from the North Campus made a presentation on "Word Processing at Palm Beach Junior College." Seven other colleges from Florida highlighted hi-tech activities taking place on their campuses. This excellent overview of technical innovation left the participants excited about the changes occuring in higher education.

Dr. Joan Young, Vice President of the Faculty Commission, is commended for bringing together this meaningful and challenging program.

Woman's Work

Dr. Barbara Matthews -- recent speaking engagements:

First local meeting of the National Women Business Owners-The Entrepreneur's Challenge"
Women's International League for Peace and Freedom-"Women in the World" & "Equality:A Mandate for Peace"
This week at the Hyatt at first local meeting of the Assn. for Individual Career Advancement-"The Psychology of Women"
And will make two presentations this summer at Ohio State Univ.,the national conference for the National Women's Studies Assn.

REMINDER

The modified work week, which affects most of the faculty and staff, will begin the week of May 9.

PALM BEACH JUNIOR COLLEGE
PBJC MONDAY REPORT

Volume V, Number 28 May 2, 1983

Distributed By Our Friends

A New Publication COLLEGE COMMUNITY CONTACT Is Born

PALM BEACH JUNIOR COLLEGE

Even as you read this, (assuming you read the Monday Report on Monday), the PBJC print shop is busy printing the first issue of a new publication, College-Community Contact, an informational vehicle we hope will live up to its name.

The "We" who are so hoping, are the staff of the news bureau and print shop, who are responsible for the development of the new publication, many months after it was first proposed in a conversation between Jonathan Koontz and Dr. Eissey.

All who receive the Monday Report will get copies of Contact along with next week's Monday Report. This is a small part of a rather unusual distribution system which has been worked out for the 8,000 run of our first, 12-page issue.

Briefly, the publication will be distributed by our friends--the banks, the dentists, the public and private schools, the hospitals, the institute of governments members, the chambers of commerce, the libraries--and others who have dealings with the college.

Contact does not promise any specific publication schedule, but we are hoping to be able to turn one out every quarter--or more often, if there is a specific need.

The first issue headlines the new millage slide show. It is largely a reprint of many items covered by the news bureau in the recent past. It will contain little that is new to readers of the Monday Report, but much that may be new to the general public.

The first issue is datelined April, and we hope to have a second issue in June or July, concentrating on the opening of the Fall Term. That will be followed by an issue announcing the beginning of our Golden Anniversary year.

Although this first Contact was produced almost entirely by the News Bureau staff,

Cont'd on P 3

Will Coach Hodges Be Leaving?

A classic case of confusion and misunderstanding arising from premature release by an unauthorized source of "information" that later proved to be not quite accurate had a lot of people here at the college and in the community asking last week whether Bill Hodges will be leaving the college after a year as our basketball coach.

In the mish-mash of stories that erupted, there was one bright spot--it was made abundantly clear that we like Bill and that he likes us.

As this is written on Thursday afternoon, the facts are that Bill has learned of the possibility of an opening as assistant coach at Long Beach State in California, where Dave Buss, a long-time friend, has been hired as head coach.

If that job becomes a reality, and if Hodges becomes a successful applicant for the job, it would be of great interest to Bill, and he may decide to leave. Like the gentleman and professional he has always shown himself to be here, Bill told Tom Mullins and Dr. Eissey about this possibility.

It appears now that at this point, there was a slight misunderstanding about when all this might take place, but since no release of information was planned until more could be learned, that misunderstanding would not have been important, except for the infamous PBJC grapevine.

Our walls have ears, our ceilings have ears, our floor has ears and all the furniture is bugged, with terminals at every desk--or so

Cont'd on P 2

Job Fair At PBJC North Wednesday

High school seniors, college students, and others looking for jobs will be able to meet representatives from area businesses and government agencies at a job fair hosted by PBJC North.

The Second Annual Job Fair, co-sponsored by the North Palm Beach, Palm Beach Gardens, and Jupiter-Tequesta Chambers of Commerce, will be held Wednesday, May 4 from 9 a.m. to 3 p.m. in the North Campus classrooms.

"We had all the major corporations in the area represented last year, and we expect them to come this year, too," said Frank Mossadeghi, PBJC economics instructor. "The Job Fair is open to all members of the public, but is focused toward graduating seniors or college students."

He said the Job Fair is an opportunity for those looking for a career to meet and talk with industry representatives who may have openings. Some may have applications for employment on hand.

Any businesses who would like to have a booth in the Job Fair may make arrangements by calling the Palm Beach Gardens (622-6357), the North Palm Beach (848-3431), or the Jupiter-Tequesta (746-7111) Chambers of Commerce.

It's Now Dr. Adams

A proposal during a sabbatical leave several years ago has now led to a successful dissertation and an Ed. D. from FAU Friday for Frank Adams.

Frank's title was "The Effect of the Satisfaction of Learning Style Preference on the Achievement, Attrition, and Attitude of Palm Beach Junior College Students." With a title that long, you only need a short dissertation!

Frank's study required the cooperation of 604 students and 16 instructors who were either matched or mismatched according to results of the Instructional Styles Inventory. Follow-up checks on learner satisfaction and academic achievement showed significant correlations. Congratulations, Dr. Adams.

LATE ANNOUNCEMENT

TO ALL DEPARTMENT CHAIRPERSONS: May 9- Budget carry overs are due in the office of Monica Montagnino. This is necessary if you want to spend grant monies in July. May 13 -- Purchase orders are due in the purchasing office. ...G. Matsoukas

Hodges (Cont'd from P 1)

it seems. Apparently, there was a terminal at the desk of a local sports announcer, and the story broke.

We hope that the resultant damage is only temporary, and that Tom and Bill working together can keep the premature release from shaking up the good work already done for next year in our basketball recruiting.

There are no villains in this piece -- except, perhaps, the unknown person who activated the grapevine. ... JK

PBJC North Awards Banquet

BJC North held its Annual "Awards Banquet" on Wednesday evening, April 13 at the Sweden ouse Restaurant in North Palm Beach. This event was sponsored by the PBJC North Student Activity Committee.

Fifty-three people were in attendance, including Dr. Eissey, Dr. Melvin Haynes, Dr. Ottis Smith, and Dr. Betty Woolfe.

Academic Awards were presented to the following PBJC North students: Joyce Neyland, Christine Wilson, Bernadette Upton, Patricia Melrose, Debra Moore, Suzanne Kaminske, Joan Wilson and Alice Memmen.

The Intramural Sports Award was presented to James Thacker.

PBJC North Graduating Sophomore Scholarships were presented to Michelle Sephes and the Phi Theta Kappa Scholarship was awarded to Deona Webster by Mrs. Marvita Davis of the Financial Aid Department.

Herb Johnson from the Palm Beach Blood Bank presented the "Blood Champs" Trophy to North campus. This is a rotating trophy given to the campus that donates the greatest number of pints of blood based on day student enrollment. North campus has won all three years since the program started.

Intramural awards were presented to Dr. Ottis Smith. Of four intercampus sports events in 1982-83, North campus placed first twice, second once, and first place overall.

The Student Activity Committee "Outstanding Service" Award was presented to Linda Scambler by John Jenkins.

In attendance were 1982-83 students of the month: Rene Planchard, Gail Norris, Lisa Nerio, Lisa Tebeau and Christine Wilson.

lso attending were the 1982-83 Student Activity Committee Performance Scholarship Recipients: Elizabeth Berger, Rene Planchard, Christine Hopkins, Lisa Soldovere and Debra Moore.

The committee presented the college with three lovely plants for the Student Affairs Building as a gift to the school.

A special thanks to all members of the Student Activity Committee for a job well done. Student Activity Committee members are: Robin Cannon, Nancy Woods, Ronda Sutton, Teresa Sapp, Cathy Wright, David Wildnick, Linda Scambler, Jeannette Hobby, Sharvell Becton, John Jenkins, Frank Barton and Alan Johnston. ...John Jenkins

Contact (Cont'd from P 1)

we hope that its publication will stimulate others who are readers of the Monday Report to come forward with suggestions, or photographs, or articles, that will be useful for future editions.

If you have never started a new publication, you are probably unaware of how much work is involved. Everything -- from type size and type face to where page numbers will go -- must be determined by someone.

The name was selected three times. The next-to-the-last name, LINK, was discarded only after it was pointed out that a drug rehabilitation program had already used that word.

After we decided College-Community Contact was a viable substitute, somebody was unkind enough to point out that Contact is what you give your cold to--but we have been steadastly ignoring that remark ever since.

We really want to hear from you after you have a chance to see our fully type-set, photograph-rich publication. If you like it, tell us. If you don't like it, tell us. If you think it is really great--tell Dr. Eissey. He's the one who kept working with us until we got it done. ... JK

May 9, 1983

Reasons In Tallahassee

Jenne: Florida Gets Failing Grade In Education

Calling education the "cornerstone of the future," and rallying for greater participation in government, State Senator Kenneth Jenne addressed 708 graduates of Palm Beach Junior College at the commencement ceremony May 4.

"With the exception of PBJC and a few other institutions, if you graded education in Florida, you'd have to give it a failing grade," Jenne said. "There are reasons for that, and unfortunately, they are in Tallahassee".

"When the State Legislature fails to fund secondary and higher education, there's something wrong with governmental orientation," he added, amidst loud applause at the Palm Beach Jai Alai Fronton.

The 1966 PBJC graduate encouraged the Class of '83 to adopt an "attitude of participation" both in their careers and in government.

"You must recognize you have an obligation to go forward in your chosen professions, but you also have an obligation to participate in the governmental process," he said.

"Our success as a nation depends on our willingness to give to others," he added.

Sen. Jenne also called for greater cooperation between business and education, citing Florida as "the golden state, the state of hope."

Cont'd on P 2

Camp Junior College June 13 To August 4

Palm Beach Junior College will offer an eight-week summer camp for children between the ages of six to 14, if the PBJC Board of Trustees approves the program at its May meeting.

"Camp Junior College" will consist of instruction in sports and special skills, multicultural and enriching activities, and guest presentations.

Scheduled for Mondays through Thursdays, 7:15 a.m. to 5 p.m., the camp will begin June 13 and end August 4.

The goals of the camp are to make learning fun, teach a variety of skills, and offer a community service while acquainting young people with the college, said Jennifer Mc Cormick, PBJC Women's Center Program Specialist.

The Women's Center, under the auspices of

Cont'd on P 3

Were You On Time?

If you got to work at 8 this morning, you were probably a half hour late. Most personnel went on the modified work week today, and can look forward to having Friday off, but will have to work longer Monday through Thursday.

Normal workday for 35-hour personnel will be 7:30 a.m. to 4:45 p.m. with a half hour for lunch. Personnel on 40 hours begin at 7:30 a.m. and finish at 6 p.m. with a half hour lunch. Sick leave and vacation are counted at 1 and 1/4 days. Ending date is Aug. 4. Have a good summer.

Skip A Week

The Monday Report will not be published next week. If there are real emergency items, they will be published in bulletin form, but the News Bureau crew sincerely hopes there are none. Along with a number of other offices, (see story page 3), we will be moving this week. Deadline for the Monday Report of May 23 will be May 18, 2 p.m.

Basketball Team Travels To Martinique

The PBJC basketball team will be the guests of the government of Martinique, West Indies for a week-long, all-expenses-paid sojourn.

The trip, which begins Saturday, May 14, will include playing Martinique's national team and the country's "Gold Star Team."

"The national team is the equivalent of our Olympic team, and the Gold Star team is the equivalent of the national AAU team," said Dr. Howard Reynolds, physical education chairman. "We are scheduled to play each team twice."

He said the Amateur Basketball Association arranged a game between PBJC and the Martinique Gold Star team, played last Fall at the college. The government of Martinique then invited the Pacers for a game on its home turf, part of an effort to build its sports program.

"This is a tremendous opportunity for these kids," Reynolds said. "A lot of them have never been out of the state of Florida."

Players who will be traveling include Brett Andrews, Cedric Andrews, Cedric Gray, Barry Fisher, Mike Guthrie, Danny Sheldon, Joe Braswell and Scott Blackwood. All played on the team this past season, except for Blackwood, who will be a freshman in the Fall.

The team will be accompanied by Reynolds, Tom Mullins, PBJC athletic director, and Dr. Melvin Haynes, vice-president of student affairs.

Retirement Luncheon

The annual luncheon for retiring faculty/administration took place on May 2, with four persons honored. Dr. Eissey acted as master of ceremonies and presented plaques to three of the four. Dr. Conley was not in attendance.

The retirees:

Ardata B. Ferguson, Senior Instructor, Communications, PBJC North, 1977-83

Winifred H. Huneke, Assistant Professor, Nursing, PBJC Central, 1967-83.

Dr. Cecil Conley, Provost, PBJC Glades, 1970-83.

Harriet S. McCann, Senior Instructor, Nursing, PBJC Central, 1973-83.

Graduation Speech (Cont'd from P 1)

"We must have a commitment to preserve the natural resources of our state....to reach out to our diverse population....and encourage business to move here," he said. "These elements will make Florida the number one state in the union."

"(Florida) can be the land of dreams come true if you are willing to work for it," he said.

After the commencement speech, Hamid Faquir, PBJC director of financial aid, presented students with scholarship awards. Special recognition was given to Margaret Payne, 65, who finished with a 4.0 grade-point average. She had started at the college at age 61.

Dr. Philip O. Lichtblau, chairman of the PBJC Board of Trustees, gave what he called "probably my shortest graduation address ever."

"PBJC is happy to have been of service to you," Lichtblau said. "We hope you will continue our association with us as alumni, visitors, or perhaps as college personnel."

Dr. Eissey conferred diplomas and gave each graduate a handshake as he or she filed across the stage.

The ceremony concluded with benediction by Father Christopher Stack of Sacred Heart Catholic Church in Lake Worth.

We Play Musical Chairs At PBJC Central

We are playing musical chairs at PBJC Central again, and like those detours when highways are being repaired, this latest series of changes should be viewed as a sign of progress. The occasion is renovation of the two classroom wings of the original buildings for the planned site of the Center for Personalized Instruction.

The two wings will be air conditioned and renovated beginning Friday, and CPI Math and Reading should be back in place for the Fall Term. Resulting displacements involve a number of offices moved to these wings during the years they were used as an administration annex.

New locations as listed by Dr. Graham are as follows:

Financial Aid, DP 213, 214, Spring and Summer, 1983.

Student Personnel, SS 002, 004, Spring, Summer, Fall, Winter, 1983-84

Duplicating, TE 02A, Spring, Summer, Fall, Winter, 1983-84

Grants, Research, LR 127, Spring, Summer, Fall, Winter, 1983-84

News Bureau, TE 024, Spring, Summer, Fall, Winter, 1983-84

Mr. R. Moss, BA 110, Spring, Summer, Fall, Winter, 1983-84

Mrs. Cannon, AH, Spring & Summer; CPI, Fall & Winter

CPI (Math), BA 115, Spring & Summer; CPI (Reading), BA 210 (Spring & Summer)

Humanities, LR 127, Summer

Telephone numbers and mail station numbers remain the same.

Camp Junior College (Cont'd from P 1)

the Continuing Education Division, will sponsor the program.

Sports instruction will include racquetball, tennis, softball, soccer, flag football, field hockey, volleyball, track and field, gymnastics, cheerleading, self-defense, and fitness trail.

In addition, the camp will provide instruction in skills such as journalism (a camp newspaper), music, art, health, safety, and first aid.

A wide variety of activities are planned: ethnic presentations, music and dancing, plays, reading, board games, tours of departments of the college, and guest lectures on the police, ecology, safety, bicycle repair, and others.

"Our camp will provide a T-shirt, milk and juice for each child," McCormick said. "They will bring their own lunches."

She said the camp directors will be chosen from qualified work-study students, and they will use a "big brother/buddy system."

"The buddy system approach in athletics will work as follows," she said. "The director will give instructions in technique, the counselors will work in small groups with the children, and the older campers will work with the younger ones, learning by teaching them."

Registration will open May 20, pending Board approval. The cost for the eight weeks is $240. Those interested are asked to pay at least a first installment of $120 on May 20, and the balance by June 6.

For more information about Camp Junior College, call the Women's Center, 8014.

Faculty Member & Basketball Coach: Posit requires a master's degree in Physical Education for P.E. vacancy. (Basketball coach with qualifications in another field may be assigned to another position vacancy)
Interested applicants should contact the Director of Personnel. ...J.M.Schneider

International Festival

Reports from the International Festival last weekend are all positive. Estimates on attendance at the three-day affair ranged from 10,000 to 15,000 persons on campus. Entertainment was better organized. Sales were good in booths, and some food items had to be replenished several times. The only problems are those brought on by success, and planning will begin soon on logistics for next year.

Happy Birthday To . . .

PALM BEACH JUNIOR COLLEGE
PBJC MONDAY REPORT

Volume V, Number 30 May 23, 1983

Expenditures of $28,581,637

Trustees Approve 1983-84 College Budget

Expenditures of $18,250,243 in general funds and $10,331,394 in building funds in 1983-84 were forecast in a budget approved Wednesday evening by the Palm Beach Junior College trustees.

The operational budget is about 10.7 percent higher than a year ago. It contains no general salary increases, but does provide for annual increments.

There is also provision for 11 new positions, all but two at the rapidly growing PBJC North and South campuses. The new positions carry a price tag of $234,458.

Two-thirds of budgeted expenses are for instruction and student services, and the other third for physical plant and institutional support.

Personnel costs make up 76 percent of the operating budget, current expense 20 percent, and equipment 4 percent.

Almost two-thirds (66 percent) of funding is from the state, 29 percent from student fees and 5 percent from other sources.

In presenting the budget, Dr. Eissey pointed out that the percentage of state funding has been decreasing each year, while student fees have been increasing.

Another item on the agenda, final passage of a board rule changing student fees from $18 to $19 per credit hour, added emphasis to Dr. Eissey's remark.

The only really sure thing about the budget is that it will be revised to take into account the action of the legislature after state funding levels become law.

The trustees discussed a measles immunization program requested by the health department, but decided to study the matter for another month before taking action.

Cont'd on P4

Enrollment Up 13.5 Percent

Enrollment in the Spring Term at Palm Beach Junior College jumped 13.5 percent above last year's Spring Term, with increases at all four campuses.

There were very large increases in student numbers at PBJC North (25.9 percent), and PBJC South (26.9 percent), with more modest gains at PBJC Central (8.3 percent) and PBJC Glades (1 percent).

Overall numbers showed 6,322 students, with 3,414 at PBJC Central, 1,088 at PBJC North, 994 at PBJC South and 384 at PBJC Glades.

The trend toward larger gains at PBJC North and South is even more apparent when the enrollment is considered from the viewpoint of total number of semester hours.

At PBJC Central there were more students taking fewer hours, so there was a decline of 1.4 percent from a year ago. PBJC Glades held almost exactly even.

But at PBJC North there was a dramatic increase of 37.2 percent, and at PBJC South, a large increase of 21.9 percent.

The Spring Term is a six-week term followed immediately by the Summer Term, a second six-week term, with classes beginning this year on June 22.

Enrollment in the Spring Term is a bit less than half that of the Fall and Winter terms, which begin with about 13,000 students. Summer Term enrollment is traditionally about half that of the Spring Term.

Chairperson Assignments

Spring and Summer assignments as Chairpersons and Acting Chairpersons have been announced by Dr. Paul Graham. They are as follows:

ART - Reuben Hale, Spring. Otis Harvey, Summer.

BUSINESS - Dr. Paul Graham, Summer. Ann Steckler, Summer.

CENTER FOR PERSONALIZED INSTRUCTION - Richard Travis, Spring. Dr. Paul Graham, Summer.

COMMUNICATIONS - Watson B. Duncan, III, Spring. Dr. Paul Graham, Summer.

CO-OP - Dr. Naomi L. Conley, Spring.

CRIMINAL JUSTICE - Joseph Macy, Spring, Summer

DENTAL HEALTH SERVICES, Dr.L.James Flatley, Spring, Summer.

ENGINEERING TECHNOLOGY - Ruth W. Wing, Spring. Jennings B. Rader, Summer

HEALTH & HOME EC - John W. Schmiederer, Spring, Summer

MATHEMATICS - Ruth W. Wing, Spring. Jennings B. Rader, Summer.

MUSIC - Letha M. Royce, Spring. Otis Harvey, Summer

NURSING - Betty Morgan, Spring. John Schmiederer, Summer

PHYSICAL EDUCATION - Dr. Howard Reynolds, Spring. Robert Moss, Summer

SCIENCE - Dr. Paul J. Dasher, Spring. John Schmiederer, Summer

SOCIAL SCIENCE - Dr. Samuel S. Bottosto, Spring. Dr. Paul Graham, Summer

Energy Savings

Palm Beach Junior College has received a letter of commendation from Governor Bob Graham for the energy management program at the college.

In a letter to Dr. Eissey, the governor commended savings of $261,562 since 1973 in cost avoidance in electrical consumption.

He pointed out that the savings were realized even though the college was faced with considerable expansion of physical facilities and a 288 percent increase in electrical cost.

The governor's letter specifically mentioned Claude Edwards and Ed Cassidy for the efforts in making the savings possible.

"You can be proud of this achievement," the governor wrote. "Your success serves as an example of what can be accomplished in energy and utility savings through dedicated commitment."

Collective Bargaining

A collective bargaining meeting between Palm Beach Junior College and the United Faculty of PBJC scheduled for May 12 has been postponed until May 31, 3 p.m. in the Parks and Recreation Building in John Prince Park.

Conflicts in the schedules of attorneys representing both sides were responsible for the delay.

Happy Birthday To . . .

5/23 Mary Taylor, Paul Cassidy 5/24 Mildred Hinkle, Remer Young 5/26 Neal Jay, Marie Roberts 5/27 Milt Thomas, Iris Rios

Letha Madge Royce Is Retiring

Palm Beach Junior College will sing a chorus of goodbye at the end of June when the founder of the college's music department retires after 34 years of service.

Letha Madge Royce, the music department's first chairman, started at PBJC in 1949 with one staff person--herself. She built the music program to include six full-time instructors and eight part-time faculty members in 1983.

In the early years, when the college was at Morrison Field (now PBIA), she had to borrow equipment and buy sheet music herself.

"We had one borrowed piano from Brubaker's Music Store, and the Lake Worth Sorosis (Club) donated a record player," she said.

"Now, we have very fine sound equipment, a piano lab with 17 electronic pianos, and 33 other standard pianos," she added.

In addition, the department is in the process of acquiring Plato, a computerized system for music study, and TAP, a system for rhythm study.

But she does miss some things about the "good old days."

"We had so much school spirit then," the former Lake Worth High School teacher recalled. "When Morrison Field was reactivated for the Korean War in 1951, the students and teachers worked together to prevent the closing of the college."

"We had a parade, and I remember getting called in because the students used our glee club robes on one of the floats," she said.

The robes were an endowment from Dr. John I. Leonard, PBJC's first president.

"Whenever he (Dr. Leonard) gave a speech, the choir always went along," she said. "He hought it would make good publicity for the college."

Retirement will not find Royce idle. She is a woman with many hobbies, and participates avidly in all of them.

The musician has already made plans to travel to Red China, one of the few places overseas she has not seen. Stateside, she'll be visiting Yellowstone National Park this Fall.

A gardening enthusiast, she grows name-variety roses and other flowers which require daily care. She also does needlework, and is a devoted football fan. (She went to the Super Bowl in Los Angeles last year).

"I love the Miami Dolphins. I've got seats right on the 50-yard line," she said.

Her other activities include playing the organ at Lake Worth Christian Church, acting as president of the Soroptimists of the Palm Beaches, and serving as associate matron of the Order of the Eastern Star.

Lake Worth High School Memorial

Some of our faculty and staff have become involved in a project at Lake Worth High School to honor students and teachers who gave their lives in World War II, Korea and Viet Nam. The memorial will have a 60 foot flagpole and granite marker, plus 50 foot flagpoles for state and school flags and landscaped grounds.

The committee, which is being headed by our own Jeanette Sanders, is also asking help in compiling a complete list of LWHS students or teachers who should be named on the memorial. tudents need not have graduated.

If you can help, get in touch with Jeanette, or with Payge Dampier, who called this worthwhile effort to our attention.

THIS Week . . .

May 23-26	Registration of currently-enrolled students for Summer & Fall terms

Personals . . .

Dr. Barry Russal will be one of the featured poets at the Symposium of the South Florida Poetry Institute at Broward Community College South Campus, Saturday May 28. The symposium begins at 9:30AM, and Dr. Russal will be reading between noon and 1PM.

A son, William Bryant, was born April 28 in Good Sam Hospital to Janette Campbell. Both mother and son (8 lbs.,8 ounces) are home and doing well. Janette plans to return to the Glades campus for the Summer Term. Our best wishes to the family.

Announcements . . .

In the recent Math Olympics, the PBJC team placed seventh out of 18 teams, and one member, David Sigler, placed fifth out of 75 in the individual competition.

The following classified positions are open:
Department Technicians (North Campus) 180 day position and one full time grant position, Salary Grade A23, $873.34 per month
Dental Clinician (Dental Health) 10½ month position, Salary Grade A22, $851.34 per mo.
Painters (Physical Plant) Salary Grade B28, $6.523 per hour
Groundskeepers (Phys. Plant) Salary Grade B16, $4.84 per hour
Interested applicants should contact the Personnel Coordinator. ...S. Carton

The Seventh Annual Classified Employees Recognition Luncheon will be held Thursday, July 7, at 12 noon in the Central campus cafeteria. Anyone interested in working on the Luncheon Committee, please call Nancy Buhl at 8090 or Shelley Carton, 8017.

PTK Honors

Francis Barton and Allen Hamlin received signal honors at the 65th National Convention of Phi Theta Kappa, held recently in Kansa City, Mo. The two faculty members were named to the 1983 Hall of Honor for Sponsors, and were among only 12 chosen from about 1,000 PTK sponsors in the nation. Hamlin was also one of three sponsors who received a National Sponsor's Award, which includes a scholarship to the PTK Honors Institute in New York City.

Anniversaries . . .

On May 17, the Library staff at the North Campus celebrated a special anniversary. One year ago, the book collection was moved box by box to the North Campus site. The year has been a busy and rewarding one. To mark the occasion, Mrs. Ruth Dooley, Ms. Alice Zacherl, Debbie Jackson and Henrietta Caldwell served punch and cookies in the library, to administration, faculty, staff and students.

Trustees (Cont'd from P 1)

"We have to do something," said Dr. Philip Lichtblau, board chairman, "but it would an enormous job if we make immunization ma-datory."

In other actions the board:

Approved an 8-week day camp program, "Camp Junior College."

Approved a new Respiratory Therapy Program to be initiated between July 1, 1983 and Jan. 1, 1984.

Authorized the president to award the bid to the best and lowest bidder for the Library/Academic Labs building at PBJC North, with board confirmation at the June meeting.

All-Americans Named

Three PBJC tennis women were named to the All-American squad last week after the NJCAA tournament in Ocala.

The All-Americans are Elisabeth Pierre, Libby Locke, and Jane Fletcher. To be chosen as an All-American, a player must place either first or second in the nation in a particular division. Fletcher placed first in Divisi III, and Pierre (Division I) and Locke (Division II) placed second.

PALM BEACH JUNIOR COLLEGE
MONDAY REPORT:

Volume V, Number 31 May 30, 1983

We Can Be Proud

Early March CLAST Scores Are Here

The March CLAST scores are in, and even though we do not yet have state scores for comparison, we are already celebrating in communications, and a bit concerned in computation.

Women's Golf Team Wins National Title

The PBJC women's golf team beat Scottsdale (Arizona) Community College by eight strokes to capture its second national title at the NJCAA tournament held May 17-19 at the Atlantis Country Club.

The Lady Pacers finished the tourney with a three-day, 54-hole total (best two out of three plays) of 467. Scottsdale had 475, and Broward Community College, the only other team competing, finished with 488.

PBJC shot out in front on the first day of play, leading Broward by six shots after the first round. Kris Hnat, a sophomore who transferred from Duquesne University at the start of the Winter Term, set the pace by shooting a three-over par 76. Freshman Leslie Kintz, a graduate of Cardinal Newman High School, placed third on the first day with 79, and Martin County High graduate Dana Leighton followed with 87.

Cont'd on P 3

CAMP JUNIOR COLLEGE

You can give your six to 14 year-old an experience he will always remember--Camp Junior College. The cost is only $240, or $1.30 an hour, for the 8 weeks (June 13 - August 4)

Camp Junior College is limited to 40 children, but there are still some spaces available. PBJC employees have priority, but after June 1, registration will be opened to the public. To reserve a space for your child, call Jennifer McCormick at 8181 now.

Compared to our own October results, Reading went from 299 to 302, Writing soared from 299 to 306, and Essay mean scores rose from 4.6 to 4.8. Computation dropped from 294 to 292.

Since our scores back in October were the best in the southeast, and higher than state community college averages, the better scores in March will almost surely keep our high ranking in the new test series when state results are announced.

Once more we can be proud of our students and those who taught them.

The March tests were bigger, with 691 students taking the test compared with 345 in October.

A surprising feature of the March results is that AS Degree students scored higher than AA Degree students in communications--backwards from the first test results local and state-wide.

Females again scored higher in communication and lower in computation than males.

The disparity between Whites and minorities continued unabated, and, if anything, deepened in the March test over the October results.

This fact makes a committee just being appointed by Dr. Eissey one of the most important in recent years. It also makes the task to be performed by the committee--setting passing grades on CLAST--a matter of great difficulty.

The committee will be set up along guidelines provided by the Commission of Education, and will have

Cont'd on P 4

We Win Four Out Of Four In Martinique

The PBJC basketball team was the guest of the government of Martinique, West Indies.... They beat their hosts four games out of four.

The trip, which lasted from May 14-21, was an all-expenses paid sojourn, compliments of the Martinique government, and included playing the island's Golden Star, national, and Trinte teams.

"The national team is the equivalent of our Olympic team, and the Golden Star team is the equivalent of the national AAU team," said Dr. Howard Reynolds, physical education chairman. "The Trinte team is from Trinte, the second largest city on the island."

The results of the four games were as follows:

-Sunday,May 15 Pacers 102 Golden Star team 97

Highest PBJC scores were Danny Sheldon (20) Mike Guthrie (19),Joe Braswell (19),Cedric Gray (18).

-Tuesday, May 17 Pacers 122 Trinte 79

Highest PBJC scorers were Barry Fisher (24), Joe Braswell (20), and Cedric Gray (20).

-Thursday, May 19 Pacers 113 National team 100

Highest PBJC scorers were Mike Guthrie (32), Joe Braswell (24), Barry Fisher (21) and Cedric Gray (16).

-Friday, May 20 Pacers 95 Golden Star 92

Highest PBJC scorers were Danny Sheldon (31), Mike Guthrie (20), Joe Braswell and Barry Fisher, both with 12.

Reynolds said the Amateur Basketball Association arranged a game between PBJC and Martinique's Golden Star team, played last Fall at the college. The government of Martinique then invited the Pacers for the games on its home turf, part of an effort to build its sports program.

Urban League And PBJC Aid Underprivileged Youth

Palm Beach Junior College and the Urban League of Palm Beach County will team up to offer two special experiences for underprivileged youths this summer.

For the third year, an educational program for 14-15 year-olds and an employment program for 16-21 year-olds will be offered at PBJC.

"In the summer employment program, PBJC works with the Urban League to place these young people in different job slots on campus," said Dr. Mel Haynes.

"The educational program focuses on basic academic skills such as reading, math and English, employability skills--interviewing, resumes and so on--and interpersonal skills," he added.

Haynes said each participant earns money while attending school, and is obligated to develop a savings plan by opening an account at a local bank. Thus, the student learns how to manage finances.

Besides PBJC, there are about three or four other sites in the county where these services will be offered. "We try to makes their experience at PBJC special because of the resources that are available here and not at the other sites," Haynes said.

- - - - - - - - - - - - - - - - - -

REMINDER -- The Seventh Annual Classified Employees Recognition Luncheon will be Thursday, July 7, 12 noon in the Central campus cafeteria. This year, the Personnel Office will be issuing admission tickets to those attending the luncheon.

Dental Hygienists Score 100 Percent On Nationals

ational Board examinations for dental hygienists have been passed by every student from JC, according to Dr. James Flatley, department chairman.

"We were very pleased to learn that all 36 students in this year's class were successful, and that our average score of 87.5 exceeded the national average," Dr. Flatley said.

A passing score on the national boards is necessary before a dental hygiene student can take state board exams necessary for licensure, he explained.

The 100 percent passing score is not unprecedented, but is unusual.

"This is a real tribute to the staff and students," Dr. Flatley said. "It has been an excellent class, and both staff and students volunteered for extra sessions to study for the nationals."

"It is obvious that the extra work paid off."

First Anniversary For Cultural Arts Center

The Dolly Hand Cultural Arts Center at PBJC Glades marked its first anniversary in April, noting a successful first year.

The 500-seat auditorium, constructed at a cost of $2 million, was a joint effort between the college, local and county government, civic and community groups, and local industry.

Since its dedication, it has housed over 44 events, including operas, plays, and feature performances, and played to over 14,000 people. The first program staged at the Center, a Sweet Adelines concert, attracted an audience of about 300 people.

"One of the things we were very pleased about was that in the beginning, the children did not ow how to appreciate the theatre. By February, they had learned how to be a good audience," said Judy Schiele, center director.

Our Alumna -- A Perfect 4.0

Diane Richard Allerdyce, daughter of Mr. and Mrs. Victor C. Richard of Boca Raton, was one of two recipients presented with FAU's Kenneth R. Williams Endowment Awards of $1,000 each during the University's Spring Commencement Convocation held April 29. The award was given to our alumna for outstanding scholastic achievement.

The awards, established in 1973 to honor former FAU President Williams through a $50,000 endowment fund, are presented to two seniors receiving their baccalaureate degrees during the academic year. The second award is given for leadership qualities.

A Delray Beach resident, Allerdyce graduated from PBJC and maintained a perfect 4.0 grade-point average at FAU. She received a bachelor of arts degree in English last Fall. After completion of her thesis, she will be awarded a master's degree from FAU at the end of summer term.

Women's Golf (Cont'd from P 1)

On the second round, Hnat shot 77, Kintz had 76, and Leighton shot 85 to retain a 14-stroke lead over runner-up Scottsdale and a 19-stroke lead over Broward.

Hnat fell to a seven-over par 80 on the third day, tying with Broward's Sue Smith for medalist honors. Smith won first place on the first hole of a playoff.

Kintz shot a 79 in the third round, and faced Scottsdale's Jean Tenhulzen in a playoff r third place. Tenhulzen won the playoff on the second hole. Leighton finished eighth with a score of 88 for the third day of play.

Because a great many junior colleges have dissolved their women's golf teams, this year's tournament is expected to be the last championship of this type. Hence, PBJC will probably not have a lady's team next season.

THIS Week. . .

May 31	Collective bargaining meeting; 3PM, Parks & Rec. Bldg., John Prince Park
June 2	Pay Day!!!
June 4	CLAST Test; 7:45AM, SC104, Glades; 7:45 AM, Rms. 201-203 North; 7:45AM, CJ5-6, Col. Aud., AH Aud., CE Aud., Central

Personals . . .

Dr. Constantino Colombo and his wife, Silvana, are the proud parents of a new baby boy named Russell Anthony. Their first baby was born May 6, and weighed 6 lbs., 9 ozs. Congratulations!

Our own Frank McLaughlin has been honored by FACC for his work as a judge in the exemplary practices awards committee for the Student Development Commission, and he has a handsome plaque to prove it. His committee recently narrowed 17 entries down to the six finalists who will make their presentations at the state convention in the fall.

Announcements

Thomas Papino from University of Miami will be on Central campus Wednesday June 1 from 9AM-1PM to recruit students in the cafeteria. If you have any questions, please call Gail Tomei, 8057.

The deadline for submitting agenda items for the Trustees meeting is Monday, June 6, 10:30AM.

During the modified work week, Monday Report deadline is Wednesday, 2PM.

CLAST (Cont'd from P 1)

representation from the community and from different segments of college life, as well as ethnic balance.

So far, the only appointments are Dr. Graham as chairman and Don Cook as a resource person.

Our local committee will be duplicated at all colleges in the state, and a statewide committee, appointed by the commissioner, will consider the local results and make final recommendations.

It is obvious that setting the passing score too high would turn the junior and senior years of college into an elitist, mostly White enclave, certainly not representative of our total society.

It is equally obvious that setting the passing score too low would make the test meaningless.

Serving on the committee will require time, and energy, and patience. It will also be a rare opportunity to make a contribution to both higher education and the state of Florida in a matter of great significance.

If asked to serve, we hope you will give it your best. ... JK

Help Us With Second CONTACT

We are preparing a second issue of Contact, to be devoted largely to getting ready for the Fall Term. If you have classes you wish highlighted, or other items of general information to the public, please contact the News Bureau -- 8076 -- mail station #25. We also need small items for Did You Know, and these can be almost any facts you think should be better known.

It appears there will be a few hundred copies of the first Contact left over from the initial distribution. If you can use them, call us.

Happy Birthday To . . .

PALM BEACH JUNIOR COLLEGE
PBJC MONDAY REPORT:

Volume V, Number 32 June 6, 1983

$2,500,000 Item

PBJC North Building Listed In House PECO Bill

From Tallahassee last week came news that a $2,500,000 Student Services Building at PBJC North was listed in House Bill 1343, Public Education Capital Outlay, (PECO). The news was in two lines of type in the middle of a rather long story in one newspaper, and it created no great furor in the general public.

Even within the college community, where the need for such a facility is well known, there is a tendency on the part of some to take this kind of news for granted.

To those of us who knew the impossible odds facing Dr. Eissey when he went to Tallahassee two weeks ago, the news was electrifying.

What he faced was a situation where money was so tight only a few projects could be funded. Every legislator has his own pet project, or several of them. PBJC projects had not received the backing they deserved from the state division. Lobbying by many other institutions was much more extensive and better funded than ours.

Oddsmakers would have given 100 to 1, or higher, against any chance of success. Indeed, Dr. Eissey told his staff Tuesday morning he was able to obtain promises from senators that they would not oppose a PBJC item in the House Bill largely because nobody believed he could get it in.

But, like magic, there was our Student Services Building.

It may have looked like magic, but it wasn't. Months of hard work, carefully laid plans, help from our many friends in the area, letters to legislators, telephone calls at the strategic moment--all capped by Dr. Eissey's personal effort on the spot--none of that is magic. In this business, even a lucky break

First Graduation For Volunteer Directors

Graduates of the only sequential course of learning in volunteer management available in Florida received certificates from Palm Beach Junior College during an all-day seminar May 24 at Northwood Institute.

The new PBJC program is a joint venture with the Directors of Volunteer Services of Palm Beach County (DOVS), and has been honored by the National Association for Volunteer Administration as a pilot program for other states.

The program is primarily for people who are already working as directors of volunteer services, but could also be used as training for those contemplating such a career, according to Margaret A. Hunter, Professional Education Chairperson for DOVS.

Mrs. Hunter, who is Fifth Region Liaison for AVA, said there have already been inquiries from other Florida colleges who wish to develop similar programs in the fast growing field of professional volunteer management.

There were eight persons receiving certificates in the first class, and all had completed the five course sequence. One, Bonnie Dunn, Director of Volunteers and Community Services at Riviera Beach, completed six courses, going back through one course a second time when new material was added.

Keynote speaker for the seminar was Winifred rown, executive director of the Office of Volunteer Action of the mayor of New York City.

Brown, who is credited with organizing

Dental Hygiene Students Receive Awards

The Dental Hygiene students at Palm Beach Junior College received commendation from the Florida Dental Hygiene Association at that organization's annual convention held May 18-23 in Orlando.

PBJC won the FDHA "Outstanding Community Project" award for a health fair held in conjunction with Palm Beach Gardens Hospital last September at the Twin City Mall.

Both the first and the second-year classes participated in the program, which featured a Tooth Fairy,an awarding of toothbrushes, and instruction in oral health care for children and parents.

In addition, the FDHA awarded its "Student Leadership Award" to Mary Ellen Tuzzola, a May PBJC graduate.

Collective Bargaining

Negotiators for Palm Beach Junior College and the United Faculty of PBJC will meet Wednesday, June 8, 4:30 p.m., in the office of Jeff Pheterson, chief negotiator for the union, 3003 South Congress Avenue.

The meeting will be the third in the current round of negotiations. The college is expected to continue its response to a list of union demands presented at the first meeting.

Volunteer Directors (Cont'd from P 1)

a large volunteer program which helped save New York from bankruptcy, now heads a program with over 200,000 volunteers, 60,000 in the police department alone.

Certificates were presented by Betty Woolfe, PBJC North Continuing Education Coordinator, who was assigned by the college to aid Mrs. Hunter in developing the program.

Otis Harvey, Director of the PBJC Division of Continuing Education, said the program is the first Certificate program at the college with non-credit courses involved. The decision to keep the courses non-credit allows greater flexibility in course content.

Others receiving certificates were: Carol Faustmann, Volunteer Coordinator for United Way Agency, West Palm Beach; Rosie Marie Gaglio, Director of Volunteers, Morikami Museum, Delray Beach; Ruth Hokit, Program Director, The Convalescence Pavilion, Martin County Medical Center, Jupiter.

Patricia McKenna, Director of Volunteers, St. Mary's Hospital, West Palm Beach; Margaret Ann Parker, Safety/Youth Coordinator, American Red Cross, Boca Raton; Pat Sim, Coordinator of Volunteers, American Red Cross, Boca Raton, and Mrs. Hunter.

PBJC North Building (Cont'd from P 1)

won't help you if you are not ready to capitalize on it.

The listing on the House PECO bill does not assure us of a building. Far from it. The item must survive the struggle between House and Senate to reach agreement, and must be signed into law by the governor before we can be assured of the building we need.

It is too early to celebrate a building, but it is not too early to thank everyone who has helped us get this far. These successes are a team effort, and everyone needs to get involved.

.... JK

Golden Anniversary Events Calendar

Advance work for the Golden Anniversary Celebration has been going on for months, with a number of committees working on various projects. Recently, however, the pace has quickened, and we are beginning to zero in on projects that were merely ideas at one time.

The list of events on page 47 of the new catalog was up to date as of last December, but there have been some changes, and there may be more in the future. Just to see that you are kept up to date, the following list is the best information we have as of today.

50TH ANNIVERSARY CALENDAR
1983-1984

1983

Friday, October 14	PBJC South - All Campus Sports Day
Saturday, October 22	Kick-Off Dinner Dance Breakers Hotel, 6:00 p.m.
Thursday, November 3	PBJC Glades - Sports Day
Sunday, November 6	PBJC Central - Open House
Sunday, November 13	PBJC Glades - Open House
Thursday, Friday, Saturday November 17, 18, 19	PBJC Central - Music Department Show
Saturday, November 19	PBJC North - Community Picnic
Friday and Saturday December 2 and 3	PBJC Glades - Theater Production

1984

January 26 - February 5	South Florida Fair
January	PBJC North - Burt Reynolds Dinner Theatre Dedicated to Anniversary
January - February	PBJC South - Coordinate with local merchants, slogan on bags and tray placements at fast food outlets
January 11 - February 19	PBJC South - Jubilee 1982 A National Photographic Competition
Sunday, February 5	PBJC South - Open House
Sunday, February 26	PBJC North - Open House
Sunday, March 4	PBJC South - Picnic - Good Government Day, students and staff host the public
Thursday and Friday, March 8 and 9	PBJC North - Industry/Business Fair County Malls
Friday and Saturday March 30 and 31	PBJC Glades - Poetry Festival
Friday, April 6	PBJC Glades - Music Department Show
Friday, April 27	PBJC North - Tree Planting Ceremony
May	PBJC South - Ground Breaking Ceremony, 10:30 a.m.
Tuesday, May 8	Commencement
Monday, May 14	Golf Tournament and Roast, Atlantis Country Club
Sunday, May 27	PBJC Glades Barbecue

THIS Week . . .

June 6-9	Early registration for new/returning evening students
June 7	Deadline for regular admission, Summer Term

Announcements

Since the last work day for the fiscal year is Thursday, June 30, we would like to request that the payroll attendance sheets be submitted to the Payroll Office by 9:30AM on June 29th. It will be necessary for each department chairman to estimate time of their employees for June 29 & 30. Your cooperation in this request will be greatly appreciated and should permit the payroll checks to be prepared on time for distribution. ...T. Tate

The following classified position is open:
Receptionist Clerk I (North Campus) Part-time position, Salary Grade A14, $4.60 per hour.
Interested applicants should contact the Personnel Coordinator. ...S.Carton

Humanities Building is being re-keyed starting the week of June 6th. New keys will be issued after Wednesday, June 8th. Please stop by the Inventory Office to pick up your new keys. ...M.A.Reasner

Personal

Dr. Jo Turk was the recipient of the National Endowment for the Humanities Post Doctoral Fellowship to attend an eight week summer seminar at the Univ. of Calif. at Berkeley. The subject: The English Novel.

FACC News

At FACC Student Development 1983 Spring Conference, Ron Moses received an award from Region V for his outstanding contribution t the Student Development Task Force. The meeting was held in Gainesville May 17, 18, and 19. Gail Tomei, counselor with a special interest in the needs of the handicapped, also attended the Spring Conference.

Alice Carlisle and Jeanette Sanders attended the FACC Career Employee Commission Conference in Sebring on May 13. The Conference program included information on high technology and how these changes are affecting the career worker. ...G. Matsoukas

Case Of The Missing Microwave

If anybody out there has a microwave oven they are not using, Continuing Education needs one for about four weeks--or maybe for longer if you want to donate it to the college.

Wednesday night our Microwave Cooking class had to be postponed for a very good reason: no microwave. Earlier during the day, someone had stolen our Home Ec microwave.

Several methods for continuing the class have been suggested and are being explored but year-ending budgets are almost wiped out. If you can help, call John Townsend, 439-8011.

Computers Donated

The Monday Report has learned from the minutes of a PBJC North Faculty meeting that the First American Bank & Trust has donated $48,000 worth of computer equipment to North, including a Lanier and a Texas instrument computer.

We'll let you know more as soon as the secretive people at PBJC North tell us about their good fortune.

Happy Birthday To . . .

6/06	Richard Decker
6/07	John Schmiederer, Jan Bussell
6/08	Lucile Dickinson, Loraine Kent Addie Elam
6/10	Sunny Meyer, Dot Suttle, James Hutchins, Wayne Debee
6/12	Sue Frazier, Joseph Van Reeth

PALM BEACH JUNIOR COLLEGE
PBJC MONDAY REPORT

Volume V, Number 33

June 13, 1983

Shannon R. Ginn - $4,214,601

Library/Academic Labs Building Now Under Contract

The Library/Academic Labs building at PBJC North is under contract, and barring delays, a year from now we will be moving our library and preparing to expand into science labs.

The successful bidder was Shannon R. Ginn Construction Co., of North Palm Beach, and it's nice that a neighbor was low bidder.

There was an unusual bit of drama in the bidding, May 31. At five minutes before deadline, there were so few bids in that Dick Jones began to wonder if something was wrong with the bid, or with the industry.

SEVEN BIDS

But at bid time there were seven entries. Two additional bids were a few minutes late, but we have never subjected ourselves to the legal entanglements you can get into by accepting late bids, and we did not do so this time.

Shannon R. Ginn's base bid of $3,449,500 was just a little more than 10 percent lower than the high bid, and only $8,500 below the next low. That is close and competitive bidding.

NINE ALTERNATES

The project had been bid with nine alternates, so there would be a number of ways of fitting the bid together with available funds. As it turned out, we were able to contract for all except one of the alternates, (curbing for some parking lots), at a total price of $4,214,601. Dr. Eissey was able to sign contracts, and to get the 365 days of the contract running almost immediately because the trustees voted in the May meeting to allow the contract to go to the lowest and best bidder, with confirmation to follow at the June meeting.

As those of us in the college community know, the building was made possible by

Cont'd on p 2

Computer Consultants Report To Trustees

Recommendations as to the computer future of Palm Beach Junior College will be made to the board of trustees at the June meeting, Wednesday, 7:30 p.m., in Conference C at PBJC Central.

The trustees will hear a report from Claire Reid of System Computer Technology Corporation. The corporation, a consulting firm, recently conducted a survey of current computer capability and projected needs at all four PBJC campuses.

Tom Mullins, Athletic Director, will review the 1982-83 athletic program for the trustees.

The 1983-84 college catalog will be presented for approval.

Two board rules, discussed previously, will be up for final adoption.

Dr. Eissey will bring the board a recommendation on an immunization for measles policy, an item discussed for the first time at the May meeting of the board.

Eight items on the business affairs agenda and nine listed under construction and development are primarily concerned with adjustments to budgets and change orders in connection with ongoing construction projects.

Four bid items are up for approval and one for confirmation.

No charge for silk tassel (unless retained). Designate gold tassel for Doctors. ..R.Brofft

Building (cont'd from P 1)

a $4.75 million appropriation voted by last year's legislature.

TWO STORY BUILDING

It will be a two-story building, with the library and a large meeting room, called a choral lab on the plans, on the first floor. Labs for chemistry, biology and physics on the second floor as well as a general art lab, AV studios and a television studio.

Two additional parking lots are part of the project.

Location will be 270 feet south of the present classroom building. An additional classroom building between these two buildings is on the master plan.

Collective Bargaining Sessions Continuing

The fourth in the current round of collective bargaining meetings has been scheduled for Wednesday, June 15, 3 p.m. in the office of Jeff Pheterson, chief negotiator for the United Faculty, at 3003 Congress Avenue.

The first meeting, April 21, consisted primarily of presentation of a number of union proposals. The two subsequent meetings have been involved with answers to these proposals, and with some proposals from management.

The June 15 meeting is expected to continue that process.

A CADAPPLE For The Teacher

Computer Aided Drafting (CAD) Comes To PBJC

ne of the latest applications of high technology is computer-aided drafting (CAD), and now, PBJC's Engineering Technology Department has it.

The PBJC CAD Lab, the first of its kind in the state, has four units or "systems." The CADAPPLE hardware (terminal, keyboard, components) and software (programs) are manufactured by Apple Computers, Inc., and cost about $39,000.

According to Robert Book, engineering faculty member who developed the CAD course, that money is well-spent.

"Some schools spend up to $60,000 for one big system that handles only one student at a time," he said. "We thought it would be better to buy four smaller units that would teach the basics to more students at a time."

He said half the funds for the system came from a state grant, and the other half came from millage monies.

CAD can be used to teach drafting for any field of engineering: mechanical, electrical, architectural, or civil.

Instead of sitting at a drawing table using a T-square and drafting machine in the old-fashioned manner, a student using CAD draws with the computer.

"The computer draws the geometric figures and does the printing," Book said. "The memory is a big advantage, because anything used repetitively can be called up and changed very easily."

"The quality of the drawings is far superior," he said. "They are more accurate and uniform."

CAD saves time too....it is four to 12 times as fast as old-fashioned drafting, depending n the complexity of the drawing.

Computer illiterates need not worry. A background in computers is unnecessary because CAD is used only as a tool in drafting. Students will, however, have to take the pre-requisite course in "Engineering Graphics" before starting on the more sophisticated system.

"Students still need to know drafting principles," Book said. "So, we won't be burning our drawing tables yet."

Understandably, CADAPPLE became popular quickly at PBJC. Throughout the Spring Term (when it was introduced), the Lab had a steady stream of visitors during the four hours it was open each morning.

Two sections of the CAD class have been planned for the Fall Term, and Book sees no problem filling the classes.

"The need is there for training in high technology," he said. "We'll have all of our returning students back in the Fall, plus we'll be doing the CAD training of engineers at Florida Power & Light, Pratt & Whitney, and a number of smaller companies."

"We're already hoping to expand the Lab," he added.

Announcement . . .

To prepare for the closing of our books, June 23rd will be the cut-off date for Petty Cash Purchases. Any purchases reimbursed after this date will be charged to the 83/84 fiscal year.

Personals . . .

Sarah Pappas was recently elected to serve as Chairman of the Council of Instructional Affairs for the 1983-84 academic year. This council is made up of academic deans and vice presidents of Florida's 28 community colleges and makes recommendations to the Council of Presidents and various other state organizations. The council's objectives for the upcoming year will include recommending action on the CLAST, high school/community college articulation plans, and reviewing the status and structure of vocational education. Dr. Pappas is the first woman to be elected Chairman of this group. Questions? Call Sarah Pappas at 622-2440, ext. 256.

Dr. Barry Russal was one of three featured poets at the "Poetry on Sunday" program June 12 at the Cashel Center for Psychology and the Arts in Lake Worth. Dr. Russal read his own original work, which touched on many different subjects.

Personals (cont'd)

One of our own alumni, Tom Holloway has been honored by The Upjohn Co. for outstanding achievement in sales for 1982. He is one of 17 individuals recently named as repeat winners to the company's Agricultural Division Sales Academy. Holloway, a sales representative for Upjohn veterinary pharmaceuticals, joined the company in 1965. His sales territory encompasses the western part of Central Florida. Tom has a B.S. degree in animal science from Auburn University.

Announcements . . .

Our own Watson B. Duncan, III, has been chosen, as the "area's most outstanding professor" to become the first Palm Beach County citizen in a "Sculptors of Life" series of bronze busts of persons who have shaped the quality of life here. A clay sculpture which will become the mold for the bronze bust was to be created June 10 by Laszlo Ispanky, as part of the opening of Goldleaf Jewelers in the Crystal Tree Center in North Palm Beach.

ACADEMIC ADVISORS, please note: State and Local Government, POS 2112-001, 8425 is on computer printouts for the Fall Term, but was left out of the printed course lists available to students. The course will be offered Tuesday and Thursday, 7:30 to 9AM at PBJC Central. Early morning was chosen so field trips can be scheduled to court house, city hall and other government offices. Social Science Dept. and the Institute of Governments are interested in good enrollment for this class. ...Ed Pugh

The Personnel Office has just received exciting information from Busch Gardens, Tampa. Effective now through July 10, '83, with presentation of the Passport Club Card, a discount of $3.00 will be offered off the general admission price instead of the year-round savings of $1.50. If you are interested, please come by the Personnel Office to pick up your Passport Club Card. We still have many left. ...S. Carton

PALM BEACH JUNIOR COLLEGE
PBJC MONDAY REPORT

Volume V, Number 34 June 20, 1983

President North Florida Junior College

Dr. Gary P. Sims Named Glades Provost

Dr. Gary P. Sims, President of North Florida Junior College, Madison, was named Provost of Palm Beach Junior College Glades by PBJC trustees at the June meeting of the board, Wednesday (June 15) at PBJC Central.

The provost is the chief administrative officer of the Glades campus, reporting directly to Dr. Eissey.

Dr. Sims was chosen from a list of 102 applicants by a selection committee made up of the college vice presidents and provosts plus Mrs. Homer Hand, trustee, and Joseph Schneider, personnel director.

The original list was narrowed to 10 finalists, and seven were interviewed during the search, which began shortly after Dr. Cecil Conley announced in March that he would be retiring June 30.

Dr. Sims has served as president of North Florida since 1978, and has increased enrollment, revamped curricula, and initiated a comprehensive adult education and community service program while president.

He has been active in community affairs during a 22-year career in education which includes nine years as a college president, three as dean of instruction, and 10 years of teaching on junior college and university faculties.

Prior to becoming president of North Florida, Dr. Sims served from 1974-78 as President/Campus Director, New Mexico State University at Carlsbad.

Dr. Sims is 47 years old, married, with three children. He will assume his duties July 1.

In other personnel actions, the trustees moved toward the first implementation of the reorganization to divisions approved earlier this year. Three divisional chairpersons, all currently employed as assistant professors, were appointed.

Volunteers Needed For Five Mile Run

Grab your whistles and stopwatches, because PBJC is sponsoring a five-mile Golden Anniversary Run, Saturday, November 5.

"We need about 60 people to volunteer in helping out at the race," said Jeanette Sanders, a member of the steering committee for the event. "We need people at the aid stations, the starting and finish lines, to help with registration before the race, and to do odd chores, such as directing traffic."

Any person from the college family can volunteer, and helpers for the race should be prepared to come to the Central campus by 6:30 a.m., one hour before the race starts.

The competition will be organized into various categories: Men; 14-under, 15-19, 20-24, 25-29, 30-34, 35-39, 40-44, 45-49, 50-59,and 60-over. Women; 14-under, 15-19, 20-24, 25-29, 30-34, 35-39, 40-49, and 50-over.

Those who place first, second or third in each category will receive awards, and the top five overall will receive trophies.

The race course will begin on the south side of PBJC Central near the gym, progress south to Sixth Ave., west to Congress Ave., south to the entrance of John Prince Park, along the bicycle path through the park to Lake Osborne, west on Lake Worth Rd., down Congress, and then back to the PBJC entrance and starting point.

The steering committee includes: Kathy Aiello, Dr. Elisabeth Erling, Max Faquir, Timm Lovins, George Matsoukas, Sandy Richmond, and Jeanette Sanders.

Free Speech, Or Insubordination?

The following article is a reprint from the AACJC Letter of April 29, 1983. It appears here exactly as it was printed in the newsletter.

Free Speech or Insubordination

The Supreme Court has just handed down an important decision (Connick vs. Myers) on working conditions of public employees. In a five to four vote, the Supreme Court ruled on Wednesday, April 20, that public employees who complain about their bosses or working conditions may not seek protection under the constitutional right of free speech. The Court ruled that, while the First Amendment protects the right of public employees to speak out on issues of public interest, the free speech amendment does not provide or protect an employee's right to be heard on internal office or institutional matters. Justice Byron White, who wrote the majority opinion, said:

> While, as a matter of good judgment, public officials should be receptive to constructive criticism offered by their employes, the First Amendment does not require a public office to be run as a round table for employe complaints over internal office affairs . . . Perhaps the government employer's dismissal of the worker may not be fair, but ordinary dismissals from government service which violate no fixed tenure or applicable statute or regulation are not subject to judicial review, even if the reasons for the dismissal are alleged to be mistaken or unreasonable.

The specific case in this ruling involved an assistant district attorney in New Orleans who was fired after she circulated a questionnaire among her co-workers asking about office morale, need for a grievance committee, confidence or no confidence in supervisors, and similar matters. New Orleans District Attorney Harry Connick reasoned that he had fired Myers because she had resisted an assignment change he had given her and because he considered the questionnaire an act of insubordination.

We will be obtaining the full Supreme Court opinion on this case, plus legal counsel interpretation, and develop that information into a "Legal Brief" for a future Letter. This decision appears to remove from court jurisdiction a significant number of personnel decisions.

Glades Provost (cont'd from P 1)

Freddie Jefferson will become Division I chairperson at PBJC North. Stafford Mooney will be Division I chairperson at PBJC South. Dr. Dan Terhune will be Division II chairperson at PBJC South.

The board also filled a new position, Coordinator of Instructional Computer Programs, an indication of the growing importance and complexity of computer instruction at the college. Terrell Shoultes, who has taught at PBJC North as adjunct faculty, was appointed.

Dr. Eissey presented a committee report which recommended a vigorous campaign for voluntary immunization for measles at the college, but against a mandatory immunization program requested by the health department.

A report from System Computer Technology, a consulting firm, recommended extensive additions in both hardware, mostly in microprocessors, and software, some addition in personnel, and a few changes in administrative structure.

New Basketball Coach Named

Jim Voight, of Cooke County Community College in Gainesville, Texas, was named the new basketball coach effective June 27 at the Board of Trustees meeting last Wednesday.

Voight, 47, will replace Bill Hodges, who resigned to accept an assistant coach position at Long Beach State University.

"Everybody we have talked to has had nothing but high regard for Jim," said Tom Mullins, PBJC athletic director. "We are looking to build an established junior college program, and Jim really fits the bill. He's a proven veteran of the game and has expressed a desire to continue on the junior college level."

Voight has 28 years of coaching experience, including 14 years at the high school level. He was head coach at Bryan College in Dayton, Tenn. for two years, and served as an assistant at Morehead State University in Morehead, Ky. for a season.

Later, he was head coach at Lindsey Wilson College in Columbia, Ky., where his team won the National Little College Athletic Association championship in 1972.

In 1977, Voight took over the helm at Cooke County CC. His teams averaged 25 victories per season, and won three conference titles. In 1981, he led the team to a 33-6 record and a trip to the National Junior College Tournament.

This past season, he compiled a 19-12 record. The school's athletic program was faced with possible major cutbacks in its budget for 1984; subsequently, Voight announced his resignation.

"He was looking to come to a program that is stable," Mullins said. He probably wouldn't have even put in his application if he had not felt the program at Cooke was threatened."

A screening committee of Dr. Paul Graham, Dr. Melvin Haynes, Dr. Paul Dasher, Dr. Howard Reynolds, and Mullins chose the new basketball coach from among nearly 50 applicants.

Mullins presented to the Board a summary report of the athletic department's achievements in each sport over the past season. The Monday Report will publish the report at a later date.

Caps And Gowns Rental

All faculty members and administrators who plan to attend Commencement exercises on August 3, 1983 should stop by the bookstore and order your rental caps and gowns.

Deadline for placing orders is Monday, June 27. Rental price is due at time of measurement. Latest cancellation date is July 11th.

Personals

I wish to thank one and all who made my retirement party so great. The attache case and gold chain which I received is exactly what I have been wanting. The case is just the right size to carry my papers around the country in doing my genealogical research. I will miss so many wonderful people and have enjoyed my years at PBJC. Thank you again for all the kindnesses and friendship you have shown. ...Marion L.Sprague

Personals (cont'd)

Congratulations to Marion Sprague on her retirement after 14 years of loyal service t the bookstore and the college. We wish Marion and Stu every happiness in their retirement. ...Mrs. Brofft

According to family members, Lee Finton has suffered a massive stroke, and is now in a coma. He is at Doctor's Hospital, Room 349, and his condition is considered grave.

Jim Howell suffered rather serious burns in a freak accident last week when his car radiator overheated and exploded. He's back at work and doing well thanks to some miraculous new ways of treating burns.

Announcements . . .

INSTRUCTOR'S KEY CHECK for the end of Spring Term will be on Monday, June 20 from 8-12:30 and 1:30-4PM. All instructors not scheduled to teach the Summer Term must return all assigned keys to the Inventory Office, along with your faculty check-out sheet signed by all departments. Those instructors teaching the summer term do not need to check their keys at this time. ..M.Reas

The Bookstore will be CLOSED FOR INVENTORY on Thursday, June 30th. ...R.Brofft

PALM BEACH JUNIOR COLLEGE
MONDAY REPORT

Volume V, Number 35 June 27, 1983

Six Out Of Eight Conference Titles

We Had A Great Year In Pacer Sports

Speaking beside a table completely filled with trophies won by Palm Beach Junior College athletes this year, Tom Mullins, athletic director, told PBJC trustees at their June meeting about the best year in history for Pacer athletics.

"We won six out of eight conference titles this year, including the first baseball and men's golf conference titles in the history of the college," Mullins told the trustees.

Mullins gave a brief account of each of the eight Pacer teams, but said his chief pride was in the large number of athletes who have been given athletic scholarships to complete their education at four-year institutions.

He provided a list of nine baseball

Cont'd on P 2

Dr. Eissey Is President Of The President's Council

Dr. Eissey became president of the President's Council at a meeting of the state-wide organization June 21-24 in Key West.

The council, made up of the 28 public community college presidents in the state, has become a key communications link in the community college system, and is one of the strongest voices in the state in the promotion of community college interests.

Dr. Eissey has served on the legislative committee of the council and has been president elect during the past year.

Dr. Eissey, who has been a council member for less than five years, said he is "honored by this expression of confidence from my colleagues."

He begins his term at a time when both houses of the Florida legislature, despite the efforts of many individual legislators, have abandoned attempts to pay for the improvements in education they seek.

Both houses have acknowledged the need. The original House appropriation bill would have been skimpy, but possible. The Senate's original bill was totally inadequate, but during conference, after a lot of talk about no new taxes, the Senate proposed a somewhat more reasonable settlement--utilizing taxes on interests well organized for resistance.

The House, which had bitten the bullet in its original proposals for the new revenue, found the Senate bullet too tough to chew. The House gave up.

Lapel Pins To Commemorate Our Golden Anniversary

The PBJC Foundation is selling lapel pins to commemorate the college's Golden Anniversary.

The pins are made of beautiful 22-karat gold plated over sterling silver, and cost $20.

Anyone who wishes to order one should send his or her name, mail station number, phone number, and at least a $5 deposit to George Matsoukas, Mail Station #19.

Or, you can drop it off at George's office on the first floor of the library. He's got a sample of the pin, if anyone wants to look at it.

All checks should be made payable to the Palm Beach Junior College Foundation.

THIS Week . . .

June 27	Senior Citizen Registration, 1-3PM

Pacer Sports (cont'd from P 1)

players, plus one who has signed with the Milwaukee Brewers, three in basketball, fiv in men's tennis, three in women's tennis, and three in softball.

He listed 17 athletes who were All-State, and eight who were All-American, a record he said "speaks of the level of excellence of our programs."

Men's Golf: Won our first conference championship and three major tournaments. Placed second in the state tournament by two strokes, and fifth in our first national tournament.

Baseball: Won first conference title in our history with record of 17-7, and went to our first state tournament.

Basketball: Although seasonal record was not outstanding, the team was invited to Martinique for our first international tournament. We won the four-team tournament, and will continue the international exchange.

Men's Tennis: Outstanding 22-1 record, highlighted by 6-3 victory over Seminole, this year's national champions. Won conference, but finished a disappointing third in state because of illness.

Women's Golf: Won our second national title. Coach Bill Tramontozzi named national coach of the year.

Women's Tennis: Outstanding 20-1 record, losing only to national university powerhouse, Princeton. State winners, second in nationals.

Softball: Excellent 38-14 record. Won conference, finishing third in the state. At our first national tournament, we lost to the national champs, and finished in fifth place.

President's Council (cont'd from P 1)

The Senate gave up.

Everybody went home, leaving education holding an empty bag.

The stage is now set for a governor's veto and another special session. It will be up to Dr. Eissey and the President's Council--and it will also be up to you, and to me, and to all the students and parents of Florida--to let the legislators know that we, too, want improvement in Florida education, even when that improvement carries a price tag that demands new taxes. ... JK

PALM BEACH JUNIOR COLLEGE
PBJC MONDAY REPORT:

Volume V, Number 36 July 5, 1983

11.5% Increase In Semester Hours

We Are In The Largest Summer Term Ever

Credit enrollments for the summer term increased by 290 students over a year ago to a record number of 3,382, according to Charles Graham, registrar.

Graham said the record enrollment came as an unexpected surge near the end of the registration period.

"We had been running almost exactly the same as last year in new applications," he said, "so we expected totals to be nearly the same.

"Instead, nearly 300 more returning students pushed us to a new record."

All campuses except Glades, which recorded a 6.1 percent decrease, were above year ago figures for credit students.

Central gained 125 students to 1,718, an increase of 7.3 percent. North gained 101 students to 849, an increase of 11.9 percent. South gained 67 students to 615, an increase of 10.9 percent.

The increases in student semester hours corresponded well with the head count, but were even higher. Overall the increase was 11.5 percent. Central recorded 9.5 percent, North 11.9 percent, South 13.9 percent. The Glades was 6.5 percent lower.

Overall headcount, including non-credit students, actually decreased slightly for the term as of the reporting date since there were 706 such students a year ago and only 360 this year.

Non-credit enrollment continues throughout the term, and while it is a significant and growing part of our student body, slight variations in the timing of the beginning of enrollment for these classes can create major swings in enrollment statistics that may be absolutely correct, but give an untrue picture of overall college growth.

Cont'd on P 3

Collective Bargaining Will Continue July 21

A recess in collective bargaining has been called until July 21, when it is hoped that financial data from the state will be available.

Bargainers for the college and the United Faculty of PBJC completed first responses to all items except economic demands June 27 in the sixth session of the current round.

In the discussions so far, tentative agreement has been reached on about a third of the 27 changes in the contract sought this year.

The college has not yet responded to the union demand for a 10 percent salary increase and other economic demands because the level of funding from the state remains uncertain.

The July 21 meeting has been scheduled at 3 p.m. in the conference room at the town hall in the Village of Palm Springs.

Conleys Honored

Drs. Cecil and Naomi Conley were recognized for their contributions to the Glades area at a recent Belle Glade City Commission meeting.

A resolution passed at the meeting commended the couple for their service in many organizations. The Belle Glade Chamber of Commerce, the Belle Glade Library, the Glades Historical Society, as well as PBJC Glades, are just a few.

Similar resolutions were passed by the South Bay and Clewiston city commissions.

The Bad News From Tallahassee

The meaning to you and me and all other employees of Palm Beach Junior College of the following memo from Dr. Harold Kastner of the Division of Community Colleges to Dr. Eissey is brutal, direct, and immediate.

There will be no wage increases in paychecks of July 20, NOT EVEN INCREMENTS. The only change will be in slightly smaller federal withholding for income tax.

Furthermore, there is not anything you or I or Dr. Eissey or the Board of Trustees can do about it, except to protest to the legislators who voted for this provision, and to do everything we can do to back Gov. Graham.

Here is the memo, exactly as Dr. Eissey received it Tuesday:

TO/SUBJ: RESTRICTION ON SALARY FROM: DR. HAROLD H. KASTNER
SENT: 6/27/83 AT: DIRECTORS OFFIC

MESSAGE 454:

TO: COMMUNITY COLLEGE PRESIDENTS
SUBJECT: RESTRICTION ON SALARY INCREASES

HB-388 PASSED BY THE LEGISLATURE CONTAINS THE FOLLOWING LANGUAGE.

> NEITHER GENERAL REVENUE OR TRUST FUND APPROPRIATIONS IN THE GENERAL APPROPRIATIONS ACT, NOR STUDENT FEES COLLECTED BY THE COMMUNITY COLLEGE SYSTEM, SHALL BE USED TO INCREASE THE SALARY OF ANY STATE EMPLOYEE, ANY COMMUNITY COLLEGE EMPLOYEE, OR ANY EMPLOYEE OF THE FLORIDA SCHOOL FOR THE DEAF AND THE BLIND, EXCEPT FOR THOSE INCREASES WHICH ARE EQUIVALENT TO THOSE DEFINED BY CHAPTER 22A-2.06(1)(B), (C), AND (D) OF THE FLORIDA ADMINISTRATIVE CODE, PERSONNEL RULES OF THE CAREER SERVICE SYSTEM. FURTHER, POSITIONS WHICH ARE ADDED, DELETED, OR RECLASSIFIED SHALL NOT BE USED TO CIRCUMVENT THIS PROVISION AND PROVIDE GENERAL SALARY INCREASES TO STATE EMPLOYEES.

THE REFERENCED SECTIONS OF THE FAC WILL REQUIRE INTERPRETATION. , BOARDS OF TRUSTEES ARE ADVISED TO NOT APPROVE PAY RAISES UNTIL FURTHER NOTICE. IN VIEW OF THE UNCERTAINTY OF FURTHER ACTION ON THE APPROPRIATION BILL AND THE LIMITATION ON SOME CATEGORICAL ITEMS, WE WOULD RECOMMEND FURTHER THAT BOARDS PASS A CONTINUING BUDGET AND MAKE EXPENDITURES IN ACCORDANCE WITH RULE 6A-14.714.

Do not look to the exceptions in the Florida Administrative Code for relief, unless you happen to be one of those who has received a promotion to a different job. As Dr. Kastner says, those exceptions will require interpretation, but as of this writing, they are not being interpreted to include increments, and they will not be. They can not be stretched that far.

One of the most unfair things about this wage freeze mandated by the legislature is that it is selective--it apparently does not apply to K-12, where a five percent increase is to be allowed, according to statements attributed to Sen. Harry Johnston by the newspapers.

It will apply to university employees, since they are considered to be state employees. We are in a unique position which quite often works against us. When its bad news for state employees, we are lumped with them. When its good news, we are not.

It is the clear intention of the legislature to deny salary increases even though they have granted community colleges a small increase in overall funding above last year. Why they should wish to control the expenditure of these funds after granting them is unknown to this writer. But they have done so. (Cont'd on P 3)

The Good News From Tallahassee

If you have learned for the first time from the article on page 2 that the legislature, for no apparent good reason, has mandated that none of the increase in funding for community colleges this year can be used for salary increases, you are probably not in a mood to believe there is anything good coming out of Tallahassee this year.

A balanced view says otherwise.

Community College program funds totaled $315,103,000 appropriated this year, up 6. 4 percent above the amount appropriated a year ago, and 11.3 percent above the amount actually received after the rollbacks.

These percentages are higher than for any other segment of Florida education. There isn't enough difference to make up for years of relative neglect, and there isn't quite enough difference to make up for the fact that we grow faster than any other segment. But, still and all, there does seem to be a little more understanding, and that, alone, makes this a banner year.

Included was $7 million for library books and instructional equipment, and that is good news. Included also was another $7 million for the CLAST test and the Gordon rule, and it is good news that somebody has realized that such measures require money for implementation.

On a more personal and important note for us at Palm Beach Junior College, the appropriation of $2.5 million for the student services building for PBJC North, plus $250,000 for planning for a vocational building there is great news.

We understand from our ever present Tallahassee contact person, Pat Wilson, that firm commitments have been made for funding the vocational building next year.

In a year in which $35 million had to be spread to meet $600 million in needs in 28 community colleges, the survival of those two items for us represents some real dedication from Pat, from our local legislative delegation, from the state department of education and from the powerful friends we have made in both House and Senate.

No matter how hard we work to try to get our story in front of the right people at the right time, it will do no good unless there are ears willing to listen, and minds willing to comprehend.

A Monday Report salute to all who helped us.

In matters other than monetary, many significant reforms were initiated by this legislature in Florida education from K through University. We will be talking of them, working with them, and assessing their impact for many years in the future. ... JK

Bad News (cont'd from P 2)

As you know, the trustees have already passed a budget which does not contain a general pay raise, but does make provision for increments. Unless the upcoming special session changes this provision of 38b, some amendments in the wrong direction will be needed.

Any increases in salary this year will need to be voted into being, or at least allowed, by the upcoming special session of the legislature.

What we should ask for from our legislators is approval of an upper quartile salary package on top of the funds already allocated. This will require new revenue sources.

Much depends on the leadership of Gov. Graham. But unless he has vigorous support from voters and taxpayers--us--he cannot succeed. ... JK

Summer Term (cont'd from P1)

Registered credit hours is probably the truest barometer, and on that scale we are 11.5 percent ahead of a year ago.

PALM BEACH JUNIOR COLLEGE
MONDAY REPORT:

Volume V, Number 37
July 11, 1983

Computers, Aviation Dynamics, Expository Writing

Governor's Gifted Students Studying At PBJC

The Governor's Program for the Gifted and High-Achieving will be offered for the first time in the county at Palm Beach Junior College from July 6-26. It is a joint effort between the college and the county school system.

Ninth, tenth, and eleventh graders from the county's private and public schools will attend classes in aviation dynamics, applied computer programming, and expository writing at three of PBJC's campuses: Central, North and South.

The students are "gifted" or "high-achieving", and have been recommended by their school counselors. Gifted is defined as being currently enrolled in, or eligible for, the gifted program in the public schools.

"They must also have a high I.Q., somewhere around 130, and display the characteristics of a gifted student," said John Townsend, coordinator.

He said high-achieving students are those who have "achieved a score on the SAT, or an equivalent score, that would place them in the top five percent of their class."

"Out of 28 community colleges, only nine have been given grant monies for this program. PBJC is one of the nine," Townsend said.

At PBJC Central, about 11 students are enrolled in Aviation Dynamics. Their coursework will include working with airplane simulators, and a special trip on July 25 to the control tower at Palm Beach International Airport.

About 15 students will also attend classes in Computer Programming at PBJC Central. Sixteen students living in the north and nine in the south of the county will be able to take the Applied Computer Programming course at PBJC North and PBJC South. Five students are enrolled in Expository Writing at

Classified Employees Honored At Luncheon

Thirty eight classified employees were recognized for service and perfect attendance at the seventh annual Awards Luncheon Thursday.

There were 42 awards made, but four persons were recognized twice. Betty J. Linn, news reporter, and Willie Ree Smith, custodian, were recognized as retirees and also for 10 years of service. Solomon Jackson and Kenneth McConnell had perfect attendance this year, and also received 10 year emblems.

There were no 20 and 25 year awards this year, but two persons, Barbara Belleman and Edward J. Cassidy, reached the 15 year mark.

Others honored for 10 years of service were Barbara J. Bartels, Marjory R. Carroll, Lore R. Conte, Barbara G. Frawley, Robert L. Goldstein, Jacob L. Kirkhart, Dianne L. Tillery, Mary B. Orsenigo, Edith M. Plager, Dorothy E. Rees and Marilyn C. Vazquez.

Five year emblems were given to Bruce P. Boden, Paul A. Cassidy, Laura J. Dalton, Diane L. Foote, Robert E. Garvey, Lloyd D. Haynes, William C. Hayes, Kathy L. Miller, James A. Randolph, Toby Smardin, Marla L. Tatman, and Mary E. Taylor.

Perfect attendance was recorded by Thomas Clark, Steven Howard, Cleodis Lealand, Opal Murdock, Denise Shepard, Salle Thornton and Gary Williams.

There were two others retirees, Chester Podraza, groundskeeper, 1968-1982, and Marion L. Sprague, accounting clerk, 1969-1983.

THIS Week . . .

July 12	Final day to pay fees for Fall Term
July 12	CLEP Test, Central, SC 26; 8AM-1:30PM
July 12	Blood drive, North, 9AM-12:30PM
July 14	ACT Test, North; 5:30-9:30PM, Student Affairs Bldg.
July 14	CLEP Test, Central; 8AM-noon; SC 26

. . . AND Next

July 18-21	Early Registration for Fall Term
July 19	Last day to withdraw with "W" or audit
July 20	PAYDAY!!!
July 20	Trustees meeting, Central; 7:30PM, Conf. Rm. C
July 21	Collective bargaining meeting; 3PM, Palm Springs Town Hall

Personals . . .

It is with sadness that we note the untimely passing of Stanley Alan Tucker, who was only 45 when he died last week after an extensive illness. Stan, who attended Florida and Stetson and became a prominent local attorney after attending PBJC, was always ready to lend a hand, and was for years an officer in our alumni association.

We wish to express our deepest sympathy to Anna Kiger, whose husband, Clifford, passed away on July 1st. Our condolences to the family.

Announcements . . .

Early Registration Fall Term - Students who have attended PBJC any term since January, 1983 can register for the Fall Term July 18-21, 9:00AM to 3:00PM and 6:00PM to 9:00PM. July 18, 9:00AM to 12 noon is for Fall term graduates only. ...Charles Graham

Be sure and tune in the Mike Levine show on WJNO Thursday, July 14 at 6PM, as Dr. Eissey will be the featured guest.

The following position vacancy is open:

Instructor-Biology/North Campus: Position requires a master's degree and/or 18 graduate semester hours in Biology with the ability to teach introductory course in Physical Sciences.

Interested applicants should contact the Director of Personnel. ...J.M.Schneider

Legal Assisting Program

Five students in the Legal Assisting program at PBJC North have been awarded the V. Craig McGaghren Memorial Scholarship, according to Hamid Faquir.

The recipients of the $50 awards are Mary Hanley of Palm City, Laree Luten of Juno Beach, Karen Moree of Juno Isles, Joyce Neyland of Lake Park, and James Tooks of West Palm Beach.

The scholarship is a memorial named for PBJC's former legal instructor, who died two years ago from cancer.

To be eligible for the annual award, a student must have an eight-semester hour course load, maintain a grade-point average of 2.0 or better, and be a student in the Legal Assistant program at PBJC North.

Students who graduate from the two-year program earn an AS degree, which prepares them to be paralegals.

Gifted Students (cont'd from P 1)

the north campus.

All classes will be held from Monday through Thursday, 12:30-3:30 p.m., except the computer class at PBJC North, which will meet from 8:30 to 11:30 a.m.

"We're happy to be able to provide this opportunity to such bright youngsters," Townsend said.

For more information about this program, contact Townsend or Otis Harvey at 8011; or Helen Gilmore, Gifted Program Specialist for the Palm Beach County Schools at 684-5150.

Happy Birthday To . . .

7/12	Rhea Mooney, Marg Toomath, Frank Adams, Chuck Toohey

PALM BEACH JUNIOR COLLEGE

MONDAY REPORT

Volume V, Number 38

July 18, 1983

Three Cheers For The Legislature!

There Is Good News From Tallahassee This Week

In a long, one-day session Tuesday, July 12, the 1983 Florida legislature came through as the realistic advocates of better education in Florida we had all hoped they were. The news from Tallahassee this week is all good.

Trustees Schedule Annual Reorganization

Palm Beach Junior College trustees will hold their annual reorganization meeting Wednesday, July 20, 7:30 p.m., in Conference Room C at PBJC Central.

A chairman and vice-chairman will be elected, time, date and location of meetings established, and standing committees designated. Current chairman is Dr. Philip O. Lichtblau. Vice chairman is Mrs. Homer Hand.

Among other items on a lengthy agenda is a software agreement between the college and Systems and Computer Technology Corporation, the first step in implementation of a plan presented last month to the trustees.

A change in fee waivers allowed to employees dependents as mandated by recent legislative action will be up for board approval.

Among personnel items is the appointment of Glen Marstellar to Division II chairperson at PBJC North. Marstellar has been an assistant professor in biology at PBJC North and at PBJC Central.

Most items on a 42 item agenda concern construction and development and routine business affairs.

Custodial Training Set By New Supervisor

Most of the 30 custodial workers at PBJC will participate in two training courses July 19-22, according to Mel Fields, supervisor of

Cont'd on P 2

It will be a few days before we know how good, but Dr. Eissey has already directed some studies that will allow for swift recommendations for whatever salary increases will be possible with the increased funding.

But those of you who are getting incremental raises this year have more immediate good news.

Beginning two days from now, on July 20, you will, right on schedule, be getting those incremental raises in the pay check.

The only reason such swift action could be taken is that payroll and personnel anticipated legislative action in lifting the ban announced two weeks ago in the Monday Report, and geared up to pay the increases on time. Hooray for payroll! Hooray for personnel!

Three cheers for the legislature!

So you won't get completely carried away with all this good news, there is one cautionary note. The legislature continued to mandate how some of the funds must be spent--for libraries, for Gordon Rule/CLAST impact, and for other good educational purposes.

The college will comply with all these legislative intentions both in letter and in spirit. The legislature also intended for salaries to be increased, and that intention, too, will be carried out.

The immensely important forward step taken by this legislature is the acknowledgement that educational reforms,

7/20 Frank Barton, Janette Campbell,
Vernelle Patrick 7/24 Mary Walsh

Custodial Training (cont'd from P 1)

the custodial staff.

"Sanitation in School Housekeeping" will deal with bacteriology, germicidal detergents, special cleaning agents, spot and stain removal techniques, sanitation tools and supplies, toilet fixtures, surfaces, housekeeping cleaning methods, and pest control.

The second course, "Floor and Carpet Care", will focus on sweeping, dust mopping, vacuuming, wet and damp mopping, scrubbing, stripping, rinsing, sealing, waxing, sanding, spot and stain removal, shampooing, spray buffing, and refinishing floors.

Kester Sprouse, educational facilities specialist with the state Department of Education, will be the instructor, and the classes will be held 8:30 a.m. to 4 p.m. in Conference Room C.

"The courses are designed to teach the custodian good sanitizing procedures and the proper use of chemicals," Fields said. "They will help make our custodial staff truly professional."

Fields, who became custodial supervisor on May 9, said one of his goals is to maintain professional courses on a regular basis. He also plans to implement motivational programs for his employees.

The new head custodian has a bachelor's degree in business administration from Shaw Univ. in North Carolina. He and his wife, Barbara, have a seven year-old daughter, Gloria Elizabeth. The family lives in Wellington.

Good News (cont'd from P 1)

for the most part, do carry some price tag.

In an entirely different funding matter, the proposed student center/bookstore at PBJC North remained in the final appropriations bill for the amount of $2.5 million, plus $250,000 for planning for a vocational building there.

Unless vetoed between the time this is written and the time you read it, these items have become law.

We owe a great debt of thanks to our local legislative delegation, and to many other friends for getting those items on the list and keeping them there. ... JK

PALM BEACH JUNIOR COLLEGE
PBJC MONDAY REPORT

Volume V, Number 39

July 25, 1983

Increments, Cody, And Eight Percent

There Is Even Better News Here At Home

The Good News from Tallahassee a week ago has now been followed by Even Better News from right here at home last Wednesday--increments, and Cody Report and eight percent--and if that doesn't grab your attention, nothing will!

The good news started early Wednesday morning for those getting increments. Paychecks were increased by the increments, just like we told you they would be in last week's Monday Report. This first step applied to eligible unit personnel as well as non-unit personnel.

Second step. Dr. Eissey met with administrative and supervisory personnel who are in the exempt category. He explained all the things you are reading in this article, including the fact that the specific personnel in that 10 a.m. meeting, exempt employees, will be changed from a 35 hour week to a 40 hour week.

Prior to explaining that, Dr. Eissey asked everyone in the room to put down on a small slip of paper how many hours he/she worked on an average week for the college. This poll was anonymous, and there was no reason for anyone to pad the figures.

Even though almost everyone in the room was nominally on a 35 hour week, the average hours actually worked turned out to be 47. Only three people of the 60 or so in the room said they were working less than 40 hours.

So the change from 35 to 40 hours will be mostly on paper. We have already been volunteering that extra 5 hours.

Dr. Eissey mentioned the Cody Report briefly, but explained that it did not apply to many in that meeting.

He announced the eight percent across the board increase, explaining that

Cont'd on P 3

PBJC North Groundbreaking Scheduled For August 2

Groundbreaking for the next major building at Palm Beach Junior College North has been scheduled for Tuesday, Aug. 2, at 10 a.m., at the site, 270 feet south of the current classroom building at the North campus on PGA Blvd.

The Library/Academic Labs building will be constructed by Shannon R. Ginn, successful bidder on May 31 with a base bid of $3,449,500 and a total bid of $4,214,601.

The two-story structure will have the Library Learning Resources Center plus a large Choral Lab/Meeting Room on the first floor, and labs for chemistry, biology, physics, a general art lab, AV studios and a television studio on the second floor.

Invitations have been extended to educational, political, business and industry leaders of the north county area, as well as to the PBJC trustees and PBJC North Foundation members, according to Dr. Ottis Smith, PBJC North Provost.

Dr. Smith extended an open invitation to all PBJC employees and students "and to all our friends in the community."

Dr. Eissey will introduce special guests and will conduct the ground breaking ceremonies.

Alfred W. Meldon, Jr., Social Science teacher at PBJC North, will give a brief review of the history of the North campus.

Alice Zacherl for PBJC North will speak about the expanded library learning

Cont'd on P4

Rosalind S. Kochel, 1926-1983

Rosalind S. Kochel, a senior instructor in social science at PBJC Central for 21 years, died Sunday, July 17, at 6:20 p.m., at John F. Kennedy. We understand that some of her colleagues here at the college had been informed that her fight against cancer was nearing an end, and were present during the last hours.

Some of her friends have set up the Rosalind S. Kochel Memorial Social Science Scholarship and contributions to the PBJC Foundation for that scholarship will be accepted.

The Social Science Department is planning to place a plaque on the wall of Rosalind's favorite classroom, SS-04, in her memory, and a memorial service at Dorsey Funeral Home is planned after the faculty returns in August.

As Dr. Samuel S. Bottosto, Social Science Chairperson, pointed out in a two-page eulogy, Rosalind had an unusually broad background, including such diverse elements as a serious interest in singing, the manufacture of radio and TV tubes, and the Military Air Transport Service. Some excerpts from Dr. Bottosto's eulogy follow.

"Rosalind started work at PBJC in the fall of 1962. Over the years she taught basic Social Science General Education courses--SOC 1200 and POS 1001. Her favorite areas of interest always were Geography and Anthropology. These areas always dominated her professional interest in teaching.

Students generally liked Ms. Kochel, finding her to be caring and helpful as an instructor. She gave freely of her time and resources and was always encouraging students to develop good study habits. She always urged her students to do their best in the completion of assigned work.

From time to time, Ms. Kochel would encounter a kind of student or enrollee who did not seem to be doing what he or she was capable of doing. She would take this student aside and remind the person about the value of a good basic education combined with a personal sense of responsibility.

If Ms. Kochel stood for anything, she stood for self-reliance, autonomy, and independence. She made friends easily, but she valued her privacy. She thought of PBJC as her family, her home. She told me that she thought PBJC was the most wonderful place in the world to work. She also said that it had even greater potential in terms of working conditions.

Over her 22 years of service to PBJC--serving on such committees as graduation, handbook, library, and International/Multi-cultural--she served this college ably and conscientiously.

Rosalind was my friend and colleague. She was truly an experienced, dedicated teacher who stood for the valuing of human personality in a framework of democratic associations. She valued her own personal freedom and was proud to join with thousands of other teachers in this country in releasing the human potential of those students entrusted to her care. She did her job supremely well--and that is her legacy."

Special Meeting

A special meeting of the Palm Beach Junior College trustees will be held on Monday, July 25, 7p.m., in Conference Room C at PBJC Central.

The meeting was called after attorneys representing two teachers facing disciplinary action by the college requested a hearing for their clients.

At Monday's meeting the trustees will set an appropriate hearing date and determine whether the board will hear the matter or appoint a hearing examiner.

Our First August Graduation

The first August graduation in the history of Palm Beach Junior College will take place August 3, 8 p.m., in the college auditorium.

Traditionally, the college has had one commencement program each year, in May, when the largest number of students are completing degree requirements.

But many students who graduate in other terms are already deeply involved in other cities or states by the May graduation time, so college trustees voted in June to hold three commencement ceremonies each year....continuing the May date, and adding August and January.

Dr. Eissey has been asked by the graduation committee to be the speaker at the first Spring/Summer Term graduation.

About 150 graduates are expected to take part in the ceremonies.

Seating in the auditorium is limited. Each graduate has been given two tickets in addition to his own.

Administration and faculty attending the graduation will be seated on stage to reserve the auditorium seats for friends and relatives of the graduates.

"We have traditionally encouraged the general public to attend our graduation ceremonies," says Charles Graham, registrar. "We will continue to do this at our main ceremony in May, and at any other time when adequate seating is available."

The August graduation will be much shorter than the ones in May, Graham said, largely because about four times as many students must walk across stage and receive diplomas in the May ceremony.

Better News (cont'd from P 1)

state funding was providing five percent of the eight, and local funds--obtained through increased productivity and many cost saving measures--were available for the rest.

He explained that the eight percent and the Cody Report changes would be effective Aug. 1, and would show up in pay checks of Aug. 20.

Third Step. At a 10:45 a.m. meeting with classified personnel in the Allied Health Lecture hall, Dr. Eissey gave a second briefing, giving more detail on the Cody Report--where 80 of the 82 positions being reclassified upward are for career employees, and the average salary increase through reclassifiication will be about five percent.

He explained that all those in the room would receive the eight percent increase, many would be reclassified through the Cody Report for an additional five percent, and some were already receiving increments for an additional five percent.

There was enthusiastic applause.

Fourth step. At both meetings, Dr. Eissey explained that the new pay plan would be his recommendation to the board meeting on Wednesday night. At about 8 p.m., the board unanimously adopted the administration's recommendation.

This Monday Report article is being written Thursday morning, and we will not be able to report on the exact specifics of a salary offer to be made Thursday afternoon to the United Faculty of PBJC.

However, Dr. Eissey announced that union personnel would be offered a similar package increase at the collective bargaining meeting.

Happy Birthday To . . .

7/25 Dan Caylor 7/26 Yvonne Haynes 7/27 Ruth Triplett, Don Wiley 7/29 Jean D'Angio, Janice Bottoms 7/30 Cynthia Dahl

Katie Cooper Fund

We thought you would like to know that Katie Cooper, the six-year-old whose malignant melanoma may be cured with a dramatic new skin replacement technique, is our own Sue Frazier's granddaughter.

Katie's story was told in the Wednesday Post, and we understand there will be follow-up stories as a Harvard Medical School team of doctors attempts to grow sheets of Katie's own skin for transplants.

Although strictly medical costs are being paid through a Shriner's grant, friends of the Coopers have set up a fund to help the family with transportation and living costs in Boston. The first trip has already been donated, but there will be many in the months ahead.

If you are interested in helping Sue's granddaughter, you may send contributions to the Katie Cooper Fund, Flagler National Bank, 501 S. Flagler Dr., WPB, attention: Mrs. Aileen Toce, Loan Department.

Fee Waivers Continued

The good news about fee waivers is that the legislature decided at the last minute to allow some fee waivers for employees and dependents. The bad news is that the legislator's rules are less generous than those our board has been allowing us in the past, and that we will not be allowed to collect FTE funds for fee waivered students.

At first, the legislature mandated that only fee waivers specificially allowed by law could be granted. That meant no fee waivers for employees, as explained in a previous Monday Report article.

But in a late change, the legislature did allow colleges to give fee waivers to employees, and the new board rule approved on first reading Wednesday night by the trustees will continue the one-class-per term waiver for employees previously in effect.

The new rule, which tracks the new law, allows only two classes per term for dependents of employees. The new rule does not allow waivers for a spouse unless the spouse is a dependent.

Some other nice features of our previous rule, such as allowing waivers for dependents of deceased employees, also had to be dropped.

It should be clearly understood by everyone that these changes were mandated by the new state laws. The only options left to the college were to make the rules even more restrictive than the law or to cut out waivers altogether.

Dr. Eissey and the board have decided to continue our employee fee waiver policy, altering the board rule to conform to the new state law.

Groundbreaking (cont'd from P 1)

resources center.

The new building will be completed in 365 days, according to contract, in time to be placed in service for the Fall Term, 1984. Movement of the library into the new building will free much-needed general classrooms in the existing building.

PALM BEACH JUNIOR COLLEGE

Eight Percent Offer Refused

Impasse Is Declared By United Faculty

Impasse was declared by the United Faculty Wednesday afternoon as bargaining halted. The union retreated to positions held a month ago, and said it would call for a Federal mediator. The faculty finds itself in a position made familiar by similar occurrences in the past:

1. All non-unit employees get an eight percent raise effective today.

2. A college offer for the same amount has been turned down by the union.

3. Lengthy impasse procedures are beginning, with no raises until there is a contract.

A week earlier, the two sides appeared to be moving toward a contract, with only two major issues unresolved:
1. The change from 35 to 40 hours for librarians and counselors--similar to

Cont'd on P 2

Hearing Scheduled For Two Teachers

PBJC trustees will hear charges against two suspended teachers Aug. 19, 10:30 a.m., in the Foodservice Center at PBJC Central.

The trustees decided at a preliminary hearing last Monday night that it would expedite a final conclusion to hear the case themselves rather than appoint a hearing officer, whose findings would have to be thoroughly reviewed by the board in any case.

The decision was made despite a warning from Anthony Cleveland, attorney for the two teachers, Frank Leahy, drama and speech teacher at PBJC Central, and Dr. Joan Young, English teacher from PBJC North and president of the United Faculty of PBJC.

Cleveland said the board was an interested party and could not legally hear the case, warning that if they proceeded he may "go into court for a writ of prohibition," and might also seek to have the trustees removed from the case by Gov. Robert Graham.

Labor attorney Jesse Hogg, representing Dr. Eissey and the college administration, told the board they not only have the authority to hear the case, they are obligated to do so.

Dr. Eissey suspended the two teachers with pay, charging they sent anonymous "evaluations" of the president and the trustees to the governor, the commissioner of education and the division of community colleges after stating in the union newsletter they would be sent only to those evaluated.

Interested applicants should contact the Personnel Coordinator. ...S. Carton

Impasse Declared (cont'd from P 1)

the change accepted by administrators and other exempt employees of the college.
2. The contract statement that grievance procedures will not be in operation when there is no contract.

There were other differences, but they appeared ripe for settlement.

Union negotiator Jeff Pheterson likened the grievance procedure problem to management rights, and suggested a joint request for a ruling to the Public Employees Relations Commission. He asked for 14 percent in addition to eight percent for counselors and librarians.

When the college did not agree Wednesday to those plans, the union dropped its demand for 14 percent additional for counselors and librarians, but insisted they would not work more than 35 hours. When the college did not agree, impasse was declared.

After declaring impasse, Pheterson said the union wanted to bargain about the suspension of two teachers and reprimands for three others. Jesse Hogg, college negotiator, agreed to the request, but no real bargaining followed.

With the bargaining of the previous week cancelled by the union, there was considerable confusion over how many issues are now unresolved, and what they are.

A time table for impasse procedures is not possible since settlement can occur at any stage. Experience indicates two or three weeks for mediation, two or three months for special master hearings, and one more month for a legislative body hearing.

Hearing (cont'd from P 1)

In doing so, they exceeded the legal scope of collective bargaining, Dr. Eissey said.

Dr. Eissey told the teachers that after the hearing is concluded, he plans to recommend suspension without pay for the Fall Term and a return to annual contract status.

Happy Birthday To . . .

PBJC MONDAY REPORT:

Volume V, Number 41 August 8, 1983

Dr. Eissey Delighted

North Employees Say Thanks At Surprise Luncheon

Something highly unusual happened at a surprise luncheon for Dr. Eissey held at the North campus July 28--the college president was so surprised that for a brief moment, he was speechless!

Coming to PBJC North on the pretext of attending a Foundation meeting, Dr. Eissey was taken aback when he entered a room in the Administration complex and was greeted by family and friends yelling, "Surprise!"

After he recovered his aplomb, he asked, "What is this?" looking as if he was trying to think of whose birthday he'd forgotten.

Actually, the occasion was to thank him for his efforts and support in securing funding for three new buildings at the North campus. The employees at PBJC North organized the luncheon and a program that followed.

"We prepared this program the way we do things best at the North campus -- by everyone working together in a group," said Dr. Ottis Smith, provost.

Several presentations were made by various employees. Joan Holcomb, IMTS coordinator, introduced a cassette tape recording of different voices of people who have been influenced by Dr. Eissey in some way.

Theresa Woolfe and Marcia Gavrin, representing the classified personnel and the adjunct faculty, presented him with a collage of photos of the old PBJC North campus on 45th Street and the new campus on PGA Blvd.

The pictures of the old facility were in black and white, and the photos of the new were in color, juxtaposed to accent the contrast.

They also gave him a flyer that listed adjectives describing him, each one

PBJC Holds Its First Graduation In August

Addressing 150 graduates and an auditorium packed with their friends for the first ever summer graduation at Palm Beach Junior College, Dr. Eissey spoke of the "evolution of excellence."

. Eissey contrasted the influence of three super models" from the entertainment world with that of three "role models" from the world of business, and challenged graduates to become successful role models for future generations.

The ceremonies were the first to he held after a recent policy change to allow three graduations each year--in August, January and May--to give students graduating at these times an occasion to mark the awarding of an Associate Degree.

Another first for this occasion was the awarding of the Sallie Taylor Memorial Scholarship for the first time. The scholarship, $2,000 for continued studies to a graduate who has shown exceptional ability in the English Language and Composition was awarded to Duane Stamper, sports editor of The Beachcomber, the student newspaper.

The memorial fund was established by family and friends of Sallie Taylor, a master teacher at PBJC from Aug. 1, 1957 until shortly before her death on Aug. 15, 1980.

her scholarships awarded were the H. Loy Anderson, Sr., Memorial Award, the Marshall Hamilton Scholarship, the Palm Beach County Scholarship Foundation, the University of Florida Phi Theta Kappa Scholarship, the

Seven Finalists Selected For VP Elect Of Academic Affairs

A search committee at PBJC has narrowed a field of about 80 applicants down to the final seven for the position of Vice President-elect for Academic Affairs.

The successful candidate will work with Dr. Paul Graham, current VP for Academic Affairs until Dr. Graham's retirement.

The committee has been meeting since June to review the applications, some local, but most from other areas of the state and nation, according to personnel director Joseph Schneider.

Three PBJC Vice Presidents, Dr. Tony Tate, Dr. Melvin Haynes and Dr. Elisabeth Erling were on the committee with Schneider and two department chairpersons, Ann Steckler and Reuben Hale.

The seven candidates will be reduced to three in the near future, with these choices to go to Dr. Eissey for his interview and eventual recommendation to the college trustees.

The seven:

Dr. Luther B. Christofoli, Dean of Instruction at Florida Junior College at Jacksonville.

Dr. Patricia A. Dyer, Provost of PBJC South.

Dr. Anita J. Harrow, Dean of Academic Services at St. Petersburg Junior College.

Dr. Laurence B. Lauth, president of the Community College of Allegheny County, Pennsylvania.

Dr. Sarah H. Pappas, Dean of Instruction, PBJC North.

Dr. Gary P. Sims, Provost of PBJC Glades

Dr. Ottis R. Smith, Provost of PBJC North.

"We had an outstanding group of applicants for this position," Schneider said. "Many of them have strong administrative backgrounds in the community college systems.

"It should be considered an honor to be selected as one of seven out of such a strong field."

Graduation (cont'd from P 1)

University of South Florida Community College Scholarship, the Carris Bridwell Memorial Scholarship and the Kiwanis Club of Southside, Inc., Scholarship.

A first that did not happen, much to the relief of college officials, was the graduation birth of a child to Tammy Thompson Hensley, 21, whose due date for the commencement of a new life coincided with the Commencement Exercises.

Tammy, a 1978 graduate of Atlantic High and an early childhood education major, says she and her husband, an assistant manager at a Winn-Dixie store, plan to use some of the Montessori education methods she learned at home with the new child.

She has already used her education professionally in a school in Palm Springs.

The expectant mother, insisting her arithmetic must have been wrong because birth signs had not started, walked through the procession, recession, and across the stage for her diploma like all the other graduates.

Deadline for Monday Report items is now Thursday, noon.

Seven Shovels In The Sun

Ground Is Broken For PBJC North's LLRC/Academic Labs

Seven shovels flashed in the bright sunlight at PBJC North August 2, and flashed again and again and again, fully manned five different times.

We broke a lot of ground, and a lot of people got into the act, and all the symbolism was carried out so that our $4.2 million LLRC/Academic Labs building will have a proper beginning.

The real shovels, the blades on the ends of the bulldozers, will be on hand August 15, official opening date of the contract, according to Shannon R. Ginn, whose construction firm will build the two-story structure about 260 feet south of where the symbolism happened Tuesday.

The ceremony had been set up in the sunlight just south of the walkway between the two buildings already up at PBJC North, but when people were reluctant to leave the shade of the walkway to sit on the sun-hot chairs, Dr. Eissey moved everything 10 feet north so people could sit in the shade.

One of those seven shovels, the short one wielded by trustee Willard Findling in the first group, was the silver plated special that has broken ground at every PBJC groundbreaking so far.

Also wielding shovels were three current state legislators, Jim Hill, Jim Watt and Ed Healey, the former president of the Senate, Phil Lewis, and many other important people, including the grounds crew at PBJC North.

Dr. Eissey and Dr. Smith did their usual experienced and expert job of moving the ceremony along and introduction of guests, and Dr. Sarah Pappas and Alice Zacherl added short, informative bits, but the star of the show had to be Al Meldon.

Al's unique blend of history, philosophy and eloquence traced the beginning of PBJC North in 1971 through the addition of day classes in 1976 under a "fanatic," Bob D'Angio, including the development of the library to its present size, somehow weaving all this information into a philosophical bit about Lincoln and Carnegie Halls and a painting with a sad caption which we should make a triumphant one.

These social science people have a way with words AND facts.

Alice promised that the new library would become a "truly significant information center in the information society we are becoming."

Maybe they ought to reserve a spot for Al Meldon's speech. ... JK

Luncheon (cont'd from P 1)

corresponding to a letter of his name.

The last token of appreciation was a plaque engraved with a Bible verse, given to Dr. Eissey by Freddie Jefferson, on behalf of the full-time faculty at PBJC North.

"This is truly an honor I will long remember," Dr. Eissey said about the luncheon. "I'm exceedingly delighted that you are all a part of my family."

He said he appreciated the luncheon in light of the "trying times" the college has been through in the past few weeks, alluding to the suspension of two faculty members for disciplinary reasons.

"But this honor takes away all negativisms...you all make the load lighter," he said.

"What makes you a truly great administrator is that you truly care about the institution and the people you work for and with," said Dr. Sarah Pappas, dean of instruction.

Members of the PBJC family were joined by members of the Eissey family at the luncheon. These included his wife, Faye, oldest son Mike and his wife, Gail, son Mark, and daughter Lynn Hoshall of Jacksonville. ... KB

PALM BEACH JUNIOR COLLEGE
MONDAY REPORT

Volume V, Number 42

August 15, 1983

Auditorium Renovation Planned

Dr. Eissey To Recommend Architects To Board

Recommendation of an architect to renovate the Central Auditorium is one of the items on the agenda for the August meeting of the Palm Beach Junior College District Board of Trustees.

The Board will meet Wednesday, Aug. 17 at 7:30 p.m. in Conference Room C at PBJC Central.

Dr. Eissey will submit three recommendations for architects: Schwab and Twitty of Palm Beach, Jones and Boruff of Palm Beach Gardens, and Palm Beach Design Group of Riviera Beach, in that order.

The agenda also includes approval of two new positions in the Data Processing Department. These are a Systems Analyst and a User Liaison, both recommended in the SCT Computer Survey presented to the Board in June.

Under new business, the Board is expected to authorize renewal of the Letter of Understanding between the college and the Palm Beach County chapter of the American Institute of Banking. The Institute sets the criteria for the associate of science degree in banking at PBJC.

Old business will include final approval of a proposal to increase the bid amount from $2,500 to $5,000, and approval of fee waivers for full-time employees and their dependents.

A plan for recruitment and retention of minority students will be presented to the Board by Dr. Melvin Haynes, vice president of student affairs.

Most of the other items are of a routine nature, dealing with budget amendments, personnel items or miscellaneous bids.

...KB

Three Finalists Named For VP Elect For Academic Affairs

The field of candidates for position of Vice President Elect for Academic Affairs at PBJC which was narrowed from about 80 candidates to seven last week, has now become three: Dr. Luther B. Christofoli, Dr. Patricia A. Dyer, and Dr. Laurence V. Lauth.

Choice of the final three candidates completes the work of the committee of three vice presidents, the director of personnel, and two department chairpersons who have been working on the selection since June.

Dr. Eissey has scheduled personal interviews with the three finalists, and will recommend his choice to the board of trustees.

The successful candidate will work with the current Vice President of Academic Affairs, Dr. Paul Graham, until Dr. Graham's retirement.

Dr. Christofoli has been Dean of Instruction at Florida Junior College, Jacksonville, since 1977, was Dean of Academics there for the previous five years, and a Division Chairman in 1971-72.

He earned his Bachelor's Degree at Newberry College, his Master's at Auburn, and his Ed.D. at the University of Florida, where he was a Kellog Fellow at the Institute of Higher Education.

Dr. Dyer was instructor, Department Chairman and Dean of Academic Affairs at Broward Community College before becoming Provost of PBJC South in August, 1981.

Time: 7:30 P.M.

Place: Conference Room "C," Palm Beach Junior College

Date: August 17, 1983

Copies of the rule are available at the Library Learning Resources Center, the Office of the Vice President of Student Affairs, and the Office of the District Board of Trustees of Palm Beach Junior College.

Finalists (cont'd from P 1)

Dr. Dyer has not only been an efficient chief administrator for PBJC South, improving both the college and its reputation in the south county communities, she has served with distinction in many college-wide activities.

Her undergraduate education, with a mathematics major, was at Fresno State, where she also obtained her Master's Degree. Her doctoral work was at Stanford and Florida Atlantic.

Dr. Lauth is president of the Community College of Allegheny County, Pittsburgh, Pa., and is currently on leave to the American Association of Community and Junior Colleges to assist in the development of the Job Training Act of the Federal government.

He was president of a small rural community college in Wytheville,Va., for eight years before becoming president of the large, urban, four-campus college in Pittsburgh in 1980.

His education was at Georgetown, Fordham, the University of Maryland, and Michigan State. Much of his early work was in student services.

Dr. Lauth's resume included a page and a half list of publications, community activities, regional, state, and national committees and specialized conferences.

Mooney Updates Textbook

Stafford Mooney, PBJC South social science teacher, recently collaborated in the revision of a social studies textbook used in some Florida high schools and colleges.

Mooney, recently appointed PBJC South's Division I chairperson, and Dr. Harry A. Kersey of FAU, updated the book, "What Citizens Need to Know About World Affairs," published in 1978 by Social Issues Resources Series (SIRS), Inc. of Boca Raton.

"The text deals with international relations and contemporary world history," Mooney said. "I worked primarily on the portions that deal with the United States and its relationship with Europe since World War II."

He said the revisions involved changing the focus of some of the material, altering graphics, and updating statistical tables, where necessary.

According to a spokesperson at SIRS, Inc., the textbook is on the approved list and will be utilized in the Dade County schools. It has also been used at St. Andrews Academy in Boca Raton and the College of Boca Raton.

Student Bikes For MS

John Perry, a 20 year-old computer science student at PBJC, wanted to say 'thank you' to his mother in a big way. And he did just that, returning from a 3,200-mile bicycle trip on July 29.

Perry's mother has multiple sclerosis, a disease that robs its victims of muscular control. He wanted to show his appreciation by telling people around the country what a horrible disease MS is.

So he pedaled off on a donated Schwinn Voyager bicycle on July 11, heading for Los Angeles. Along the way, he stopped in more than 13 cities to tell his story to the local chapters of the Multiple Sclerosis Society and representatives from the media.

"I hope it meant some money was given," he told his mother and the Palm Beach Post.

The financial results of his trip haven't been determined, since donations were sent to both local chapters and national headquarte[illegible].

PBJC is proud to have a fine, caring young man such as John Perry as a student.

PALM BEACH JUNIOR COLLEGE
PBJC MONDAY REPORT:

Volume V, Number 43

August 22, 1983

Eight Percent Salary Increase

Tentative Agreement Reached In Collective Bargaining

Palm Beach Junior College and the United Faculty of PBJC reached tentative agreement on a new contract after a three hour session Tuesday afternoon with Federal Mediator Jim Elmore.

The contract calls for an eight percent across the board salary adjustment to go into effect on the date of the agreement. Other employees at the college have had a similar raise in effect since August 1.

Contract discussions had moved smoothly through seven sessions beginning April 21, with agreement apparently in sight on July 21, but the union declared impasse at the eighth meeting, July 27, and the mediator was called in.

Shuttling between closed sessions with each bargaining team, and finally in meetings with the chief negotiators on both sides, Elmore worked his way through two stumbling blocks:

The union agreed to a provision in the pay package which called for librarians and counselors to work 40 hours instead of 35. This part of the pay plan paralleled an increase to 40 hours by administrators and supervisors in the general pay plan for the college.

Jeff Pheterson, chief negotiator for the union, said the union still does not like this provision, but negotiators believe the eight percent increase for everyone, including librarians and counselors, should not be held up for this small group.

The second stumbling block involved a clause in the previous contract which makes a grievance procedure inoperative unless a contract is in force.

It was agreed that this clause would remain in the contract. Legal questions would be put to the Public Employees Relations Commission and the courts

Administrative Hearing Postponed By Court

The Administrative hearing for Dr. Joan Young and Frank Leahy, scheduled for Friday morning in the Foodservice Center, was postponed by the Fourth District Court of Appeals late Thursday afternoon.

Earlier in the day, the court denied a petition for a writ of prohibition filed by attorneys for the two teachers, suspended by Dr. Eissey for unprofessional conduct.

Later, however, after allegations that the college trustees have an interest in the outcome of the hearing, and therefore should not serve as hearing officers, the court stayed the hearing, giving the trustees 10 days to respond, and the union attorneys five additional days to answer the response.

"We welcome the opportunity for the college to answer all allegations," Dr. Eissey said, "and to show that the board of trustees does

New Students Orientation

Plans are in progress for the Orientation Assembly Program for new students at all four campuses. New students are to be dismissed from class to attend the assembly. Dates are as follows:

Glades: Wednesday, Aug. 24, 10 a.m., Dolly Hand Cultural Arts Center
South: Tuesday, Aug. 30, 10:30 a.m., FAU Gold Coast Room
North: Wednesday, Aug. 31, 10 a.m., "On the Grounds," PGA Blvd.
Central: Thursday, Sept. 1, 11:15 a.m. College Auditorium

Board Approves Minority Recruitment Plan

PBJC trustees approved a new minority recruitment plan and embarked on a major accountability study at the August meeting of the board Wednesday night.

The recruitment plan, developed and explained by Dr. Melvin Haynes, vice president of student affairs, includes the development of a new satellite center in the Black community in the West Palm Beach/Riviera Beach area by the Spring Term, 1984.

Prior to opening the center, the college will do a feasibility study, and if feasible, will proceed to find a suitable facility, determine course offerings and staffing, provide necessary resources, and recruit and enroll students.

An amount of $10,000 was estimated as cost of preparation for the center, and was part of an estimated $69,400 for the entire plan.

Asked by the board when the plan would go into effect, Dr. Haynes said, "Right now. We are already working on it."

The accountability study is required every five years by State Department of Education Regulation, and trustees are required to co-chair committees on seven different standards.

An orientation on this study will be conducted by Dr. Ottis Smith, PBJC North provost, and a member of the staff of the Division of Community Colleges from Tallahassee at 6 p.m., Sept. 28, prior to a board meeting scheduled at 7:30 p.m.

Legislators Honored At Dinner

A dinner to honor members of the current county delegation to the state legislature will be held tonite (Aug. 22) at 6:30 p.m., in the Foodservice Building at PBJC Central.

Dr. Eissey has invited members of the delegation, members of the PBJC Legislative Committee and members of his staff to the dinner. The entire purpose of the meeting is to thank the delegation for a job well done, Dr. Eissey said.

Hearing Postponed (cont'd from P 1)

not have an 'interest' in the outcome of this hearing."

The latest legal maneuver by the union attorneys came a week after they filed a $2,530,000 suit against Dr. Eissey, the board, and the college, claiming damages to the two suspended teachers, and to Patricia Johnson, Lois Meyer and Charles McCreight who were reprimanded by Dr. Eissey.

Following the usual precedent in which legal issues are discussed primarily by attorneys and courts, college officials have had little to say about either action.

However, they do not appear to be concerned by the suit, and seem genuinely to welcome the opportunity to dispose of the argument of "interest" on the part of the trustees early in the game.

Agreement (cont'd from P 1)

with both sides agreeing to abide by the decisions.

The contract will be effective from the date of signing to June 30, 1984.

The tentative agreement between parties must be put into final form and ratified by each side before the contract is final.

A meeting has been scheduled for Monday, August 29, 3 p.m., at the County Parks and Recreation building in John Prince Park.

It is hoped that a final version of the new contract will emerge from that meeting, leaving only the formalities of signing by both parties.

Foundation Names New Board Member

John W. Temple, president of Arvida Corporation in Boca Raton, has been named to the Board of Directors of the PBJC Foundation, according to Pat Wilson, director of development.

Temple has been associated with Arvida since 1975, beginning as a vice president of administration and real estate in Miami. He has been president of the company since 1982.

Before his tenure with Arvida, Temple was associated with Kaiser Aetna of Oakland, Ca., (vice president and general manager) and Data Disc, Inc. of Palo Alto, Ca. (chief financial officer).

The new Foundation director has a bachelor's degree in mathematics from the University of Washington, and a master's of business administration from Stanford University.

His other activities include: past president and director of the Florida Atlantic University Foundation; past president and director of the Palm Beach County Development Board; chairman of the Economic Council of Palm Beach County; member of board of directors of NCNB National Bank of Florida; member of board of directors of South Florida, Inc; member of board of directors of Circle S Industries, Inc; and member of Florida Council of 100.

The Yuba City, Ca. native has three children and resides in Boca Raton.

PBJC Personnel Perform County-Wide Service

Alice Zacherl, librarian at the North campus, was appointed last week by the Palm Beach County Commission to serve on the eleven member cable TV task force.

The purpose of the task force is to revise cable regulations and keep abreast of new technologies and development concerning satellite TV.

The task force includes representatives from industry, the legal profession, engineering, consumer interest and developers. Alice is the only representative from the educational community.

Many other PBJC personnel serve on county-wide advisory commissions. Others we know about are: John Schmiederer, dean of occupational studies, Palm Beach County Private Industry Council; Dr. Kathy Aiello, continuing education coordinator, Commission on the Status of Women; George Matsoukas, assistant director of development, Community Action Council.

How about letting the Monday Report and our readers know if you serve in a similar capacity.

Faculty Art Show

The recent works of several members of the art faculty at PBJC will be on display from today through Wednesday, August 31 in the Humanities Gallery at PBJC Central.

"We should have about six or seven instructors showing all sorts of types of artwork.... sculpture, drawing, painting, prints, and photography," said Rueben Hale, art department chairman.

The Humanities Gallery is open Monday through Thursday from 8 a.m. to 10 p.m., and on Friday from 8 a.m. to 4 p.m.

For more information, call the Art Department at 8142.

Dr. Kathleen L. Bowser served as an evaluator and consultant for the American Montessori Society in July when she was a member of an evaluation team that visited a new AMS accredited course at Virginia Commonwealth Univ. in Richmond, Va. Dr. Alice Pieper, Associate Professor, Early Childhood Education, was awarded a merit citation and merit raise for developing the program for VCU.

My sincere thanks to my friends at PBJC for their support, thoughts, prayers and cards sent to my family and me during my sister's illness and death. ...Ruth Bradbury

Personals (cont'd)

According to the CPR Update, a newsletter from the American Heart Assn., Sylvia Meeker and Emily Erickson-Kutlik have certified 50 or more persons in CPR. They are members o the "500 Club." Mary Cannon, LPN, is a member of the "1000 Club." ...C. Beck

We extend our deepest sympathy to Diane Lester and family on the sudden death of her brother-in-law last Monday in an auto accident, which also injured several other family members.

It is with sincere appreciation and gratitude that I express my thanks and that of my family, for the many cards, flowers, and condolences expressed as a result of the recent loss of my mother. It is comforting to know we have so many friends who think of us in times like these. Thanks again. ...Mrs. Kittie Wilson

Friends of Betty Linn will be happy to know that her hip surgery was successful, and Betty is now resting at home and doing well.

Congratulations to Susan Marlowe, marketing instructor and DECA advisor, for her recen election to vice-president, post-secondary Florida Association of Marketing Education. ...Ann Steckler

Union Recedes

The college has been informed by Dr. James F. Gollattscheck, president of Valencia, that the United Faculty of Florida has apparently abandoned an attempt to form a union there.

An election had been expected at Valencia in September, but a notice has appeared in all faculty mailboxes under the heading PETITION WITHDRAWN: "After careful evaluation of all conditions that now exist at Valencia, the United Faculty of Florida has decided to withdraw its Representation-Certification Petition..."

PALM BEACH JUNIOR COLLEGE
MONDAY REPORT:

Volume V, Number 44
August 29, 1983

We Want You At Our Birthday Party

Anniversary Dinner/Dance Tickets Going Fast

If you want to attend our Golden Anniversary Dinner/Dance, it is a pretty good idea to get your tickets right away. October 22 sounds like a long time away, but we will probably be sold out by the middle of September.

Negotiators Schedule Wrap-up Meeting

Negotiators for the college and the United Faculty will meet this afternoon in a session which has been planned as the last meeting necessary before a contract is offered to unit members for a ratification vote.

After the meeting of Aug. 16, (reported in last week's Monday Report), the college collective bargaining team worked swiftly to prepare a contract draft, and did so early last week.

Included were articles carried over from last year's contract, agreements reached during this year's bargaining, and the two key items of Aug. 16 when agreement was reached with the aid of Jim Elmore, Federal mediator, producing the traditional handshakes for the TV camera.

Preparations have been made to add the eight percent increase to faculty salaries when the contract is ratified, and to have the increase show up in pay checks as soon thereafter as is feasible.

The meeting today is at 3 p.m. in the County Parks and Recreation Building in John Prince Park.

FACC's Casey To Visit

Dr. L. Frank Casey, Executive Director, Florida Association of Community Colleges, will visit the PBJC Campus on Wednesday, Aug. 31.

He would enjoy meeting you individually and discussing the interests of the community college system and FACC with you. Drop in

Cont'd on P3

There is a two-tiered price structure on tickets. If you are one of the lucky ones who have received an invitation to purchase tickets at $35 each, you are getting a real bargain.

Here are some of the things you will be getting:

One of the better Breakers meals, (roast tenderloin of beef bordelaise as an entree with everything else to match), in the Breakers superb setting.

Two complimentary cocktails.

Some very good wines with the meal.

Champagne for the toast.

The Marshall Grant orchestra with Marty Kay at the piano.

A multi-media program which will include some alumni, some of our own teachers and administrators, slides, music, some true stories about our college you have never heard before... narrated by our most famous alumnus.

A memento costing about $5 we believe you will like, a souvenir program we think will become a collector's item, costing about the same to produce, and a special historical edition of the Beachcomber.

The chance to be there when Duncan leads us all in a toast to the past, present and future of the college.

When you include the fact that many of our respected and accomplished alumni are planning to attend along with Burt Reynolds and Monte Markham, you can see why more than 100 tickets at the regular purchase price of $75 were

PBJC Dugout Club To Sponsor Golf Tournament

The newly-formed Dugout Club at PBJC will sponsor the "PBJC Dugout Club Open Golf Tournament" Saturday, Sept. 24 at the Eastlakes Country Club in Palm Beach Gardens.

Shotgun start is 8 a.m. with a scramble format.

"The proceeds from the tournament will be used for new uniforms for this year's baseball team," said baseball coach Frank Cacciatore. "Last year, the Pacers won their first Southern Conference championship."

A buffet lunch will be served after the round, and beer and soda will be provided on the course. In addition, prizes for longest drive, lowest score, closest to the pins and others will be awarded.

The price for the day, including luncheon, carts and greens fees, will be $35. The field will be limited to 144 players.

For more information, call Coach Cacciatore at 439-8067 or 798-0169.

Some Local Editorial Opinion

The Miami Herald

Merit vs. Mediocrity

IF EVER there were a milieu where merit pay ought to work, it's higher education. There, it's nothing new. Professors traditionally have been rewarded for their achievements, even if the system of rewards wasn't always called "merit pay."

In colleges and universities, moreover, evaluating a faculty member's performance is easier than in a typical elementary or secondary school.

For one thing, colleges' lighter teaching schedules facilitate having a faculty member's classroom performance observed and evaluated by department heads and other administrators.

In addition, to a much greater degree than in lower grades, excellence in college teaching involves well-rounded achievement in such non-classroom activities as research, publication, service, and counseling. These areas of achievement are often easier to identify and evaluate.

So merit pay ought to work in Florida's state university system just as it has worked historically elsewhere. Florida ought to be able to reward its better professors — not only because they've earned it, but also for the very practical reason that they're often in demand in other states with higher pay scales.

Alas, what ought to be simple is being complicated by a factor relatively new to Florida's academic scene: faculty unions negotiating a contract with the Board of Regents under the state's cumbersome collective-bargaining law.

With the academic year scheduled to begin within a fortnight, the United Faculty of Florida and the Board of Regents still haven't agreed on a contract. A Sept. 1 pay raise is thus in danger of being delayed.

The issue this year isn't new. Basically, the union and the board disagree on how to allocate the $13.5 million that the Legislature provided to raise salaries.

The board wants to commit a significant amount of the money to merit-pay raises. This would enable the state to reward its better professors, many of whom have been sorely tempted to join their former colleagues who've left for better-paying posts in other states.

The union, characteristically, wants most of the money used for across-the-board raises and practically nothing for merit pay. Why is this characteristic? Because faculty unions rarely represent the views of the Nobel laureates and other outstanding professors who would benefit the most from merit pay. Those professorss are too busy with their research and teaching to fool with faculty-union politics.

Rather, the union tends to reflect principally the views of the drones of the academic beehive. They favor across-the-board raises because many wouldn't qualify for raises based on their comparative merit.

Their view must not prevail. The 1983 Legislature, with its obvious concern for improving educational quality at all levels, didn't give the regents $13.5 million for raises with the intention of perpetuating mediocrity. The board should stand firm for merit pay lest it risk losing the lawmakers' confidence in future years.

The Evening Times

West Palm Beach, Florida, Tuesday, August 23, 1983

Union is part of the problem

Labor unions are widely reported to be losing membership and influence. The recession, which found unions presiding over employee "give-backs" and failing to protect against massive unemployment, made paper tigers out of a lot of unions. Through it all the basic unreasonableness of union leadership has been put into the spotlight.

A local example is offered by Dave Barry, president of Local 1625 of the United Food and Commercial Workers Union, with members in the floundering Pantry Pride food chain. Pantry Pride is closing a number of its stores, and Barry objects — but his union is a major part of the problem.

First, Pantry Pride is the only chain in its competitive field with union workers. As expected, its employees are paid more than those of competitors. As auto and steel and other companies discovered, to widespread sorrow, it is especially difficult to compete when your payroll costs are higher than those of your competitors.

In this atmosphere Barry contends that Pantry Pride should (1) keep its marginal stores open, (2) pay the same noncompetitive wage and (3) guarantee that if and when any closed stores are opened, the company will open them with the same labor millstone around its neck.

To anybody but a tunnel-visioned union leader it must be obvious that 2 and 3 make it unlikely that *any* stores can remain open very long. It should be apparent also that keeping marginal stores open just so union workers can be employed may be great for overpaid workers, but it is anathema to stockholders.

Through this failure to adjust to changing market conditions, labor unions not only cause major unemployment but look ridiculous in the process.

PBJC Employees On Selective Service Boards

Three PBJC employees have been recommended, and one accepted, for appointment to the local Selective Service Board.

Freddie Harrell (Glades) and Ron Moses (Central) were interviewed in July and were recommended by Frank Littler, an associate professor of communications at PBJC South who is also in the Air Force Reserve and with the Selective Service Board in Miami.

Dr. Peter Krieger of PBJC South was interviewed in April and has been accepted. According to Littler, President Reagan has been notified of Dr. Krieger's appointment.

One other PBJC employee is involved with the local board. Otis Harvey has been a board member for about a year and a half, Littler said.

"The local board members are responsible for hearing claims by local registrants for the draft who would have been inducted....primarily claims of hardship, conscientious objector, and religion students and ministers of religion," Littler said.

"The board members decide on the legitimacy and validity of the registrant's claim," he added.

"Let me emphasize there is no induction of draftees going on now, nor is there any anticipated. This program is just insuring their readiness to go into operation should they ever have to," he said.

Dental Technicians Pass National Exams

All dental technician students at PBJC have passed the exam given by the National Board for Certification in Dental Technology, according to Dr. James L. Flatley, dental health chairman.

"We had 11 students who took the exam just before graduating from the two-year program this past May," he said. "This is a special distinction for them to have passed the 'Recognized Graduate Exam'."

Dinner Dance (cont'd from P 1)

spoken for even before we got the tickets printed this week, mostly because word has leaked out about what we are planning.

You are reading our first news release about the dinner dance, and the reason we are telling you first is that we want you to know about this once-in-a-lifetime opportunity, and we don't want you to wait too late to get your tickets purchased from Dr. Erling's office.

The sale of the $75 tickets and donations from many of our friends have been necessary to allow us to offer the $35 price to those who have received those invitations.

But tickets are limited. We stop selling when we hit 500, because we cannot seat more than that number. We want you to be at our birthday party, so don't wait too long. ...JK

FACC (cont'd from P 1)

from 9:30-10:30 a.m. in Conference Room C and let your voice be heard.

It is also time to think about joining FACC. Dues are $25.00. The purpose of FACC is to promote the development and advancement of Florida's public community college education.

PALM BEACH JUNIOR COLLEGE

PBJC MONDAY REPORT

Volume V, Number 45 September 6, 1983

One Half Percent Loss

Enrollment Takes A Small Detour

Fall term enrollment is slightly down from a year ago--not enough to ring all the alarm bells, but any decrease after six straight years of annual increases needs to be examined.

The decrease was .5 percent in credit enrollment, 1.5 percent in student semester hours, and 5.2 percent in overall enrollment.

Gains scored at PBJC North and PBJC South were slightly more than cancelled out by losses at PBJC Central and PBJC Glades.

Credit enrollment, which Charles Graham called "the most significant part" of total enrollment was 11,855 this year, 11,923 last year, a loss of one half percent.

PBJC North showed an 8.2 percent gain, PBJC South showed a 4.6 percent gain, PBJC Central a 2.7 percent loss and PBJC Glades a 14 percent loss.

The overall figures, including non-credit students, showed 12,788 this year and 13,461 last year.

"The non-credit enrollment changes every day, and continues throughout the term," Graham said. "We will have an entirely different figure, and a much larger one, at the end of the term for total enrollment."

The small drop in enrollment was the first at PBJC since 1976. There was a similar small decrease in 1967.

"We do not know why our usual pattern of annual increases changes from time to time," Graham says.

He said he doubted that the small decrease this year represented any long term or significant change.

Figures for the most closely watched section of all by people here at the college--student semester hours--

Cont'd on P 2

FACC Director Casey Seeks New Members

Twenty-three faculty and staff members met with the Executive Director of the Florida Association of Community Colleges (FACC) last Wednesday when he came to PBJC on a membership campaign.

"Perhaps the most important reason for joining FACC during this current membership drive is to help the association's long war on Proposition I which threatens the existence of community colleges," said L. Frank Casey, FACC head.

"If Proposition I is successful, we can think in terms of cutting back staff, reducing salaries and closing buildings because there can be a reduction in funding up to 40 percent."

He said FACC is the only statewide organization that represents community colleges.

As part of a local effort to recruit new members, the PBJC chapter of FACC will sponsor a wine and cheese party Friday, Sept. 23 from 4-6PM at the home of Mr. & Mrs. James Tanner. All PBJC employees are invited.

For directions or more information, call George Matsoukas at 8073.

New Faculty Reception

The President's Reception honoring the District Board of Trustees and the new faculty members of PBJC will be held Sunday, Sept. 11 from 2-4PM in the Foodservice Center at PBJC Central. The reception will be hosted by Dr. Eissey, and guests will be introduced at 3PM.

Getting To Know You

Dr. Helen Popovich, the new president of Florida Atlantic University, visited Palm Beach Junior College for the first time Thursday afternoon.

Dr. Eissey shared her visit to the college with the Administrative Managerial group at a quickly arranged reception during the early part of a regular meeting of the group scheduled for 1:30 p.m.

Dr. Popovich said she had already learned of the excellent record of cooperation between PBJC and FAU, and assured everyone that this record would continue and even intensify in the future.

She displayed a thorough knowledge of the importance of the community college system, and spent a half hour meeting and chatting with PBJC managerial personnel.

Announcements (cont'd from P 4)

Annual Key Audit for all non-instructional staff and all 12 month administration staff will be on Wed., Sept. 7 and Thurs., Sept. 8. Please check all keys with the Property Records Coordinator, rear of the Bookstore-Receiving Center. Any 12 month instructional staff who have not had keys audited this year, please do so at this time. ...M.A.Reasner

The following position vacancy is being announced:

Systems Analyst/User Liaison: Position requires a bachelor's degree or equivalent experience with a minimum of three (3) years of related systems/programming experience. Experience in accounting, on-line programming and data base management systems is preferred.

Interested applicants should contact the Director of Personnel. ...J.M.Schneider

The North Campus Continuing Education has scheduled micro-computer short courses that might be of interest to faculty and staff. These courses do qualify for fee waiver requests and meet on Saturday beginning September 17.

Basic Word Processing; Intro. to BASIC Programming; Personal Computer Applications; Micro-Computers-A Management Asset.

Call 622-2440 for more information. ...Betty Woolfe

Enrollment (cont'd from P 1)

showed the same patterns as the rest of the enrollment.

Overall, we went from 96,437 to 95,037, a loss of 1,400--about 1.5 percent.

North increased by 892 hours to 17,365. South increased by 911 hours to 15,703.

Central decreased by 2,718 hours to 58,607. Glades decreased by 485 hours to 3,362.

As everyone at the college knows, or should know, state funding is directly related to student semester hours.

We need to do everything we can to analyze the drop, slight as it is, and to determine what needs to be done to get back to our usual increase.

REMINDER

Ticket sales for the dinner dance October 22 reached 267 Thursday, over the halfway mark. Don't wait too late.

Happy Birthday To . . .

9/06 Joe Neumann, Sandy Shaw, Diane Lester 9/07 Mary Woods 9/08 Roy Fox, Otis Harvey
9/09 Alicia Markwood, Diane Terry, Penny Brown

Women Artists Display Recent Works

Five women artists of the Gold Coast will show a variety of recent two-dimensional works at the PBJC Humanities Gallery during September.

Participating artists include Eleanor Clarke of Plantation, Mary Dorst of Boca Raton, Ruth Sabowitz of Pompano Beach, and Rosanna Saccocio and Mary Lou Siefker of Ft. Lauderdale.

Clarke is a prize-winning watercolorist who recently won third place in the national Houston Watercolor Art Society competition.

An adjunct professor at PBJC, Dorst is also art director of the Palmetto Gallery project of NCNB Bank in Boca Raton. She is currently working in pencil and pastel in two neo-realist directions: skyscapes of cloud formations and figure works taken from vacation photos.

Sabowitz holds a bachelor of fine arts from FAU. Her semi-abstract oils have received much acceptance in private collections, and she is often commissioned to do triptychs and wall arrangements.

Rosanna Saccocio is a printmaker and collagist who has a fabric design studio in Ft. Lauderdale. Her major awards and commissions include Art in Public Places in Broward, the Hortt Memorial, and the Las Olas Art Fair.

Siefker is an expressionist and an adjunct instructor of painting at FAU, who has shown in the Hortt Memorial in Ft. Lauderdale and at the Society of the Four Arts in Palm Beach.

The show opens Sept. 7 and will continue until Sept. 28. For more information, call the Art Department at 8142.

Measles Immunization

To all personnel dealing with students: Students between 18-35 years of age who have not had measles disease may be immunized FREE OF CHARGE at your local county health department from 2-4PM Monday through Friday: DELRAY BEACH 272-9700; WPB 837-3000; RIVIERA BEACH 844-3561; LAKE WORTH 586-4801; BELLE GLADE 996-1600 and JUPITER 746-6751. The college strongly recommends that all credit and non-credit, part-time and full-time students under 35 years of age who have not had measles or were immunized for measles before 1968, obtain a measles immunization prior to attending PBJC. For further information, call Mary Cannon, college nurse, at 8066.

Help The Open House

We are in the homestretch of our planning for our Open House festivities on Sunday, Nov. 6, 1983. While there are many other planned activities in connection with PBJC's 50th Anniversary, we wish to emphasize the culminating activities of Open House. We are only 62 days away from our gala Open House celebration.

We are requesting that each department let the Open House committee know about its plans for a special program or displays between the hours of 1-4 P.M. on Sunday, Nov. 6.

Please let us know about your plans as soon as possible.

...Co-chairpersons, Open House, PBJC Central, Dr. S. Bottosto & Dean Paul Glynn, Retired

Choral Arts Society

A new choral group which includes at least 50 voices has been formed by Continuing Education, according to coordinator, John Townsend.

The group, to be known as the Choral Arts Society of the Palm Beaches, is under the direction of David Chandler.

Registration started August 29. Scheduled rehearsals will be held each Monday at 7:30PM in HU-5. The fee is $15, and includes music.

THIS Week . . .

Personals . . .

Sunny Meyer, assistant professor in communications, recently had the honor of presenting her original one-woman show Isadora: Artist In Conflict for the Chautauqua Women's Club in Chautauqua, NY. Ed Pugh has been a summer resident of Chautauqua for many years and encouraged Sunny to contact the organization about the possibility of performing there. The Women's Club invited her to be a guest artist, and she reports that the performance before 400 spectators was very exciting and the reception very responsive and enthusiastic.

Thanks to everyone whose thoughts, prayers, notes, cards, calls, flowers, visits and just plain thoughtfulness helped make my recuperation from hip surgery a pleasant time. I am now walking more than two miles a day, still with a cane, but I am hoping that I'll eventually be able to walk without it.
...Betty Linn

To my friends who remembered me with cards, visits, calls and gifts during my recent surgery, thank you. Your kindness will always be remembered. ...Madlyn Hebert

Personals (cont'd)

Many thanks to all of you for your concern, kind words and prayers regarding my granddaughter, Katie Cooper. Her parents, Chris and Rick, are also very appreciative for all the kindness extended, both in words and to the fund established for her. The first experimental surgery was performed in Boston on Aug. 17th and the doctors feel that it was successful. Hopefully, Chris will bring Katie home next weekend. There probably will be a follow-up story by Steve Rothman in the Post-Times. Thanks again.
...Sue Frazier

I would like to express my sincere thanks for the many prayers, cards, flowers and condolences during the recent loss of my brother-in-law. May God bless each of you. ... Diane Lester

Dr. Robert Geraldi of the South campus was one of the reviewers who worked on the updating of the 5th edition of Spanish Review, a text used by PBJC in Intermediate Spanish classes. Additionally, Geraldi had a book review of an edition of Lazarillo de Tormes Spain's first Picaresque novel, published in the May issue of Revista de estudios Hispanicos, a journal devoted to Hispanic literary studies published by the University of Alabama.

Announcements . . .

Free Heart Risk Factor Screening will be held in the student health clinic on the Central campus the last three weeks of September. The testing is co-sponsored by the American Heart Assoc. (not affiliated with the United Way) of Palm Beach County. The testing is free to employees and students. For more information on the testing, contact the nurse at 8066. Please note change in location for the screening.

The Social Science Dept. of the college will have a Memorial Service for the late Rosalind S. Kochel at 3PM on Tuesday, Sept. 6 at the Dorsey Funeral Home just north of the college on Congress Ave. in LW.

PALM BEACH JUNIOR COLLEGE
PBJC MONDAY REPORT:

Volume V, Number 46 September 12, 1983

On, Off, On Again, Off Again, On Again
Tentative Accord Reached On Contract - - Again

The on again, off again contract between the college and the United Faculty is now on again--at least for the time being. The latest reversal of direction occurred at a meeting called Thursday afternoon at the request of the union.

The sequence of events since July 21 has been unusual, even for a collective bargaining history which has specialized in being different.

On July 21, all appearances were that both sides were moving swiftly toward a contract.

On July 27, almost without warning, the union called an impasse.

On Aug. 16, the union agreed to a contract that differed in only one way from that contract that appeared so sure on July 21.

On Aug. 29, the union repudiated its previous agreement, and said they would call for a special master.

On Sept. 8, the union again agreed to essentially the same contract they first agreed to on Aug. 16, and then repudiated on Aug. 29, with one minor exception.

The exception is that librarians and counselors will be able to choose either of the two options offered by the college: 1. Accept an eight percent raise and go to 40 hours per week. 2. Get the same raise, stay on a 35

Cont'd on P 2

Going, Going . . .

As of the noon Thursday deadline of the Monday Report, only 40 tickets for Oct. 22 Dinner/Dance remained unsold. By the time you read this, we will probably be sold out.

We do hope you took our advice, and got your tickets early. Everything is shaping up for a great birthday party!

Taiwanese Faculty Visiting PBJC

Two computer scientists from the Republic of China will be the guests of PBJC for most of the Fall Term, according to Dr. Elisabeth Erling, vice president of planning and information systems.

Mr. Wang Pei-Ning, 40, of the Fu-Hsing Institute of Technology in Tou-Cheng, and Mr. Yuan Chiushih, 36, of the Chien Hsin College of Technology in Chung Li, will observe classes in PBJC's Engineering Technology program.

"The gentlemen will start on Monday,(Sept. 12), and stay until Dec. 14," Dr. Erling said. "We hope they will be invited to speak at various places in the community while they are here."

She said the visit was arranged by the national Community Colleges for International Development.

Though no PBJC faculty members went to Taiwan this year, Dr. Erling said the Taiwanese' visit is the "beginning of an international program we hope will develop and grow at PBJC."

NOTICE-REKEYING THE ALLIED HEALTH BLDG. Sat. Sept. 17. New keys will be issued from the Inventory Office starting Thurs., Sept. 15. Those instructors teaching part time-evening, pick up your keys at your message center. Those instructors teaching Cont. Ed. classes, pick up your keys at that office. Please return obsolete keys after Monday, Sept. 19.

hour week, and work on a 196 plus 30 day contract, which will not include paid holidays and annual leave.

Asked how many had indicated a desire for option 2, union team members said a "very small number."

In accepting a union proposal to allow the choice by individuals rather than by the entire unit, Jesse Hogg, chief negotiator for the college, said the "hybrid" proposal had not yet been accepted by the board, the president or other administrators.

"We will recommend the contract," Hogg said, "but we certainly cannot guarantee its acceptance."

Assuming no snag, the new contract could be ready for a union ratification vote prior to the next board meeting of Sept. 28.

PALM BEACH JUNIOR COLLEGE
PBJC MONDAY REPORT

Volume V, Number 47

September 19, 1983

Supreme Court To Hear Appeal

Final Managements Rights Chapter Begins

The final chapter of the long, long book on Managements Rights being written in the courts by the college and the United Faculty is about to begin: The Supreme Court of Florida will hear the case. Announcement that the court will accept briefs next month and hear oral arguments Jan. 13 at 9:30 a.m. was greeted with pleasure by Jesse Hogg, college labor attorney who said he was "elated."

He said the decision to hear the case means that the court believes the issue is one of importance to the whole state.

Supreme Court hears only a small number of the cases appealed to it, "something like one out of 30," he said.

The union, of course, fought to keep the court from hearing the appeal.

The long book got its start in 1980 when the college, through Hogg, sought to retain its ability to make and implement decisions about matters not covered in the contract prior to bargaining about them -- a right it had already been exercising in all previous contracts.

The union objected to a new clause made necessary by recent court decisions, went through the impasse procedure, and then filed unfair labor practice charges with the Public Employees Relations Commission on 12/10/80 instead of signing a contract with a 9.5 percent increase in it.

A maze of counter charges, new but related charges, decertification attempts blocked by technicalities, and appeals has been travelled by both sides since that time.

During one phase of the journey, an escrow account was set up, and about $500,000 in disputed salary payments is still there, awaiting the

South Seeks Advice From Community

At a critical point in its history, PBJC South is turning to the community to ask for advice in setting directions for its future.

With expansion of facilities looming on the horizon, the college will determine how South County business, industry and government can best be served, both now and in the future.

The college has invited about 150 community leaders to a meeting and workshop to focus on the educational needs of the South County, Tuesday, Oct. 4 from 9 a.m. to 2 p.m. at the Holiday Inn at Glades Road and I-95.

These community leaders will be separated into small groups, where they will brainstorm and make recommendations on topics such as types of courses, high technology, general education, kinds of employees they will need, and business training.

"We are hopeful of implementing the thoughts and plans of the community leaders," said James Tanner, PBJC South dean of instruction. "With the contribution of their knowledge and experience, we will be able to set realistic goals, and procedures for reaching them."

The implementation of this advice should not be long in coming. At present, several relocatable buildings are being installed on PBJC South's site on the FAU campus. A aster Plan is also being developed.

This year, more than 3,000 students are expected to be served there. When construction

Pat Wilson Elected Chairman Of Cultural Executives Committee

Pat Wilson, director of resource development at PBJC, was recently elected chairman of the Cultural Executives Committee (CEC) of Palm Beach County.

The CEC, comprised of 35 heads of cultural organizations throughout the county, will be responsible for setting guidelines for the distribution of $350,000 allocated for cultural activities from the tourist development tax.

The CEC will also act as an advisor to the county Council of the Arts and the Tourist Development Council. Consequently, on Aug. 31, Wilson was elected as an ex-officio member of the Council of the Arts.

"The Cultural Executive Committee will present their guidelines to the Tourist Development Council, and then to the County Commission on Sept. 20," Wilson said. "Following approval by the commission, requests for proposals will be advertised.

Other CEC members who are affiliated with PBJC are Judith Schiele, program specialist for the Cultural Arts Center at PBJC Glades, and Anita Furst, administrator of the Institute of New Dimensions at PBJC North.

Tax Shelter Annuities

It has been brought to our attention that the "banking company" has been somewhat delinquent in transmitting funds to the other tax shelter companies, thus resulting in a loss of interest on the part of the policy holders.

Several suggestions have been made by staff members as to how this can be remedied but additional programming would be needed to implement these suggestions.

We are looking into other ways of solving this problem and as soon as a solution is found, we will notify you via the Monday Report.

We thank those members of the faculty and staff that brought this matter to our attention.
...Dr. T. Tate

Firearms On Campus

(Commissioner of State Department of Education, February 4, 1972)

No recruit officer student will be permitted to remain armed or in manual possession of a firearm within the classroom area of any basic recruit training program conducted under the supervision of the Department of Education except as follows:

1) Where a facility contains a proper laboratory and is designed to accommodate firearms identification and ballistics experimentation, a firearm may be securely maintained or utilized by a student under supervision and control of a qualified instructor.

2) When under the close supervision of a qualified instructor, unloaded guns may be used by students when instruction is being given in the handling and use of firearms.

3) When a recruit officer student successfully completes the required firearms training portion of the basic recruit training program as is required by the Florida Police Standards Board.

All trained law enforcement officers will be expected to use utmost care and caution when wearing their firearms in classrooms.

PALM BEACH JUNIOR COLLEGE MONDAY REPORT

Volume V, Number 48 September 26, 1983

Contract, Student Fees, Auditorium, South Survey

Many Significant Items On Board Agenda

Many items of significance to the future of Palm Beach Junior College and of interest to the public will be before the board of trustees Wednesday, 7:30 p.m., in Conference Room C at PBJC Central.

First Chef Apprentices Savor Success

Two PBJC chef apprentices became the first chefs graduated from a Florida school when they were certified last Wednesday night at the Breakers Hotel.

The final exam for Anthony DeVincenzo of Westwood, NJ and Richard Grigsby of Philadelphia, was to prepare a six-course meal for about 40 people, a task they seemed to handle beautifully.

"It was a fabulous affair," said Celeste Beck, consumer education and home economics chairperson. "They did a souffle for dessert, 32 individual ones. You've got to be really sure of yourself to do a souffle.

"When they brought it out, all the chefs (in the audience) started applauding because the height of the souffle was twice as high as the dish, and that's the mark of a good souffle," she added.

The menu included hors d'oeuvres and champagne, duck consomme julienne, salmon quenelles with dill sauce, passion fruit sorbet, veal a la GrigCenzo with hollandaise, heart of Boston with herb dressing, French bread, and grande marnier souffle.

The dinner was prepared for a most discriminating group of people: members of the Palm Beach County Chef's Association, executives from the Breakers, PBJC faculty, officials from the State Labor Board, representatives from the American Culinary Federation, and members of the local media.

The Chef's Apprenticeship program at PBJC is a cooperative effort with the County

Cont'd on P 3

In one of the early items on the agenda, the board will be asked to ratify a collective bargaining agreement with the United Faculty of PBJC if a unit vote scheduled prior to that time is favorable.

FEE INCREASE

The board will be asked to authorize collection of five percent more in tuition and matriculation fees for student aid, beginning in the Winter Term, 1984, as authorized by the recent legislature.

The amount as currently calculated would be an additional 95 cents per credit hour for in-state students and $1.90 for out-of-state students. If permission can be obtained from the Division of Community Colleges to round out these amounts, the new fees would be increased $1 and $2 per credit hour.

AUDITORIUM

Educational specifications for the long-awaited renovation of the auditorium at PBJC Central will be presented for board approval. The plan calls for remodeling the current auditorium space into a large workship and storage area, production office, other offices, and a small, 150-seat auditorium.

The stage would be enlarged and remodeled to face east, instead of west, and a 700 seat auditorium built east of the stage. Other modifications will provide dressing rooms, and a large new loft area with a ceiling 155 feet above the stage and a modern fly system.

SOUTH SURVEY

The board will receive recommendations of the state survey team which authorizes

Cont'd on P 2

Aspiring Actors Get Tips On Auditioning

Music students at PBJC got some practical advice on how to audition for dinner theatre productions, and they got it from a very reliable source.

Mike Duff, music director for the Burt Reynolds Dinner Theatre, and his wife Priscilla, a professional singer, were guest lecturers last Wednesday at the Music Seminar coordinated by Dr. Hugh Albee.

"All you really have to do is stand there when you audition," she said. "If they want to see you dance, they will usually take you to another room and show you what they want you to do."

"Dinner theatre is an actor's bread and butter, and is a good training ground," he said. "An actor or singer needs to know how to sight sing, mark music and follow a conductor."

The couple had some words of wisdom for instrumentalists as well.

"The salaries are very good, but the problem is to find a player who can double," she said.

Music seminar is a series of weekly lectures, workshops, film showings, artist's performances and student recitals, which feature national and international recitalists, PBJC faculty members, or students.

The seminar is held each Wednesday at 1:20 p.m. in HU 110, and is a non-credit course which all music majors are expected to attend.

"It's not generally open to the public, but any student or member of the faculty is welcome," Dr. Albee said.

Board (cont'd from P 1)

construction as funds become available of 132,919 square feet at the PBJC South campus--more than twice the size of the current Glades Campus--and slightly larger than existing buildings at PBJC North, including the Library/Academic Labs building currently being constructed.

A complete campus--missing, of course, such items as are already in existence at FAU and will continue to be used by both institutions--has been authorized.

Other construction items involve a request for a supplemental survey of PBJC North, a new project priority list, schematic drawings of the student services building at PBJC North, and selection of three architects for phase III millage projects.

TENNIS/RACQUETBALL FEE

A new fee of $1 per person/per court hour for non-college personnel will be recommended to help defray cost of court maintenance.

An agreement with the county for the college to become a host agency for Senior Aides will be proposed.

PERSONNEL

Four faculty promotions are among personnel changes recommended. They are: Dr. John Adams to Professor, Odas Arant to Assistant Professor, Dennis Davis to Senior Instructor and Philip Millard to Senior Instructor.

The administration will make its recommendation for Vice President Elect of Academic Affairs, a training position to work with Dr. Paul Graham, Vice President of Academic Affairs until his retirement on June 30.

Ethnic Reception Scheduled

Palm Beach Junior College would like to form its own "United Nations" for a few hours Tuesday afternoon, Sept. 27.

The college's Center for Multicultural Affairs is planning a reception for all representatives of different nationalities in the county, with Dr. Eissey as special guest.

"We are sending out an appeal to any multicultural groups to contact us so we may personally invite them to this reception," said coordinator John Townsend.

"We feel that a gathering such as this would provide the opportunity for all of us to demonstrate the heritage that makes America great."

Townsend has asked that members of different multicultural groups wear the ethnic clothing that "best represents the culture of their respective countries."

The reception will be held at 2 p.m. in Conference Room C on the Central campus.

For more information, call John Townsend at 8161.

Voter Registrar Class

A class for those interested in becoming official deputy voter registrars for Palm Beach County will be held at PBJC Tuesday, Sept. 29 from 7:30-9 a.m. in the Allied Health Auditorium.

Jeri Edmonds, an instructor from the Supervisor of Elections' office, will conduct the seminar.

PBJC students are welcome to participate, and registrars will be expected to serve at least two hours during Voter Registration Week at PBJC Oct. 10-14.

For more information, call Ed Pugh at 8045.

Late Personal . . .

It's a boy! Congratulations to Kathy Aiello and husband, Gene, on the birth of a son, Michael Eugene, on Saturday, September 17 in Good Sam. Kathy and her son, who weighed 7 lbs., 15 oz., are at home now, and both are doing fine.

Sold Out

As predicted in the Aug. 29 Monday Report, tickets for the Oct.22 Golden Anniversary Dinner/Dance at the Breakers sold out quickly.

A few were left on the following Monday, but by Sept. 12 they all were taken. Before the end of that week, a waiting list had been developed that is longer than needed to fill any vacancies that might occur.

All arrangements are proceeding on schedule, and the event should be a fun-filled evening. We hope you took our advice, and hope to see you there.

Chefs (cont'd from P 1)

Chef's Association. Each student serves a three-year apprenticeship at one of the area's hotels or restaurants, in addition to studying at the college.

Other PBJC apprentices are working at the PGA Sheraton, Palm Beach Bath and Tennis Club, and Palm Beach Polo Club in Wellington.

PALM BEACH JUNIOR COLLEGE
PBJC MONDAY REPORT

Volume V, Number 49 October 3, 1983

Dr. Graham To Retire In June, 1984

Dr. Dyer Named VP-Elect of Academic Affairs

Dr. Patricia A. Dyer was named Vice President-Elect of Academic Affairs by the Board of Trustees of PBJC at the September meeting of the board Wednesday night at PBJC Central.

Dr. Dyer is currently Provost of PBJC South, a position she assumed in August, 1981. A committee will be appointed by Dr. Eissey to aid in the selection of a successor to the PBJC South post.

Dr. Eissey nominated Dr. Dyer from a final list of three candidates chosen by a committee made up of vice presidents, department chairpersons, a dean and the director of personnel.

The committee narrowed an applicant list of 80 down to seven who were interviewed. Dr. Eissey personally interviewed the final three.

Dr. Dyer will begin work with Dr. Paul W. Graham, Vice President of Academic Affairs, on October 3 in preparation for Dr. Graham's retirement on June 30,1984, when she will become Vice President.

The position is one of the most important at the college, reporting directly to the President, and bearing responsibility for all academic affairs at all four PBJC campuses.

Deans of Instruction, Divisional Chairmen, and Department Chairmen all report to the Vice President of Academic Affairs on all academic matters.

Prior to being named Provost of PBJC South, Dr. Dyer was an instructor, Department Chairman and Dean of Academic Affairs at Broward Community College.

She has been an efficient administrator at PBJC South, improving both the college and its reputation in south county communities. She has also served with distinction in many college-wide activities.

Her undergraduate education, with a

United Faculty Contract Approved

Just in time for the eight percent raise to be reflected in the paychecks of Oct. 5, the contract between the college and the United Faculty of PBJC was ratified unanimously by the trustees Wednesday, Sept. 28.

Since the union had already ratified Friday, Sept. 23, the contract went into effect Sept. 29 and will remain in effect through June 30, 1984.

Dr. Eissey said he was pleased that the contract had been approved.

The board also acted to increase student fees to replace student financial aid. The increase of five percent, allowed by the 1983 legislature which also restricted use of other funds for this purpose, will bring in-state tuition to $19.95 per credit hour, and out-of-state tuition to $39.90 per credit hour.

If permission is granted, the college will round out the figures to $20 in-state and

Cont'd on P2

PBJC South administrators will meet with South County business and industry leaders to solicit ideas and advice in planning curriculum to fit the area's future educational needs.

The luncheon meeting will be held Tuesday, Oct. 4 from 9AM to 2PM at the Holiday Inn on Glades Rd. and I-95 in Boca Raton.

Multicultural Reception Unites Nations

A reception held Sept. 27 for representatives from ethnic communities in the county was an "absolute success," according to John Townsend, coordinator of the Center for Multicultural Affairs.

Dr. Eissey spoke to the group, relating his experiences with Nicaraguan guerillas while on a fishing trip in Costa Rica.

"If there was ever a time I wished I knew how to speak Spanish, that was it," he said.

Representatives from over 15 different groups attended, many wearing the costumes from their natives countries. The nationalities included Polish, German, American Indian, Syrian-Lebanese, Finnish, Irish, Czechoslovakian, Ukrainian, French, Danish, Norwegian, Black Citizen's Coalition, and Hispanic.

In addition, two students from Nigeria, a student from Columbia, and two professors visiting from Taiwan were guests.

"Some clubs (in the county) were not represented, and these we would like to encourage again to join us," Townsend said.

Annual Alumni Luncheon

The Foodservice Center will be a very popular place this Thursday at noon. The Annual Alumni Luncheon Meeting is scheduled, and guests include Dr. Eissey, several PBJC vice presidents, a state senator, and some judges.

The Hospitality Management Department plans to award a plaque to representatives from the Palm Beach County Restaurant Association in appreciation for the support that group has given the college.

This luncheon is also the first in a series of meals to be prepared by the Hospitality Management students for PBJC employees and students, according to Scott Vogel, instructor.

The menu for Thursday includes chicken Marengo, rice pilaf, broccoli and cauliflower, French bread and tossed salad. The cost is $3. For reservations, call 8125.

Contract (cont'd from P 1)

$40 out-of-state. The fee change goes into effect in the Winter Term.

In other actions the board:

* Approved educational specifications for remodeling the PBJC Central auditorium.

* Accepted a state survey of PBJC South which authorizes construction of 132,919 square feet when funds become available.

* Authorized a fee of $1 per person/per court for non-college personnel use of tennis and racquetball courts.

* Approved recommendations for promotions for four faculty members: Dr. John Adams, Odas Arant, Dennis Davis and Philip Millard.

Dr. Dyer (cont'd from P 1)

mathematics major, was at Fresno State, where she also obtained her Master's Degree. Her doctoral work was at Stanford and Florida Atlantic.

President's Scholars To Be Honored

Forty-eight students from 17 high schools in the area will receive scholarships to PBJC at a ceremony Wednesday, Oct. 5 at 7:30 p.m. at the PBJC Central Auditorium.

The students are recipients of the President's Scholars Awards, which are full scholarships to PBJC given to any high school student who graduates in the top five percent of his or her class with a 3.5 grade point average or higher.

"The goal of this program is to provide incentives to the students who have excelled in their high school work and a scholastic challenge that will encourage their intellectual growth," said Hamid Faquire, director of financial aid.

Special guests at the ceremony will include Dr. Eissey, Mrs. Dolly Hand, vice chairperson for the Board of Trustees, and H. W. Berryman, assistant superintendent for Regular Instruction for the Palm Beach County School System.

The high schools represented in the program are: Atlantic High, Boca Raton High, Cardinal Newman High, Christian Day School, Clewiston High, Forest Hill High, Glades Central Community High, John I. Leonard High, Jupiter Community Senior High, Lake Worth Community High, Lake Worth Christian, North Shore High, Pahokee Junior-Senior High, Palm Beach Gardens High, Rosarian Academy, Suncoast High, and Twin Lakes High.

Personnel News

On Monday, October 3 Ardease Johnson will return from her maternity leave of absence and will resume her duties of Personnel Coordinator/Classified Programs.

Shelley Carton will be moved into the new position of Personnel Coordinator/Professional Programs. In this assignment, she will be responsible for coordinating the employment of adjunct (part time) faculty, maintaining faculty records including those associated with "Maintenance of Professional Standards" and coordinating our wage and salary program.

If there should be any questions regarding the divisions of responsibility between these two positions, please feel free to call me. ...Joseph M. Schneider

Announcements (cont'd from P 4)

We have received a communication from the Treasurer of the United Faculty indicating that union dues will be increased from the current rate of $13.50 to $20.00 per month. Those bargaining unit personnel who have signed "check off" cards will have the deduction effective November 4, 1983. ...Joseph M. Schneider

The PBJC Reading Center has moved into its newly renovated quarters in AD 5-9 on the Central campus. In addition to courses in reading improvement, laboratory hours are available to any currently enrolled student who desires to improve his reading-study skills. Personals . . .

The Monday Report got bad news and good news about Dr. Joan Young from Dr. Eissey last week. The bad news was that Joan was in Doctor's Hospital last week, the good news is that she is now in satisfactory condition, and tests are negative. She was in Room 223 when the Monday Report called, but she may be home by the time you read this.

The faculty of the PBJC Reading Center wishes to express appreciation to the many people who have been so helpful during the period of the renovation of the Center. Our heartfelt thanks!

...Mary Bosworth, Helen Darcey, and Dorothy Witherspoon

Announcements . . .

The name tag count for the recent President's Reception for new faculty showed 260 in attendance. This is the largest such gathering ever held. The food was terrific, and everybody seemed to have a good time.

All Faculty Evaluation Item Selection Forms were to be returned to the Testing Center by September 16. If you have not returned yours, please do so by Friday, Oct. 7. Please remind your students that there is a $2.00 fee for each make-up test.

PALM BEACH JUNIOR COLLEGE
PBJC MONDAY REPORT

Volume V, No. 50 October 10, 1983

Good For Both

College And Community Went To South County

South County leaders in business, industry, and government met with Palm Beach Junior College Monday at the Holiday Inn in Boca Raton to talk about the future of both the college and the community.

There was a clear consensus among conferees: The meeting was good for both college and community.

Again, as in the case of the similar program put on by PBJC North months ago, the major finding was that business and industry leaders have very little idea of the broad range of programs and services available through the community college. We need to do more--much, much more--to tell our story to the people of South County.

One suggestion involved attendance by a college team at management meetings at some of the big industries in the area, and it was immediately made clear that we need only be given a specific date, and we will be there.

Another was for a concentrated information drive in the south comparable to our efforts during the millage campaign, perhaps using similar techniques.

As expected, there was considerable talk of high tech and the computer, but there were also some realistic assessments of the job potential of high tech, and an understanding that many of the jobs of the future will be in business and commerce, and in the low tech areas of high tech industries.

The turnout was not as large in numbers as had been hoped by Dr. Pat Dyer and the others at PBJC South who worked for the meeting, but it was very high in quality. Representatives from most of the major industries of the area, and from local and state government were in attendance.

In commenting on the need for more public awareness of the college, one conferee said emphatically, "You need to have more meetings like this one."

... Jonathan Koontz

PRESIDENT'S SCHOLAR AWARDS GRANTED

Scholarships which could be worth as much as $1,200 each were awarded to 48 of the top scholars in 17 county high schools Wednesday night by Dr. Edward M. Eissey.

President's Scholars are awarded free tuition for full-time attendance at PBJC for four terms, provided they maintain the high scholastic standards which caused them to be selected by their high school principals for the award.

The students must be in the upper five percent of their class and also have a grade-point average of 3.5 or higher.

Dr. Eissey told the scholars that they may be able to look forward to continued assistance from Florida Atlantic University if they choose to continue work at that institution.

"So far," he said, "every PBJC President's Scholar who has wanted to attend FAU has been able to continue his scholarship at FAU. We hope, and I'm sure they hope too, that they will be able to continue this policy."

Please look carefully at your tickets to the dinner/dance before calling Dr. Erling's office. You will see that one of the tickets is for the dinner and the other for the complimentary cocktails. Also, be sure to look on the other side of the dinner ticket--your table number is there.

The American Lung Ass'n will man the Lucy booth Tues., Oct. 12, from 9 a.m. to noon on the north side of the cafeteria.

THIS Week . . .

Oct. 10-14	Voter registration in Central cafeteria; 8 AM-2 PM.
